Berkshire Life Insurance Company

We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company.

There has never been a time when life insurance has been in such popular favor as now; nor a time when people are so dependent upon life insurance as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no inventories and offering facilities such as few lines of business offer.

The Pennsylvanian heelers will fare this year. Captain Charnock, of the second Freshman boat, are especially needed, and men who are too light to get on regular eights, are urged to try for these boats. The new eights, which will be selected for each class, will only carry two coxswains instead of three as heretofore. New York to-day to enter for the Intercollegiate foil team, will also have a good opportunity for the class crew. Coxswains for all embryo journalists who wish to try their hand at competitive rowing, will be selected for each class, and these will later compete for the Powder race.
