GUN CLUB ENTERS INTERCOLLEGIATES

Final workouts in preparation for the intercollegiate meet trap shooting, which will be held at the West Chester Shermers Club, at West, N. Y., on Saturday, will be held at the Fairview Gun Club. The team has been practicing regularly during the last year, and alike. It has lost three men from last year's team, has a good chance of making a clean score.

Pennsylvania is sending a team composed of Captains Rice, Knoll, Young, Daugherty, Llber, Wetherell and Clark. A $100 cup will be the prize, being offered as a permanent prize by the West Chester Elks Farmers Country Club in the team winning the most points in five consecutive years.

Princeton, Dartmouth, Harvard, and Yale are the other colleges entering teams in the meet this year. Next week the members of the Red and Blue teams will compete for a separate cup which is offered to the best individual shot for the purpose of promoting interest in trap shooting.

SCHOOL OF RETAILING
A GRADUATE SCHOOL
Retailing is a field of opportunity for the trained mind. The School of Retailing trains for executive positions.

New York University, School of Retailing, 105 Washington Square, New York
The big question that confronts us every morning—spring suit, overcoat or slicker?

Tomorrow we will fulfill our promise (threat, if you choose) and run a column written entirely by an "undergraduate woman student." We're really com-
pelled to do it for the sake of future college girls, be-
cause otherwise they might never get a discrimination-
ticket to the Good's May Day play. Thus do we
risk our reputation for the sake of future generations

However, if the young lady's column makes a hit, we will be perfectly willing to take full credit for discovering her.

But the editorial department has no such hopes. Per-
haps after the eight editors have had to write the front page
announced once or twice they'll be able to honestly sympathize
with us. For the past two weeks the column contributions have
been almost a miserly quantity.

Of late we have noticed a very eager, expectant
look on the faces of first year men. We are sorry to
disabuse their minds, but we feel compelled to inform
them that the name "Love Potion" doesn't mean what
they think it does at all.

We really dislike exposure like this, but we see no other way of doing justice to the greatest public interest. Early in the fall all our chairs mysteriously withdraw from our editorial office and enter theirs, and now that the term is practically over we find them so

Sometimes it reminds us of the little boy who went over to his next-door neighbor and said, "Jim,妈妈, say how your snow shovel and could borrow your lawn mower?"

Possibly the scarcity of chairs will explain some of the temperature oscillations that have appeared this
year in the column due west of us. What man can think in quiet, peaceful terms when he has to turn
out his staff sitting on the floor with a typewriter between his knees?

"Two Phila. Boys have Villa Dates."—Dancing news headlines.

Maybe, but the majors don't go to the "Dances."

The latest encore offered by the Pennsylvania to account
for losing the pennant light is that several of their number
were irregularly deprived by city authorities after being
caught without being able to wear them under the clothes
last week.

We'd never send any of our clothing to the cleaning
one, I would say, who was a truck like was seen on the campus yester-
day. The name of the concern, who steals,

As an added inducement to the first individual
who will appear next rainy day inking off his paler
slicker with the regulation sou'wester —

We used to think that only girls read the last part of
a book first, but we've changed our mind after observing that practically every Wharton student always turns to the last
page of an outline as soon as he receives it.

One of those days the first of a series of keen things by the
lately retired columnist due to appear.

Yesterday we climbed the stairs in the Pennsylvania
office in search of the news-editor who had promised
it a crack for the column. Seeing no sign of him, we approached the news editor and asked:

"Do you have a news editor booked in yet this afternoon?"

The news editor replied, "No, but you can give me
your name and address if you want to sign up for the
town competition."

We ran out of ideas for the front page, but we decided to continue in order to cover failures in the past any criterion of the future. The big thing is
the present. What's the point of it all? What have we done this past winter—we can use our faults in the glaring light of self-
criticism. Tomorrow comes the change—today is the chance-

and Illue across the finish line a winner. At the present time I
imated. But by far the greatest factor to be considered is that
they figure the Undergraduate. To do this they need the whole-hearted support of ev

The Pennsylvanian invites communications on all subjects

The Intercollegiates are a great responsibility to the Un-
versity. It is our duty to see that we conduct them in true
Pennsylvania fashion.

that the record of 9.22 will fall in this event. McLean is counted on for five points.

At the high jump Nadei has repeatedly done over 6 feet, and the only creditors who are expected to better this mark are of course, Brown, of Dartmouth, and Uhler, of California. Three points are allowed for Nadei. Al Bosue has made a better record in the beam jump than any man in the east this spring. Owens should give him a third place, and three points may fall. Owens is counted on for five points. Thomas and Hamer will compete for the Varsity in the shot put, and these men mark of 19 feet and better should give him a third place. Three points are allowed for Hill, of Princeton, and Witter are the two leading contenders in the shot put, and the record of 18 feet 10 inches is expected to fall. Hamer is counted on for a fourth or fifth place in the hammer throw and two points. He is also expect- ed to place fourth or fifth in the javelin throw. Stout, of Yale, and the Californian entries are strong in this event, and this record is also expected to be raised. Hamer should win two points in this event.

If all these men come through in the field they are capable of, judging from a comparison of their records with the records made in the meet this year, it would give the Pennsylvanians a total of 20 points and a near title to the championship. While it is possible that not all of these men will win the points allotted them, it is nevertheless almost certain that some of them will capture their events as expected, and as most of them are improving daily, an even better score is possible.
