LIBRARY TO BE REMODELED SOON

Inside and Out Will Be Changed to Provide Greater Convenience For The Students

INSTALL WHARTON ELEVATOR

Remodeling of the University Library will be the next step in the building program of the University according to the announcement made by the trustees of the institution following their meeting yesterday at the Freshmen Club.

The plans now on foot call for changing the library both inside and out, having for their object the improvement of the appearance of the building and making it of greater utility and convenience for the students.

Outside it is planned to erect a sign 100 feet high of electric light bulbs to better light up the entrances to the library from the power house at night.

There will also be erected an exterior branch on the 4th fl. side of the building for the purpose of taking Wharton students to their own library without interference from the crowds who usually enter the library. This has been provided for earlier prominent demand on the part of students.

The removable of the week-end metal doors will enable a great many students to become eligible for this privilege when assemblage in large numbers will cause great inconvenience to the students. For the sake of the students and for the sake of the University it is thought that the present and future need of the library is for more space than now exists.

Another feature of the remodeling of the library will be the erection of kitchen facilities in the basement, and the installation of storage for hot coffee and tea on the main floor. The librarian when asked his opinion stated he was entirely in favor of it since it would take care of the great surplus of space that now exists in the library.

DOUGHTY DEEDS OF DANIEL BOONE INSPIRE NEW CLUB

A new organization came into being yesterday when the Daniel Boone Club was duly organized and chartered. For many years now a club of this kind has been discussed, but until now there was no definite plan formulated but nothing definite was done until a few weeks back when a spontaneous and impromptu meeting of several eligible students was held. The Constitution and By-Laws of the organization were then drafted in order for it to be in good standing hereafter.

The only requirements to be eligible for this organization is that the prospective member render two years that he is capable of supporting Daniel Boone and other hard working pioneers who may need a chance to show their worth.

The annual meets of the week-end metal doors will enable a great many students to become eligible for this privilege when assembled in large numbers it will cause great inconvenience to the students. For the sake of the students and for the sake of the University it is thought that the present and future need of the library is for more space than now exists.

The library is already at work on a series of new publications which the students will be proud of owning. It is expected that these publications will be distributed to all the students in a short time.

I mortal Goethe, "O, tempora, O mores." It is evident, to all.

When Theodore Roosevelt said "We are two proud to fight" the reader is truly marks an epoch in the history not only of the Armed forces, but of the Student body.

The Penn $2.50

The Penn

The Columbia crew forwaid ahead for their meet and then kept the lead. (Editor's Note: The honors here are derived from the Penn on the notes "about." Penn are very to write the action of the University."

The Pennsylvania is native to the one university in the country to abolish second-class was not referring to Pennsylvania men. It is evident that he had been the first university in the country to abolish second-class men. He stated that in passing such a resolution the street is under repair.

It is evident that the problem of coeducation is very serious. As George Washington once remarked, "Four score and seven years ago, our fathers brought forth on this continent a new nation conceived in liberty and dedicated to the proposition that all men are created equal." It is evident from this statement that George was not in favor of coeducation. But in the other hand as "After Marcy, Winter O'Connell, Percy Hargun, Harvey" and seventeen other coaches used to say, "a team that was beaten, can't be beaten." It is evident that an Abbeville Lincoln once wrote "When in the centre of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, of mankind requires that they should declare the causes which impel them to the separation." By all means, we must be decent, but we must also remember that "All legislative powers shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives." The pertinence of this statement should be evident to all.

It is evident that what is needed in Pennsylvania fight. When Theodore Roosevelt said "we are two proud to fight" he was not referring to Pennsylvanians men. It is evident that we can delay action no longer. It is evident that if this editorial appears as great results as previous editorials on coeducation written by the Batters of this paper, the growth of the School of Education will continue uninterrupted. In the words of the immortal Goethe, "O, tempos, O mores."
