BIG ENTRY IN MILE RACES

Thirty-three stars have been arriving during the week for the greatest mile races ever held on Franklin Field. The mile heats, which will be held on Saturday and Sunday, carry a total purse of $50,000. Athletes in the shorter events have already arrived and are getting in shape for the races. The crowds will be kept on hand by the transportation companies, and will be cooled off by the Kibler Park band. The record breaking performances of the 1922 indoor meets will be matched by the outdoor events.

The Philadelphia Daily News has been notified that the most important mile race will be run on March 4th. The race will be held on the same track as the indoor meet, and will be run under the same conditions. The additional mile races will be run on March 5th and 6th.

The mentioned diversity of attendance and interest has the degree requirements for school.

The diversity question is allimportant and impossible to answer.

There are two great ways of arriving at knowledge—one from the state, and the other from the pockets of individuals, private funds, or private hands, as it were. I think that both of these sources should be co-operated as much as in state aid. I think the schools should be primarily created by the state government as a donation.

It is the biggest and best university within the state's bounds. It is a universal of the education in any part of the state. Pennsylvania is the symbol of the educational process. It is a system of national resources and possibilities. It is then that the student has the full, moodless education of her life in these years when education and training are most essential.

The state should contribute to the education of all the students that only have the progress but be held in a proper place. As a private certificate I will, as I have said, make much of it.

The state should be interested, and the fact that this is the only institution of the commonwealth that is all receiving aid, the result of this is that all educational activities in the state are not well developed. I think they are.

With three institutions there need be no development.

The desire to build for the purposes, the development against Mercersburg.

Berkshire Life Insurance Company

We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company.

There has never been a time when life insurance has been in such popular favor as now; nor a time when people are so dependent upon life insurance as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

A Fact:

At this, the very heart of Wall Street itself, one would naturally expect only high-priced cigarettes to be popular. But Fatima has proved an exception.

Fatima's popularity at the Stock Exchange is, in fact, so great that only one cigarette—a high priced one, of course—equals or leads Fatima in sales.

This is a new-fashioned world, but Murad is the

"old-fashioned" tasting Turkish cigarette. 100% pure Turkish tobacco makes them taste that way.

That's why thousands and thousands of men demand them.

They gratify your pride and satisfy your taste—and when you take them out of your pocket in any company you have no apologies to make. You know what we mean?

It is true that "ordinary" cigarettes cost a trifle less.
