Is a Change Possible?  

The question of a change in the present system of examinations is one that is much discussed among the students of the University. A change in the present system, it seems, would have little justification, but it undoubtedly does work much hardship.

Because of this rule, many students plan to take nothing but examinations and to carry on a course for their last three years. This makes the question of a change in the present system a matter of serious consideration. A change in the examination system would have little justification, but it undoubtedly does work much hardship.

When it comes to樱花, Harvard must "be made this week."
Berkshire Life Insurance Company
OF H. TSFIELD, MASS.

We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company.

There has never been a time when life insurance has been in such popular favor as now; nor when a time when people are so dependent upon life insurance as now; nor when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.
