We are always ready to talk with young men about entering the life insurance business and connecting ourselves with this Company.

There has never been a time when life insurance has been in such popular favor as now; nor a time when people so dependent upon life insurance as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

ADMIRAL SIMS GRATOR
FOR UNIVERSITY DAY
(Continued from First Page)

tous Birthday as University Day. The practice developed early in the late 19th century in Germany and the United States, and the practice of Doctor of Laws in Germany is based on a suggestion made by Albert, Prince of Prussia, to the German government in 1815. Since then, the title of Doctor of Laws has been conferred on many distinguished persons, including Albert, Prince of Prussia, and his father, King Frederick William III of Prussia.

President William H. Harburg and Chancellor R. M. Buxton, Jr., are expected to be present.

The program will include a speech by Dean of the College of Liberal Arts, and the presentation of a plaque to the American flag by the Student Body. The presentation will be made during the noon luncheon at Alumni House, 424 Chestnut Street.

The University will confer the degree of Doctor of Laws on President William H. Harburg at a special meeting of the Board of Trustees on Wednesday, March 2.
