PUNCH BOWL ISSUES CALL FOR HEELERS

From the moment the fall season starts until the last game is played there has been rather limited activity in the Philadelphia University football club. The reason for this is the great lack of eligible candidates in the Philadelphia area. The reason for this is the great lack of eligible candidates in the Philadelphia area.

Cheering Section

Last Saturday afforded the members of the freshman class their first opportunity to sit in the Pennsylvania choral section and cheer the team as Pennsylvania men have throughout the past. We watched the reaction of the members of this section and felt that they could not fail to have a feeling of pride and purpose in mind, unless it be those who are here because their parents forced them to attend. Those in the latter class are destined to an early exit unless, with their hands in their pockets, their minds turn to flower and with it a heart for this great University.

Regardless of why we are here, the fact remains that we are. Accordingly we must do the best of our ability. For instance, it is not. We have but one word of advice. Give the best that is in you and no man can say against you, whether you win or lose. Pennsylvania football hard and do fighting. Be sure that you are a Pennsylvania man.

Dear Former Fellow Student,

Knowing that the current trend is to be concerned about me, I take this opportunity to write this note to you. I am well, however, not in my former social style as it is to be feared that I may not live up to the name of the house any longer. Never having been one to be too concerned about the food we eat, I will come right out with the blow. I have been stung out of the Wharton School. Of course this is a shock to the Universally to have one of its most promising freshmen dropped from the register. I am, however, sure of the organization's support for class honors next year, but I will try to explain how it happened.

We are in the midst of that the name is lacking a bad name, thinking a man be hung up, and was always ready to back his own opinions when talked on my class, instead of giving what the book might have said. However, I have done my best to express myself as I will tell later. Another thing—I think this idea of writing a fellow's report of a fellow's report on his pen is a very common idea and cannot be cut out and explained.

Last spring I was asked to speak on this new discipline of the freshman class, how it should be taken up, and told them how I became so. It was not easy, but of course, could not do so. The freshmen have only the arduous task of getting used to school for the first time.

I will not here, however, that I hope all freshmen have a successful rating.

Sincerely yours,

LOUIS M. KOLB
