LOWER CLASSES HOLD LOVE FEAST

At a meeting of the Board of Governors of the Hobart Club, April 24, plans were announced for the construction of a building to be equal to any in the city.

The new building is to be located on the west side of the campus, and will be the largest and most modern structure of its kind in the city.

The estimated cost of the project is $500,000, and the construction is expected to be completed by the end of the summer.

The building will include classrooms, offices, and a large lecture hall, and will be equipped with modern facilities.

The Hobart Club is one of the oldest and most respected organizations of its kind in the city, and the new building will provide a much-needed expansion of its facilities.

REPORT OF THE UNDERGRADUATE COUNCIL 1922-23
Summary of Work and Accomplishments

This report upon the work of the Undergraduate Council during the Academic year of 1922-23 has been prepared with the belief that it will prove of value to future years in succeeding Councils in which it is drafted with the best advice possible which can be obtained from this Council of 1922-23.

The Undergraduate Council is an advisory body established some years ago by the administration in order to bring about a closer relationship between the administration and the Undergraduate student body. The Council is composed of the officers of the Freshman, Sophomore, Junior, and Senior classes, and is sponsored by the President of the College.

The question of Undergraduate representation has long been a matter of discussion and has been raised at various times in the history of the Council. The Council has always been alive to the necessity of keeping the student body informed of the activities of the Council and has made every effort to bring about a better understanding between the administration and the student body.

The primary aim of the Council throughout the year was to attain a more sound basis for the future. The Council required all committees to submit reports of the different activities in which they were engaged, and these reports were filed with the Council and a detailed report of this Committee work was exceedingly valuable. **LOOK OUT**

The unexpected happened last Friday. The philosophers are at last satisfied. The waiting of rains has come to an end. The Sphinx spoke.

**HOW COME?**

It seems likely that the freshman cup came off the same day that the senior hats were put on.

**NO RELIGION**

The Senior all issued the Priory in their sacred roles.

About the happenings.
In the Press Box
At the Yale game
I decided to see

And looked at the box
And looked
And looked
And now I want

There was

USE-LESS...

A HIGHER GLASS

It is an actual fact that the campus haberdashers have more local interest than since May Day than for three months previous.

The upper classrooms should be on the safe side and carry their own matches.

It was rumored that four freshmen were so glad to be able to smoke on the campus that they stood up to their clock on the steps of College Hall Saturday night—smoking talk.

One of them had so much smoke that he exposed his fifteen minutes after he had thrown away his cigarette.

The campus doctor did a big business Friday morning.

Jex Junior Society fall 24-three men who have been endorsed by the faculty.

I have a Flipper Honorary Society for coeds.

At least 10 men are certain to pass Spanish this year. Of this number 132 were at the Spanish Club's Fall Friday.

The other seven bought tickets but didn't go.

Oh yes, we were there. We caught only a word here and there, but on the whole it was a very enjoyable evening. We go in front of our instructor, and always laugh at the right time.

We know some men who would have bought half a dozen tickets if necessary. The title of the play was "Hacker's"—apparently a travesty on that title. But some none "Binken And..." which is enacted so many times every morning in Rossman.

**KENNY RECORDER**

There is still another day to sign up for this new two week Colwyn competition. Put your name and contribution in the drawer in the Pennsylvania Office and then hold an open prayer service. The Pennsylvanian is still in faith that it will be printed.

Faith is like the law of gravitation. You can't see it but it works.

Don't forget the prize, a gold filled fountain pen. Take it in front of our instructor, and always laugh at the right time.

We seem to have a little off form. Ordinarily we have trouble with Spanish. We speak it fluently—even at the worst. Now our treatment is different. We want our fair share. And it is fair. The Pennsylvania is still in faith that it will be printed.

YALE CREW WINNER IN CAYUGA REGATTA

Yale's varsity eight defeated Cornell and Princeton in the triangular regatta at Schenectady on Saturday. The Eli oarsmen again captured the local prize for the third time in four years. The Tigers were gunnery winners in the first mile, but could not withstand the Yalebys at the end of the course.

In the freshman men's race Cornell lived up to predictions by finishing in the lead. The Blue rowers came in second while the Princeton crew was upset by Cal. It is estimated that 14,000 persons witnessed the regatta. The Yale crew have mastered a short, powerful stroke, and show great precision in their efforts.
