SOPHOMORES VOTE ON NEW CONSTITUTION TOMORROW NOON

Members of the Sophomore Class will meet Thursday afternoon at 1 o'clock in Weightman Hall. Among the several important matters to be brought up at this meeting is the ratification of the newly drawn up constitution.

This constitution, which has been running in The Pennsylvania during the last few days, includes all four of the undergraduate departments of the University. It is proposed and drawn up by the members of the Undergraduate Council.

Announcements of importance are to be made at this meeting. Among several other items to be discussed at this time are the Pennman Bowl Contracts and the Sophomore Press, which will be held Friday evening, April 27th, in Weightman Hall.

PELNIAN BOWL BASKETBALL
IN WEIGHTMAN HALL TODAY

Interclass rivalry will again reach a high pitch when the sophomore basketball team meets the freshman squad in Weightman Hall this afternoon. The outcome of the contest will tell whether or not the sophomores will retain the lead in the Pennman Bowl contest or tie with the freshmen.

The freshman five is determined to assert the victory but the sophomores are ready to give them some stiff competition. The freshman five has a slight advantage over the sophomores in that they have been working together the greater part of the season while the sophomores have not.

Last week in the boxing and wrestling meets the freshman showed much more interest than the sophomores.

Train For Leadership

To men who are eager to develop the qualities that make a man just right, the Babson Institute offers a fitting course of study. 

In the Babson Institute, men, whether they be aged enough or not, are trained and fitted to fill a position of responsibility in the business world.

The Babson Institute is an educational institution designed to train young men for executive responsibility in business. It is shown how to apply fundamental principles in the conduct of every day commercial affairs.

To anyone who is eager to shorten the time that might be otherwise required in reaching the status of executive, the Babson Institute is the foundation for the individual successes that men or events may do. And nothing can deprive the teacher of his rightful share of such triumphs!

The teacher honors himself in the usefulness of his students. And the teacher of engineering, especially. His laboratory and his materials are in the minds of men. He shows them the right and constructive use of the senses and the memory in securing and storing information. He trains the judgment and the will to decide. Little by little he develops the man who gets things done.

This thing of building men is one of the most fascinating vocations known. The pleasure that grows out of watching men develop, out of seeing them make effective use of the fundamentals that have been so carefully given them to use—it is double if there can be any pleasure much deeper or more satisfying.

SUCCESSFUL MEN wear custom clothes because they fit better and are smarter in appearance; because custom-clothes wear twice as long as a ready made suit or overcoat owing to the finer materials and hand work used.

This is real economy too and our store is in excellent position to suit your purse and your personality. Come in today and see us.
