NEW MEMBERS TO BE GUESTS AT ITALIAN SOCIETY SMOKER

In honor of the new members, the Circolo Italiano will hold a smoker to light at 8:15 in Houston Hall. Besides a reception for the new members, plans for the year will be outlined at this meeting. The management hopes that all those interested in the Italian language and literature will be present and assures them of the cordial welcome of the club. At this meeting there will be a discussion of the country's literary and musical entertainments which proved so successful last year, and an Italian play to be given in the second tram will be discussed again. These will be plenty of smokers and eaters of all kinds and a large crowd is expected. The Circolo Italiano is one of the last of the foreign student organizations at the University, numbering about sixty members. It has been organized for many years, and is now well established among the various social clubs on the campus, and is looking forward to a prosperous year.

Installation of Amateur Wireless Station To Be Set Up in Near Future

To provide in-service training for those of the University, who are still under the spell of the spell of the radio in general, and the telegraphy in particular, a new club is being formed - the Radio Club. As a medium of organization, a smoker will be held tonight, in room 209, Engineering Building, at 7 o'clock.

The club is under the supervision of the Electrical Engineering Department, but mem- bership is not by any means limited to those entering the field only, the only requirement being an interest in radio. A room, which will be fully equipped in all the departments, will be set up at the disposal of its members. Mr. Charles H. Stewart, Vice-President of the American Radio Relay League, will deliver the main address. Mr. W. G. Foley, an instructor in the Electrical Engineering course, will be the faculty advisor.

The main feature of the club's program, will be the installation of an Amateur Wireless Telegraph Station. Such a station is in use in New York, and the Philadelphia Educational Broadcasting Corporation, will be the faculty advisor.

The standing of the more important Eastern elevens, with games won, lost, and points scored, including last Saturday, is as follows:

**Lafayette** - 5 4 68
**Rutgers** - 4 1 65

MEDICAL GRADUATES HIGH RATING

Evidence of the caliber of men graduated from the University Medical School is forthcoming as an announcement which states that the examination given by the State of Mississippi Board of Health, to the seniors of the School of Medicine, of the classes of 1924, average of 843, 923, and 91, respectively. This average was calculated for the men or women who failed in the first attempt, the second, and the third attempt at taking the examination, who re- ceived the highest average.

The examination was taken in order to qualify for a practitioner's license for the State of Mississippi, and was held in Jackson, June 20 and 21, 1924. Twelve subjects, which included 94 questions, were covered. Seven of these questions were considered a passing grade, this ratio being met by 71 of the 91 candidates examined. Candidature in the number of 12 licensed by reciprocity, students from the following colleges and universities were invited: University of Tennessee, University of Washington, University of California, University of Pennsylvania, Medical College, University of Nashville and the University of Ten- nessee.

This is but another praiseworthy achievement in the brilliant history of our medical school, and speaks highly indeed of the quality of instruction and preparatory work that the reputable institution has offered for years.
