We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company.
There has never been a time when life insurance has been in such popular favor as now; nor a time when people are so dependent upon life insurance as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

CO-OPERATION KEYNOTE OF CAMPUS JUBILEE
Committee Meeting Tomorrow Evening
at the Incelen Final Place for Big Event.
Further development of Jubilee theme, the earlier reports indicated University support, which will be the keynote of the coming event. The Jubilee Committee of this company thought the moment had yet come when it was necessary for the time to develop the full resources of the campus. On an earlier occasion the enthusiasm of the students was manifested in the flag program and this year the aim is to give the campus an opportunity to show its resources. The students, through their organizations, will present the features of the big parade which will precede the opening ceremony and a magnificent performance. With much of the University taking part in the procession and the many other attractions planned through undergraduate and fraternity activities, the students have an excellent opportunity for public relations.

Dexterity will be shown in producing an unusually successful affair.

Up-to-date fashion and information on "How to Save in Buying, " in series of $1 to $5 a pair.

Are you aware of the fact that there is no necessity of paying ex travagant prices for shoes? Do you ever consider the operation of a little money in where you buy. Arguments are presented against the high prices satisfied for shoes.

To these assertions they have responded by numerous articles in the newspapers in order to uphold their business dignites. It is a race between the man of the consumer profits.

The American Boot Shop have fixed their prices so that no one will be caught too high in the newspapers advertisement, because their job and other shoes are made for being able to sell if you have a low market.

They are situated on the square.

They have direct from the shoe manufacturers and direct on sales.

They are not a suitable help and go to numerous industries.

In this manner they are able to give their customers the highest grade merchandise at 10 to 20 and 30 per cent less than the current prices of other stores.

They are supplied by our manufacturers and our stock is in style, in which respect the impression is never felt.

In order to be convinced of these statements, visit the American Boot Shop, 310 Market Street, or their annex at 2170 Woodland Avenue, and let us prove them for you.
