For the coming conference I have the General Chairmanship of David F. McMillan, Captain of the last year’s Big Ten baseball team and one of the organizers of the conference. The work of the committee, I believe, will be divided among a number of members of the committee, which is under the direction of George S. Nesbitt of M.I.T. and Dr. Carlss, the chairman of the committee. The details of the actual arrangements will be arrived at in the organization meeting of the committee, which will be held in the next few weeks. The conference will be held in Philadelphia, Pennsylvania, in June, and the dates have been set for the first and second meetings of the committee.

ROONEY STARS FOR ITHACANS

Pennsylvania’s lacrossemen opened the spring schedule by defeating the strong Cornell twelve on Saturday afternoon by the score of 5 to 1. The game, which was played at Rival Field, was watched by the brilliant work of Wittg, Pringle and Latimer, the Red and Blue attackers, and was made more difficult by the fact that the Pennsylvanians were forced to play without the services of two of their key men, who were absent from the game. During this time Coach Young has been through the conference, and the men he will select for the final team will be announced in a few weeks.

CANDIDATES NEEDED FOR BUSINESS BOARD

Pennsylvania, who is interested in competition for the business board of the Pennsylvania can sign up and begin their campaign for the business board. The board has not yet announced that Friday at 6 P.M. will be the latest hour at which entries will be accepted.

The work consists mainly in securing advertisements from the various business firms in the city about the election. Preference is given to meeting business men and communicating with them. The position is open to any student who is interested in the work. The candidates are urged to report at the Foot Office, the other to the associate line-up according to batting order:

<table>

</table>
Three Years for a Start

JOHN HANCOCK experience shows that if you sell life insurance for three years you will continue for your entire active business life.

Why? Because you will find it the most pleasant and remunerative business you can choose. It is constructive work, it produces self-reliance and independence and affords the greatest satisfaction in every way. To be a John Hancock representative in your community is to stand for the best there is.

Before making any decision regarding your career write the "Agency Department ."

Books of the Day
AN HOUR WELL-SPENT
PATTER PERRINS: By Kenneth Brown, New York: Houghton Mifflin

In this modern day of ours when it seems as if there is always something to be done, and we never seem to quite clear up everything, there is nothing pleasanter than to put all aside for an hour or two and read needed diversion from some harmless bit of modern fiction. It is most satisfying to pick up a rather thin book, become fairly interested in it, succeed in finding a few stories and remarks in it that are quite new and then—finally put the book down with a smile and forget it. Into this class we put the little force “Patter Perrins” by Kenneth Brown.

“Patter Perrins” has an air the moral and serious party just around it. It is written for that large class of the reading public who spend their Sunday afternoons on the links, or at least on terms of understanding with the game. It is written in the vein of cheerful optimism which pervades its pages cannot be lost to anyone as little acquainted with the game as in question. It is a book, not to make better golfers, but happier ones, and if this purpose is borne in mind, we can hardly fail to enjoy it.

One of that array of “twenty-four hour” hand-dips—it seems—merry men call them dubs—in the horn of the story. He has a scientific mind and is laboring to make those good old United States aide from foreign invasion through a great invader. Golf is merely his sideline. However when his talent goes unappreciated he decides to make a name for himself in something that really requires—golf, for instance. Because of this new resource and a few infuriating vagabonds, he splits his scientific mind and the game and remarkable and astonishing are the results. His concentration on his putter brings with it fame as well as fortune, and when he finally returns to his twenty-four hundred he has achieved what few thoughtPossible.

The whole is set forth in so simple and pleasing a way that the reader is caught even at the last page and he begins to notice the power of the hero. He has found out what this game in question means and has brought with it fame as well as fortune, but happier ones, and if this purpose is borne in mind, we can hardly fail to enjoy it.

Strange!
It’s queer one year, and—perhaps worse, something which gives him quite a name for himself in the game. This pessimist must admit it’s peculiar.

“Patter Perrins” has a study of conditions in the West Virginia coal fields, “The Tyranny of Power,” a study of conditions in the Russian Soviet Government, and “Deepening Shadow,” explains the foreign Invasion through a great Invasion. Gull is merely his sideline. However when his talent goes unappreciated he decides to make a name for himself in something that really requires—golf, for instance. Because of this new resource and a few infuriating vagabonds, he splits his scientific mind and the game and remarkable and astonishing are the results. His concentration on his putter brings with it fame as well as fortune, and when he finally returns to his twenty-four hundred he has achieved what few thoughtPossible.

CINDER TRACK SEASON OPENS
Runners Commence Intensive Workouts in Preparation for Carnival and Spring Meets

RELAY TEAM TO RUN AT KANSAS

After the first training indulged in immediately following the indoor season the Red and Blue trackmen have undertaken a more strenuous schedule of training in preparation for the Spring Handicaps and the Annual Relay Carnival which will be held here April 27 and 28. The cinder track is now in condition and will be used, although it is not entirely finished.

Coach Robertson has been spending considerable time with Hamer, Thorman, and Papiwront, the weight men. Hamer has been putting the shot, throwing the discus, and working out in preparation for the javelin events, while Thorman and Papiwront, who has also been training for these contests, are showing marked improvement.

Hewitt and Owens, who will enter the pole vaults, have been undergoing fairly light workouts, which will continue for the next few days, after which time they will start their strict outdoor training. Both these men have shown up well during the indoor season and Coach Robertson is confident that they will do good work throughout the outdoor contests. They will meet with stiff opposition from other schools, and will complete with Norton of Kansas, winner of the Middle Western Conference and other pole vaulters of equal merit.

Rose has been training constantly for the broad jump, while Nebol is preparing for the high jump. Captain "Boots" Lever is practicing daily on the track in the hope of being able to annex one of the broad jump honors during the season. The relay team, that will go to Kansas to compete in the relay event at the Western meet, will probably include Lever, MacLaren, McMullen, Martin and Head.

OPPORTUNITIES in the Telephone Industry

SENIORS and graduate students in Engineering or Arts and Science are invited to confer with the employment representatives of the Bell System who will visit the University of Pennsylvania April 12th and 13th, and may be seen at the Engineering Building.

The Bell System which is composed of the American Telephone and Telegraph Company, the associated operating telephone companies, and the Western Electric Company, offers a wide choice of work and location to qualified men.

Opportunities will be presented in research and technical development, application engineering, supervision of telephone operations, manufacturing, installation, sales and distribution.
