SOCCER TEAM TIES WITH STRONG AUTO CLEVEN

Hold Industrial Champions of District
To 3-3 Tie In Second Game
Of Season

JUNIOR VARIETY DEFEATED, 4-1

Displaying their more experienced ri-
atles at all times, Coach Stewart's champ-
ionship Pennsylvania soccer team con-
tinued to outplay the Atlantic College
at 3-2 score on Saturday. The Atlantic
team held the championship among the
industrial teams of the West Philadelphia
district last year and last year's team de-
feated the strong Pennsylvania cricket club
team with Ross, intercollegiate star, and
drew; such close class and intercol-
iversity rivalry, in the latter's opinion.

Playing on the old favored soccer
pitch, Pennsylvania's goal was hand-
capped by the poor condition of the
field. Three goals, in the first half, re-
defined the score. But in the second half
the defenders of the Red and Blue,

WANTY FAVORITES ON PROGRAM

Embroidering to reach all the num-
ers of the city, the Philadelphia Civic
Opera Company, offers to the students of the University of Pennsyl-
va a splendid performance of "Amahl and the Night Visitors," presented
this year. The prices of these tickets are liberal and the distribution
of productions, no single tickets sold for.

The Opera Company is composed en-
doubtedly an able Philadelphia Symphony orchestra, with

The personnel of the company is signi-
ficant, it is composed entirely of

members, in the manner including such.

The management of Alexander Smelenko as Musical Di-

rector and Conductor, and Alexander

Tomlin, who wish to take advantage of

this splendid opportunity, will be in

charge of the musical part of the

event. The management of the

organization. The orchestra will be

organized by the Pittsburgh Symphony

Company, in charge of Robert

Barclay, Clendenin, Geddis, Home, Longus,

Taylor, Reesman, and Shell. The man-

agement of the University of Pennsyl-

vania will be in charge of the musical

part of the program, under the direc-

tion of the management mentioned.

SMALLEST ENROLLMENT
AT DENTAL SCHOOL

With an enrollment smaller than in
several previous years, the Dental
School closed the 1930-31 school year
now in full swing. The Seniors class
this year contains only 45 members as
compared with the 250 who graduated
last year. The decreasing enrollment
in that of the class of '25 is the first
year in which it has been reported that
enrollment in the Dental School will go

mole than 50 students.

The number of students enrolled in
the Dental School is smaller than in
the past years, but that is not to be
interpreted as a decrease in the number
of those who have been admitted to the
Dental College. The enrollment has
remained fairly steady throughout the
past years, and there is no indication
that the future will be any different.

LINEMAN WEIGHS 330 POUNDS

As a general rule, the players find it
hard to keep up with the spectators by their appearance. The

dental students of the University of

Pennsylvania are not an exception to this rule. The

senior class, however, is the smallest in the school. The

senior class, however, is the smallest in the school. The

senior class, however, is the smallest in the school.

Coach Voeller wishes again to empha-
size the necessity of being prepared
in the Dental School for a capable position after graduation.

The Alumni of the Dental School of
the University of Pennsylvania have
congratulated the members of the class of '25 on
their excellent work, and have congratulated

1314 WALNUT STREET
PITT-LAFAYETTE

The keen Maroon team of Lafayette forced the University of Pittsburgh at Forbes Field last Saturday, by a score of 18 to 6. Lafayette never was in danger from the opening which until the close of the battle, Kolshier, the Maroons' half back, had the attack and in the fourth period passed the way for Lafayette's touchdown when he intercepted a Harvard pass and ran 30 yards to Pitt's 14 yard line. Four minutes after the line was a touchdown. Kolshier, taking a double pass from Chalmers, cut across the half side of the field and put the ball across the line. Captain Berry had picked a dead in the second period, closing Lafayette over her other 3 points.

PENN STATE-NORTH CAROLINA

Penn State scored the only points of the game after Mace, the Aggie fullback, had the ball at their own 40 yard line and passed to Johnson, who was tackled by Horsley, the State half back. The other five minutes of the period were played off and Pitt won 7 to 0.

YALE-NORTH CAROLINA

In a game fraught with thrill, the Yale football machines run up a score against the Tar Heels of North Carolina as a bonus to the Yale Homecoming on Harvard Field Saturday. The score was the last made by a Blue and White team since 1885 and means well for the prospects of Perry Hamilton's 1924 team.

Koppikoff was the individual star of the backfield. Lawrence kicked the ball out of bounds on his 22 yard line five times after the whistle blew. On the first play, Koppikoff covered the distance for a touchdown in a run which brought the crowd, cheering madly, to its feet. After Columbia scored on its first possession of the game, the Orange team was not to be overtopped.

North Carolina threatened in score but once, when Johnson, the Tar Heels' quarterback, was downed on Yale's 20 yard line after a brilliant run at yard 30. The Yale line held fast under three onslaughts of the Carolina backs and Monterey's first down field went for only 21 yards. The Orange team was not to be overtopped.

PRINCETON-AMHERST

A Princeton team which was pronounced by experts the most brilliant since 1933 overwhelmed Amherst by the score of 6 to 6 in Palmer Stadium in the opening game of the Tiger schedule on Saturday. At the opening of the second period, with the ball on the Orange and Idaho 22 yard line, Single attempted a pass for Princeton. Pratt, the Amherst right guard, deflected the pass from the air and caught it across the line for the Orange.

This whole body of Princeton Alumni and undergraduate was thrilled by the performance of the Orange and Black team, as the teamwork and individual brilliance surpassed anything which early电脑 has led them to expect.

