YALE IS SENDING MANY
ATHLETES TO CARNIVAL

Yale University will send its entire track squad to the Relay Carnival. In addition to the 12 mile and 6 mile events, in which Yale has shown ability, the university expects to do well in the sprint medley and in the 3000 meter run. It is likely that Yale will do well in the one-mile relay, in which it is favored to win.

YOU'N'T FUMBLE THIS CAP!

Professional jugglers could handle the old-style malleable-cup caps and never drop one down the drain or under the bath tub. But the man of six, this new Williams Hinge-Cap puts an end to an ancient nuisance.

Williams Shaving Cream is just as much pleasing to use as it is the Hinge-Cap. It soothes the head with unused speed. The thicker lather holds the cap, too, so that painful razor friction is eliminated. And when your shave is done, that famous ingredient in Williams which helps the skin, leaves your face cool, refreshed. No coloring matter is used in Williams—it is a pure, natural-when shaving cream.

MASCk AND WIG SPECIAL DELAYED COMING EAST

Locomotive Blows Off Cylinder Head and Breaks Connecting Rod Near Coatesville, Penna.

TRAIN ARRIVES TWO HOURS LATE

Returning from the extended Western trip of the Mask and Wig production. "That's It!" the entire personnel of the show narrowly escaped injury. The special train which carried one hundred and two members of the cast and chorus, as well as the scenery and costumes for the production on or met with a serious mishap.

This accident occurred near the small station of Coatesville, Pa. Between miles west of Harrisburg. The engineer of the express, which was traveling at a fast rate, threw the locomotive into reverse to avoid hitting three men walking on the track. Three men, who had stepped from a west-bound train at the station, were walking the tracks of the east-bound special. After investigation, it was found safe to proceed.

When the train had gone about two miles further, an explosion was heard, and the express came to a very sudden and leisure stop. An alarm was given and the students left that corner and advanced to the locomotive. They found the tracks littered with debris, the cylinder head blown off and the connecting rod broken. This was the real engine in the station of stopping so suddenly a short distance behind. About every thirty yards it had been ripped up by the broken rod, leaving more of the engine behind all the resulting.

After two hours delay another locomotive arrived from Harrisburg and was attached to the special. Members of the show had cleared away the wreckage so as not to hinder the progress of the new service. It has been estimated by rail road authorities that if the special had been going at the usual rate of 40 miles per hour, the whole train would have been derailed. This would have caused enormous destruction of property and perhaps personal injuries to those of the line. The delay of this year's show.

The partnership which clearly portrays the artistry of the oriental mind in its distinctiveness and originality of craftsmanship also was collected by the late Dr. Ed
ward H. Williams on his frequent trips to Japan.

For many years Dr. Williams was president of the Baldwin Locomotive Works and the airiness life he lead in the minor field opened him to seek a hobby for relaxation. This hobby took the form of target shooting.

Neither expense nor hardship was spared by Dr. Williams in his endeavor to obtain sport to satisfy his interest.

Some of the designs are quite plain, others elaborate. Phil, interest and genius have formed the inspirations for many of the designers. The oil and the love first served as models for other artists in a period of thirty years of study and collecting.

Dr. Williams did not wholly con
serve freedom and instruction. Several of the parts later found to be drawn German imitations, while not infrequent-
