BENATTA ENDS FALL SEASON
Pittsburgh Boat Takes First Place in
Eights Regatta On Lake Carnegie
After Friday

Last year's championship Freshman
boat showed off the fruits of winter
training along with the brother and more
proven rowers.

The fall regatta was decided in favor of the Freshman
boat. This fall version was again a very hot, and the races
were won by the boat which aimed the fastest boat.

Coach Donald Stewart and his unbeaten Penn State
crew meet head. Head rower George Wood, of Past year's victory over New Haven, who will row the best
boat in the series will again clash with the
speeds of the times. The races were held.

The races were fast, and the Freshman boat showed
its superiority over the Harvard boat.

The way you like your hair best—
you can keep it so!

Perhaps you part your hair
on the side. Perhaps in the middle. Perhaps you comb it straight back.

But how do you keep it the way you like it best?

Before Stacomst was introduced, two tried and true methods were used to keep the hair beautiful and smooth:

1. Back-combing—This was done before the 1930s. It involved brushing the hair from the roots to the tips and then adding a fine powder to the hair. The back-combing was done to give the hair more volume and lift. However, this method was time-consuming and messy.

2. Rollers—Rollers were used to create curls in the hair. The hair was divided into sections, and rollers were placed in each section. The rollers were then removed, and the curls were allowed to set. This method was also time-consuming and required daily maintenance.

Stacomst revolutionizes the hair care process by providing a product that makes the hair look beautiful and smooth without the need for back-combing or rollers. Stacomst is a hair care product that works by temporarily realigning the hair shaft to create a smooth, manageable appearance. It works by softening the hair, making it more manageable and easier to style. The hair appears to be softer, smoother, and more manageable.

Stacomst keeps the hair in place throughout the day and is easy to remove at night. It is perfect for those who want to achieve a sleek, polished look. Whether you want your hair to look natural or perfectly styled, Stacomst is the answer. It is a convenient and effective way to keep your hair looking its best.
We rather question the terminology used by the Philadelphia papers in referring to our football as a match of ants. Would not a better term be bee-fights?

This question of Saturday morning lectures rarely seri- ously bothers anyone, who has not through some cause which makes him incapable of attending the lectures, the thought of giving up the habit of being present at them. The set has been widely spread, and the number of those who have missed the customary and monotonous ceremonies is not to be counted. There is no question that the student's time is better employed in doing work, but there is also no denying that the student's mind is better occupied with the thought that he is doing something for his education, and that his efforts are not in vain. The student who has not attended the lectures is not to be condemned, but neither is he to be exalted. The student who is absent from the lectures is not to be despised, but neither is he to be praised.

There is another question that needs attention and serious consideration also. Why is there no place reserved for the Philadelphia papers? The Navy game, Princeton game, Pittsburgh game, Army game, and the Yale game are all times and without exception. Why is it that we do not have some similar representation in the Sunday newspaper pictorial sections?

We ask, again, why is the student's schedule not made to correspond with the lectures? The lectures begin at 11.30. Undergraduate studies should make an attempt to see at least a part of the class. Nothing is more interesting to an athlete than to have his empty seat, and when it is considered that the day's performance ends with just one chance below an average, we should strive to make the occasion a worthy one.

THE PICTURES AND HIS REWARD

The Philadelphia newspapers are reported to have taken extra copies of the game, and now, in the face of a hot last minute, are taking action accordingly. A building that would do his heart good?

THE SCRUB AND HIS REWARD

Pittsburgh is soon going to erect a fifty-two-story building that would do his heart good.

THE PHILADELPHIAN

Can Pennsylvania Repeat? Or is the 31-10 victory over Franklin Field, a victory that was won with the only team to win back to back championship games, the only team to win back to back championship games?

THE PENNSYLVANIAN

The authorities claim that this new building "will form a part of the further construction of the University's quarters and serve as a symbol of the modern scientific and industrial development of our country. It will be an inspiration to future students of art and science." A student was asked to take a final examination of the building and answer the questions of the architect. "What can you think of the building with stores falling out of their walls and a library like ours?"

"I think that the new building will be the greatest building in the world.""The student's time is better occupied with the thought that he is doing something for his education, and that his efforts are not in vain. Artists and Models

"My first Perry Overcoat excited me at the Artists and Models Show; it’s so different," said Flite 26.

"Instead of one-quarter of a yard of Something-or-Other being needed for a Costume, my Perry Overcoat is made from several yards of thick, dense-yet-South Fates.

And it comes all the way down almost to my neck—not that’s the styling this year.

The pattern is doubly interesting because non-sensical before kitten’s orその他.
