FALSE PROPAGANDA. Every year after mid-year examinations the story goes the rivals that more are now judged than in any year preceding. When asked for an example the answer is invariably to the effect: "The movement is so large that it is impossible to make a count of them in a room. They just have to pack a large number of them out. By "they" it is presumed that the different college sections.

It seems unfortunate that students should spread such propaganda concerning their opponents. Herein is the case of a few instructors drunk with power, and as a result, some of them believe that these movements do not hold true. The instructors are not bent on inducing the men and because of this they realize what it means to the individual concerned and some who must be standards of scholarship to judge the students. By the students if the facts, the story does not exist, they cannot help trusting it. In many cases where these standards do not exist, some course to accept which will justify an exception to the rule. But the story does not hold true.

When a large number of men from one class rank out it refers upon the instructor more than it does upon the students. In investigations it is found that the number of Bathrubs in the classes of the heads of departments is less than in the class, where all the attention is given to certain or less experienced instructors.

The reason for this is that the poor instructor or change in some other matters which will enable them to get a better knowledge of his subject, makes him a better disciplinarian, can explain his subject in a better teacher.

As to the argument that it is necessary to rank out because of the large enrollment, there seems to be some doubt. Possibly no more men are accepted in the first place than the department can adequately handle.

Certainly no faculty is going to accept a large number of men for the first term, they all desire that term and that they should be able to do the course. Because of the large number, many should be filtered out. We must give them facilities to get the necessary information.

Berkshire Life Insurance Company

We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company. There has never been a time when life insurance has been in such popular favor as now; nor a time when people are so dependent upon life insurance as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

The only cigarette above the cheapest brands & just in your own way a tremendous, nation-wide popularity is Fatima.

Fatima's sales nearly equal those of all the straight Turkish cigarettes combined; and no other cigarette costing as much as Fatima has one-half of Fatima's annual sales.

The reason may be that Fatima contains more Turkish than any other Turkish blend. This would mean, in other words, that instead of containing too much Turkish as straight Turkish cigarettes do, or too little as in the poorer Turkish blends, Fatima's famous blend contains just enough Turkish—just enough to taste right and just enough to leave a man feeling right even after smoking more than usual.

If you said it wasn't a Murad, I would know you were only joking—one can't mistake them—for Murads are 100% pure Turkish tobacco—the world's most famous tobacco for cigarettes.

Murads have that old-fashioned Turkish taste—and upon my word, I never bought as good a Turkish cigarette at Cairo or Constantinople.

It is true that "ordinary" cigarettes cost a trifle less.

Judging for yourself—!
