GILKEY WILL GIVE SECOND LECTURE

Noted Student Speaker Will Talk on "Social Aspects of Religion"

Tonight at 7:30

CONFERENCES MAY BE ARRANGED

Dr. Charles W. Gilkey will give this evening at 7:30 the second of his series of three discourses on "The Social Aspects of Religion," given after conferences arranged through the offices of the Christian Association.

At the opening meeting last night Dr. Gilkey gave an engaging character sketch of personal experiences and showed a keen analysis of his subject matter. For instance, he pointed out the difference between the way the subject is treated by the average student in college and the way it is treated by religious writers and philosophers. He called attention to the fact that while religion is often discussed in college classes, it is rarely discussed in the light of its social aspects.

A college man can set his own course is complete unless he has faced and answered the question, "What is there in religion?" "A college education is intended to bring men up to the things of life, and religion is the biggest thing in life, why should this issue be avoided?"

An Unnecessary Explanation

In the Student Union's upper room there appears to be a statement from the Pennsylvania State Society and the Advertising Association which presents the views of those organizations in regard to the advertised celebration Monday. The writers discuss the action of individuals in the Engineering Building.

The fact will constantly be on our minds that we are before recreation which is the fundamental purpose of vacations. If our work is not up to par, we will not gain that mental respite. Then another short week of school and we are off to the holidays for Christmas vacation. If we are sure of our home for Christmas vacation, if we are sure of a position for the spring term, and if the authorities at the University of Pennsylvania are destined to no departmental building on the campus, and the Tryon School is not a grounds for defense.

The Halfway Mark

The days have slipped by so swiftly that it is hard to realize that the first term is half over. The hustle and bustle of getting started, and the nervous tension of the football season have proved distractions that at times have made us lose our bearings.

Not in It

The Indians may have done a lot of "scalping" in the big days, but as "marginals" they can't compare to a certain organization that we know of.

A Word From Mercersburg

"The bad boys do live down there, the good is out in their faces." These cynical views have been refined many times by the old-timers through the death of Andrew Lang. All of us here at Pennsylvania realized what an inspiration his life and death was to us. We are happy in the knowledge that those whom we bore at the times of the accident will make the best ultimate sacrifices that were in Andrew's place. The following letter from Dr. Irvis, Headmaster at Mercersburg Academy, carries a message for every Pennsylvania student.

COMMUNICATION

In order to explain the occurrences of last Monday, Horizons Society and Engineering Association would like to bring the following statements to the attention of the University.

In any burst of enthusiasm there will be unfortunate accidents. It was so in the rally following the Navy game but these were later forgotten in the splendid display of spirit. Last Monday a celebration had been forbidden by the powers that be. Therefore the mob was inhibited and restrained. That regrettable happenings followed was fortuitous and is not fair ground for the censure of the Engineering School, although the thoughtless acts of individuals must be apologized for by them. The blame for the whole should be entirely accorded to the fact that no Pennsylvaniaans are delivered to the Tomes School. The students of the Tomes School were not informed in any way of the attitude of the University upon this matter. The men who started the rally started it in the spirit of the former co-society to Pennsylvania and delight in her victory.
