LAFAYETTE WILL PRESENT
FORMIDABLE AGGREGATION

Several Possible All-American Players in the Maroon Combination Playing to Team.

BACKFIELD FAST AND SHIFTY

No one considering the candidates for places on this year's All-American team would be able to pass over the Lafayette lineup without a moment's pause for doing thought. No less than four and possibly five of the Maroon players have been frequently mentioned as wonder football players for next season, and it would seem to be necessary to see several of them back for this honor. It is this string of a clear road for the team that will continue the opposition to the first and Blue tomorrow.

Lafayette has been asked talk of the "greatest" backfield composed of Mihalich, Fisher, Hilty, Crowder and Baydon, as well as the great combination that has ever been worked together on one team. Lafayette takes to the field tomorrow it will have four stars, with or without the newest star, Hight." Combination.

Kirkleski to see that experts have already ticked him off for All-America. A foot-taller receiver, an economic passer and a fine end are considered his three important links in Coach McCracken's team. Flashed with the sun in another equally brilliant, Chicknoski, who specializes in running the ends and is a terror to get under way.

The outcome of the game is not a matter of doubt in the Maroon team to hand their ancient rivals, Washington and Jefferson, such a deciding contest. With Moore, a new star, the Eastonians will be out to prove the fact that his eleven will give a great game. The deciding note in this battle will be the all-important clash. The great strength of the Lafayette backfield is further emphasized in the fact that Williams, a wonder fullback, will have new life to gain out on only tenth of this season.

At last a team has been found for the College Hall drink fountain. After five minutes of perseverence a chap finally managed to get some water from one of them to clean his fountain pen.

The Dormitory Cup has been around here for years and has never been able to figure in a really big game. The other day he thought he had something when he saw two men making into the Quinngale with what appeared to be a corps but barely done done with. Armed with his trusty Bostonean he broke down the quartermaster door in the name of the Dormitory Office. Upon investigation it was discovered that these two students were merely mem-

bers of that group who have an insatiable desire to collect quarters and nick-nacks for their rooms, and at the time of their arrest were only draughting an old-fashioned orange-juice cup to their room.

The Wharton School and the College should be congratulated on their painstaking efforts to turn out finished products. The issue composing it will be eligible for the mythical All-American team at the close of the season.

The Wharton Association going to do this year? That remains to be seen, it is in a position where it must show what it is worth or give up.

We read the other day where "Red" Grange, of Illinois, took on four Yale backs during a period of one hour. Also, that the combined weight of all the tackles on the Wharton line for the day would equal 250 lbs. The latter discovery was also made that in Virginia and North Carolina there are four big white to every square mile, and each big white consumes one ounce of seed per day, the total consumption of wood seeds from September 1 to April 30 would be 134 lbs. We feel quite certain that, after having been exposed to this starting course, we can go out into the world and discuss the leading topics of the day in an intel-

We are looking forward — though dubiously— to the Wharton Association to accomplish something this year. It is in a position where it must show what it is worth or give up.