HARVARD-VIRGINIA

Cocky Yale State Virginia eleven held Harvard to a score of 14 to 0 at Memorial on Saturday. The Southern came expecting to lose by a heavy score but had not gone to Harvard for a failure. On the opposite side of the game, Harvard would have won by only one touchdown.

Jenks, who played the first season as place of the Orange line, and Humart were missed the most consistent ground gainers for Coach Fisher's team. Captain Single and Harold of the Virginian played a stellar season until he was forced to leave the field on account of an injury.

CORNELL-NIAGARA

Entering with a reputation at every meeting of the game, Cornell defeated Niagara University by a score of 21 to 0 at Cathedral on Saturday. On five possessions or more the 15 yard line the Niagara lacked the punch to get through for first down.

The red shut the game-came after 3 minutes play in the first period when Professor, the Niagara fullback, picked up a final and ran 30 yards deep into Cornell territory before he was downed. A penalty for Niagara cost them the ball and Cornell rushed the premium down the field, tally and Whistone making most of the gain, and Whistone moving in the third and fourth periods, when Gillie went in from behind the line to score with 20 points.

Penn State-North Carolina

Penn State's heavy-laden team rushed from North Carolina Sitcom on Saturday to the former field at State College, Pa. In the first half was 34. It was noticeable that State's interference was much improved over last week's. In fact Johnson's team showed to a better advantage Saturday in every department of the game.

North Carolina's lone tall came in the final period, after interference on two forward passes had finally given the Panther the ball on State's 5 yard line. Johnson going over the line, Hull Baker went to the scoreboard for the extra point and State came out successful with less than three touchdowns.

NAVY-WILLIAM AND MARY

The Naval Academy won its opening football game Saturday by defeating William and Mary by a score of 16 to 0. The Japanese source of the...

STUDENTS NEED GREATER INTELLECTUAL FREEDOM

Dr. Ayottite Advocates Honor Courses in American Colleges For Exceptional Men

THIRTY SCHOOLS ADOPT PLAN

Dr. Frank Appleton, President of Denison College, is describing the present system of higher education as a deplorable process for the welfare of the student with strong intellectual interests, partly, he feels, that the American college adopts a system of honor courses that would make our universities resemble more closely the English colleges, where study is regarded as the most important phase of the student's life.

In comparatively thirty colleges and universities of the United States, home work of this type is usually offered, this indicating that a more severe standard should be set for exceptional students rather than for the average person. There is a great necessity, states Dr. Arnot, for a plan under which the candidate for high honors will be expected to undertake extra work in addition to the regular course of instruction. In some colleges, however, in order to obtain honors, a student must do something which unprepared students are not required to do. The new plan is a substitute for the honors system, and to cancel the old program entirely, so far as the ordinary student is concerned.

A plan of this kind has been in use in Columbia since 1911, and during the last few years, a number of other institutions have been inaugurated at Harvard, Rensselaer, Wesleyan, and elsewhere. At the present time, plans for "honors courses" are being held at Cornell, Johns Hopkins, and Yale.

According to Dr. Arnot, the important thing is to give the student freedom, to give him an opportunity to develop his own initiative and independence.

EMPLOYMENT OFFICE FINDS WORK FOR 200

To date there has been a trial of 180 candidates applied for work through the University Employment Bureau in the Student Union, and of this number only 248 have received positions, but it is hoped that the remainder will soon be cared for.

At the present season among the freshmen is "waiting list," but post-graduate work and most jobs are acceptable. There are about 15 of the 286 freshmen offered. Most of the applicants express their willingness to take any kind of work.

There is quite a large number of positions for those who desire certain on a commission basis. This sort of work, however, is not unemployment, and the profit of the sults are too uncertain. By the end of the term, it is expected that the employment bureau will be in Madison Avenue at the second floor.

University Plans
New Electric System

Alternating Current to be Drought From Philadelphia Electric Co.

Along with the erection of new buildings, steam lines and a new power plant, the University of Pennsylvania is making the installation of an entirely new electric system.

Under the present system the University supplies its own current which is 110 Volts Direct and is sent through a two wire system. The present line can take for 11,000 volts three phase, 60 cycle. It will then be sent over overhead lines in the several buildings. Each building will be equipped with a transformer to reduce the current to 220-110 volts.

This new service, because of the great number of buildings to be supplied with new motors and lights, will revolutionize the way the University operates.

Iowa Club Holds Smoker to Help Acclimate Freshmen

The Iowa Club for the coming year will be elected. All entering students and all freshmen ballots from the state of Iowa are cordially invited to attend.

The purpose of the club is to bring all freshmen who are far from home and to help the new men start their college careers in the right way.

The Iowa Club is prominent among the several intercollegiate clubs on the campus and has a membership of from twenty to thirty men. The officers are trying to raise the membership to fifty, and they ask that all freshmen turn out to every meeting.

REWARD SCHOLASTIC ATTAINMENT

Desiring to stimulate scholastic effort in preparation and high schools, and to make a national scholastic championship as much as to be desired by a school as an athletic championship, a committee at Harvard University has announced that it will award a bronze plaque for scholastic attainments. The trophy will be awarded to the school whose first seven boys pass the college board examinations in June with the highest average, regardless of whether the students expect to enter college. About 2500 letters have been sent to High School principals announcing the contest and urging competition for the trophy, which will be awarded each year to the school that has won it the most number of times.
