Well, well, you Lenie is dead said. Unless he is very, sometimes one of his deaths is going to result fatally.

Our well-developed sense of the appropriate was tickled (for other day). A Checkers match came down the street containing as a passenger a shop with a large and very plain entrance. The gentleman appeared under the influence of the heat that day. One quarter of the cab was past a sign bearing the word "Heated."

It's time thai over. The biggest Senior luncheon that has ever last week and at that the freshmen class has six bundled together. To stimulate original thought or original Ideas and consequently the college student is reputed to be an easy going fellow. This is true or not—we doubt it—is beside the point. The newly-born baby is not directly affect his personal welfare. Whether this is true or not—what is it?—we prophecy that the next thing to be offered the public is to do a company to establish a regular air service to the Pole. We are glad to announce that instead of running this column hand-to-mouth as we have in the past, we now have a complete half-column in reserve in the desk. For the first time we are able to appreciate the grand gloire feeling in Jay House described it, of having an extra ten of hope supporters in the bureau drawer.

Come out tonight you men who believe you have some real proposition to present to the college as seats to which you are attached but deserted. The charge is that there is no effort made to stimulate original thought or original ideas and consequently the college student is reputed to be an easy going fellow. This is true or not—we doubt it—is beside the point. The newly-born baby is not directly affect his personal welfare. Whether this is true or not—what is it?—we prophecy that the next thing to be offered the public is to do a company to establish a regular air service to the Pole. We are glad to announce that instead of running this column hand-to-mouth as we have in the past, we now have a complete half-column in reserve in the desk. For the first time we are able to appreciate the grand gloire feeling in Jay House described it, of having an extra ten of hope supporters in the bureau drawer.

The improvement series prevalent among the lower classes when the strictly arrives at the destination the Pole will be used for a meeting hall. This would undoubtedly be a good plan but is impossible for several reasons. In the first place, the expedition reverse as greatly as they just point of interest that they would not permit it to be used for a purpose. In fact, these inhabitants of the far north are so jealous of their possessions they wouldn't even permit Dr. Cook to take photographs of it. Secondly, the Pole is neither high enough nor strong enough to be used for a meeting hall, which would prevent us to use even if the natives would allow it. We therefore explain this solution will correct all false impressions.

Pake all stock is very nearly out of existence now and what stock isn't in circulation as in other "takers" as we did so—we prophecy that the next thing to be offered the public is to do a company to establish a regular air service to the Pole. We are glad to announce that instead of running this column hand-to-mouth as we have in the past, we now have a complete half-column in reserve in the desk. For the first time we are able to appreciate the grand gloire feeling in Jay House described it, of having an extra ten of hope supporters in the bureau drawer.

Yes, this is Prof. Crichton, who gives Joe Gish his course in Snappy Language 207. But Joe has been displaying so much brilliance and surprise that Snappy must be given so much wit...on the prof. lately, that ‘Crich’ has been losing interest.

But now watch him. He’s just had Joe to the Inn for dinner—and pumped the secret of his success—VANITY FAIR. Is he elated? You bet he is.

Is he filling in the coupon? You bet he is. Will he tear it out, pin two bucks, and mail it now? You bet he will. And he, too, will acquire the ‘perfect line’.

Fencing Team Opens Season With Cadets
Thomson and Political Fencing Moved in Epee Season

Under the supervision of Coach Louis H. Preston the University Fencing Squad has been undergoing intensive pre-battle practice in preparation for its opening meet of the season, a non-divisional match, with the Cadets at West Point on February 14. Workouts with the frosh, sophs and epees are being conducted daily at Wrightman Hall and as the opening meet approaches contributing graduates are being displayed by the Epee squadron.

The personnel of the team is fir return but will be made known directly after mid-morning. However, with a non-divisional composed of such stars as Captain John Thomas, runner-up in the epee championship of the Eastern Intercollegiate league last year, Thomson, and Guin, another sensational performer, high hopes is held by the coaching staff for Penn's prospects. In the epee division the combination of Thomson and Preston is likely to be invaluable and will certainly challenge the supremacy of the West Pointers, last year's champions.

The tentative schedule, at no unfair favor by the Athletic Council promises of the Cadets at West Point, February 14, triple meet of Harvard, Columbia and Pennsylvania, at New York: February 21; Cornell, St. John's, March 1; Hamilton College, at Ithaca, March 5; Amherst, March 12. The interesting idea is to hold matches at the Hotel Astor, New York, April 3 and 4.

"MUST CEASE TO RECORD IMMIGRANT AS LABOR COMMODOITY,"—JOHNSON

U. S. Must Amend Constitution to Deny Citizenship to Those Whose Parents ineligible

Representative Albert Johnson, chal¬

cluding investigations it lands across the Atlantic and lands across the Pacific to the majority of the members of the House Committee on Immigration, and I believe, the opinion that malfeasance is being committed all over the continent. The disservice of the people of the world, white, black, yellow, are no matter and the increase in the birth rate in all cases except America and Mexico is so great that the possibility are that our own children will reveal the fact that we have not been more successful in passing more stringent immigration re¬
strictive acts. Our grandchildren will only or six years from now, in all prob¬
ability be the ones who will be successors for a football and not a few in the United States of America in the world of bound rights and food reserved.

I am the opinion of the people of the United States, including the States of Irish alien, that each and every country is a very firm connection with respect to immigration. This think and the majority of the House Committee on Immigra¬
