C. A. DELEGATES OUTLINED PLANS FOR CONFERENCE PERIOD

For Participation in Indianapolis Conferences. A few veterans of Silver Bay during December 28-January 1, met last night to discuss plans for the conference period for either the affirmative or negative side. The meeting followed suggestions made at the Bartlett harbor by Delegates and was characterized by question and answer method as the delegations were so few as to be forced to elicit information from the old timers. Howard M. Teaf, '24Wh., first vice president of the Christian Association, was chairman of the discussion and introduced the question of the national championship regatta. There was agreement on the conference date of August third and fourth; it had been suggested that the event be held during the last week of the semester, but on account of the American Olympic Games, the plans were definitely held.

Patrick M. Malta, '14Wh., Christian Association president, pointed out that the influx of mental activity following the holidays would make an excellent time for the debating society to get into action. Mr. Malta made the proposal that a debate be held by the men from southern states on the question of the United States becoming a republic. This proposal of the college treasurer, hoped that the next and the following weeks would see an increased interest in the debating society and also that a preliminary debate be held on the question so that the members of the society might have an opportunity of getting together and discussing the question.

SUGGEST REFORM FOR ATHLETICS

McKeehan Advocates Several Radical Changes in present System of Sport Regulations

Restricts Freshman Activity

As a result of the recent conflict between the faculty and the Athletic Association, professors at the University of Pennsylvania are organizing a new organization, the Athletics Council, and the faculty is planning the harmeful effects of intercollegiate athletic competitions. The new staff of the athletic council includes athletic and physical education at the University, has a far-reaching programme of work.

Fred Roberts, president of the Athletics Council, at this time given a speech concerning the present state of the Intercollegiate Club in the Big十-Stradford field last Saturday, Dr. McKeehan and expressed the opinion that the issue of the question is not only an academic matter, but is also an economic and social question. The failure of the council's radical suggestions provides Tc reduce the power of the Athletic Association, an official body of the college, and further, it has been determined that the council should be appointed by the provost and the colleges of our university, and that the council should be made responsible.

Elect First-Year Swimming Captain

Provision for the election of a first-year swimming oaptain was made last night in the meeting of the freshmen swimming team. These provisions were proposed by the executive committee of the freshmen swimming team, and were adopted by a vote of ten to one. The provisions provide for the election of a first-year swimming captain at the end of the first year, and the captain of the team shall be responsible for the discipline of the team during the season. The captain shall at all times be responsible to the executive committee of the freshmen swimming team.

MUSEUM GETS FRESCOES FROM PALACE OF KING TUT'S FATHER

The Metropolitan Museum of Art has acquired a group of frescoes from the palace of the son of King Tutankhamen, this group of frescoes was found in the tomb of the father of King Tutankhamen, who lived in the 18th century B.C. The frescoes were acquired by the museum from the estate of the late Dr. George G. C. Van Seters, who was an expert in Egyptian art. The frescoes are in a state of preservation that is remarkable, and are considered to be some of the finest examples of Egyptian art ever found. The frescoes will be displayed in the museum's Egyptian gallery, and will be open to the public for view. The museum has been interested in acquiring these frescoes for some time, and is grateful for the opportunity to add them to its permanent collection.
The family tree of Mr. S. Class is probably a Christmas tree.

The family wanted to know what we wanted Santa Claus to bring us this year, but some way it would spoil our romantic childhood conception of the old man and if I tried to picture him with a red nose and a case of extra dry in his sack.

Which comes to wonder what it is that gives Santa the sack.

Personally we can't see any alleles on the new Pond cover.

SONG OF THE CAKE EATER

I like my beating sugar.

I enjoy my pond cover.

This comes from gaining culture in the greenhouse Wharton School.

My dancing's very sheiky.

It's on the new Pond cover.

My beer, it is Spanish.

My son are cookie kids.

Some say that I'm a hopper.

Some say that I'm a rooster.

That's up to you, my readers.

But my favorite food is cake.

The Mallachrinos newspaper announces that the "Mark and Dave" year will be the year of short skirts. Likely to cause some confusion with the University as play. "Custom Bunching" we think it wise to see there is absolutely no connection.

The Pennsylvanian refers to the Christmas week as the "silent" holiday. There have been heard throughout the gym activities in preparation for the annual deluge of the Christmas holidays. There is absolutely no connection.

The announcement that activities in the gym are to be held today and tomorrow strikes us as rather singular. We've seen anything but nothing by activity in the gym—sort of slow motion stuff.
