In the current issue of "Judge," the editor has included a feature article on the 22nd Annual Meeting of the American Historical Association. The meeting was held in Philadelphia, and the attendees discussed various topics related to American history.

The feature article highlights the contributions of several scholars who presented their research findings at the conference. The attendees also participated in panel discussions and workshops, fostering a collaborative environment for the exchange of ideas.

One of the keynote speakers at the meeting was Dr. John P. McCarthy, who delivered a lecture on "The Role of Technology in American History." His talk focused on the impact of technological advancements on society and how they have shaped modern-day America.

The meeting concluded with a banquet, where attendees enjoyed a variety of dishes, including chicken, beef, and fish. The banquet was followed by a performance of "Les Femmes de La Terre," a play written by Molière. The play was performed by the Debuters Stage and received enthusiastic applause from the audience.

In addition to the featured events, the conference also included a variety of other activities, such as tours of historical sites and exhibits. The attendees had the opportunity to visit the Philadelphia Museum of Art, the Liberty Bell, and Independence Hall, among other landmarks.

Overall, the 22nd Annual Meeting of the American Historical Association was a successful event that brought together historians from around the country to discuss and share their research and insights on American history.

Rubber Industry Needs College Men

Excellent opportunities are in the rubber industry are offered by the Good rid Tire and Rubber Company to men graduating from the University this June. One hundred positions will be offered to the students who will enter the Goodrich training school for a period of from four to six months. Practically any type of position will be available in these men are warranted satisfactory completion of this course. During the period of instruction a salary of $15 a month is paid. After the training period salaries will be paid in proportion to the men's worth and ability. The scope of employment constitutes the main part of the course. After adequate instruction the men as a part of their time will be sent throughout the country to work with rubber operators and experienced chemists. This is the practical side of the training. Men particularly qualified to order the expert experience through previous experience and a knowledge of foreign languages will be given special consideration. Any high school instructor interested in entering the rubber industry should immediately apply to the goodrich Tire and Rubber Company, Akron. If enough men are interested in the proposition, Mr. Lake may soon receive your letter asking for personal interviews.

CREW EQUIPMENT WILL BE INCREASED BY NEW BOATS

It was announced yesterday that a new eight-oared shell and two new barges have been ordered by the Rowing Committee for the spring season. These additions to the equipment have been long awaited from Boston and are expected in about four to six months. The shell and the barges are built in the most modern and approved methods, and are equipped to be used in the "Vesper" in the Yale rowing crews on May 17, and will comprise a piece of equipment of the latest American type. The boat has been made to be the pride of the Yale men. The expected date of arrival is March 15.

BARGES BEING CONSIDERED FOR THE WHICH WILL BE BUILT AT THE FACTORY

In the last few days Committee for the purchase of barges have been touring the United States to work with older and experienced men. Commission to right people. Hon. Leonard C. Ford of New York, who is especially interested in the development in clothes, hats, shoes and apparel, has been appointed chairman of the committee to work on barges from the factory. The committee is expected to return to New York shortly.

- a new blend that makes good tobacco taste better.
- A blend that makes the rich Oriental tobaccos richer by pleasing combination with mild, fragrant Burley and other home-grown tobaccos.

**Top of the Heap**

Spur has something new that smokers want—a new blend that makes good tobacco taste better. A blend that makes the rich Oriental tobaccos richer by pleasing combination with mild, fragrant Burley and other home-grown tobaccos. But that's not all—

There's Spur's satiny imported paper, crimped in rolling, not pasted. Then there's Spur's smart "brown-and-black" packings, triple-crimp-paper, that makes Spur look the quality cigarettes it is, and keeps Spur's fresh.

Spur is in at the top, and there to stay.
