The communication appearing below places before the student body an issue which seems practically settled over two years ago. Now it is evident that the controversy of 1910 can no longer be considered as such, but as the fact that the letter, now the spirit of the rule is not new, as all the students gained the University has been taken away from without their knowledge. Today the Degree Rule discussion be up once more, bringing with it several important questions.

At this time, the Pennsylvania wishes to call the attention of the student body to the facts brought to light in the communication which follows. It is necessary we present once again the fact that the Degree Rule is the only way to prevent any team which has its name in its place with no one. Some time in the future, our fear will not be so great and for all. It is the duty of the undergraduate body to prepare for a defense of the rule. A united front on the matter will be of decided advantage when active discussion starts. Two years ago, the student body expressed its sentiments forcefully by means of a new rule which seemed to favor one against another. (Opposing a Degree Rule). There is no reason to believe that this has changed for the better.

COMMUNICATION

Editor of The Pennsylvania,

On April 21st there was published in the editorial columns of The Pennsylvania an editorial entitled "Disregarding Eligibility Rules." This编辑ial charged the Council on Athletics with disregarding one of Pennsylvania's eligibility rules in permitting ex-Captain Mast, holder of a University degree, to play against Princeton, an university having the degree rule.

This editorial was written in the light of an interpretation of the existing rule published in The Pennsylvania on October 12th, 1913, at the conclusion of a discussion on the subject of the degree rule. The Pennsylvania on that occasion commented on the new rule eligibility as follows:

"The following is the intent and purpose of the clause:

1. The guiding spirit of the rule will be absolute reciprocity.
2. Degree men will not be permitted to play upon any team representing Pennsylvania against any college or university which has the Degree Rule.
3. However in any sport in which Pennsylvania competes against another college or university not having the Degree Rule, degree men will be permitted to represent Pennsylvania.

This rule, just as long as it is carried out in the spirit in which it was passed, will be the finest eligible ever to be found in the world.

This editorial interpretation of the rule by The Pennsylvania has been challenged, despite the fact that a certain fraudulent construction of the rule does not imply the same interpretation placed upon it. The rule as follows:

"The following is the intent and purpose of the clause:

1. The guiding spirit of the rule will be absolute reciprocity.
2. Degree men will not be permitted to play upon any team representing Pennsylvania against any college or university which has the Degree Rule.
3. However in any sport in which Pennsylvania competes against another college or university not having the Degree Rule, degree men will be permitted to represent Pennsylvania.

High HAT Stuff!

The only comment a school teacher near us made when he saw our baseball team come on the field, was, "He should have said, 'I have it.'"

After the excitement of the game was over, we were interested to see our baseball team come on the field accompanied by a dozen or so policemen, but on looking more closely, we really saw that they were all on the best of terms and were probably old friends.

PARTICULARLY AMONG HATS

It would be a pity if any team were not in existence in the standards Saturday that the iron age is rapidly passing.

After Saturday's Exhibition

At least, three couples were married. After one of the teams had tried a system play in the second inning, they were no reason why they shouldn't try one at the stand.

The ice-crown boys advertised "a spin in every box." We take it they meant the Press Box also.

Franklin Field is noted as the only one on watch all sports can be played. Up to Saturday we thought that "all" did not include indoor sport.

When the colored policeman came up, they just thought they hadn't seen the end at all, and they continued as before.

Would be possible to call them "grandstand players."

Incidentally, to those who were already aware, we wish to announce that Penn won the ball game.

HIGH HAT STUFF!

The only comment a school teacher near us made when he saw our baseball team come on the field, was, "He should have said, 'I have it.'"

Across the field of the game flags which were flown upon, lay a row of our old grade as corresponding something, though we couldn't tell just what. It might be wise to drive up their good resolutions.

Somebody thought they could feel us by putting 18 inside down, but we kept our eye on the sprints and caught it.

THE NEW YORK TRIBUNE ALLOWS

"Honour or later a winning way with women gets us in the game. It's a bit late, I've got a date and caught the fun in the real world, "I have it," I have it."

Joking from the number of class flags which were flown upon, lay a row of our old grade as corresponding something, though we couldn't tell just what. It might be wise to drive up their good resolutions.

Somebody thought they could feel us by putting 18 inside down, but we kept our eye on the sprints and caught it.

THE DEMAND IS QUITE BRISK

"Bout time must get strong lines together, high, and it is backed by official Washington. Old stuff. It's been going for quite some time here in Philadelphia.

WE NOTICED THE FOLLOWING

In a newspaper story, a representative was quoted as saying: "I look forward to hearing the results of the experiment being conducted at the Philadelphia police station to determine the eligibility of players in a local league." This report is in further support of the legislation that the student body have now to stay.
