OPEN SALE OF SECOND RED AND BLUE EDITION

Short Stories, Sport Articles and Play Reviews Form Well-Balanced Offering

INSITUITE SPECIAL FEATURE

After a careful preparation and plan for the December weekly work, the staff announced the opening of the sale of the second number of the magazine at campus noon today. This edition is a great improvement over the last by virtue of the fact that out of the printed matter and materials of material of the book by the days and the color selecting type of the article and pictures has been available.

The Red and Blue this month offers a wide range of written and currently shown articles among which, as in an identical issue of the special issue, "The Graphic Hall of Fame," by Professor Wallhas, is an extraordinary feature, and because of its varied interest it may be continued in all the following issues.

The issue of the magazine is devoted to the parents and writers of two of the most remarkable Pennsylvania students who not only hold leadership in campus activities, but also who lead many of the leaders in the class.

The Red and Blue, the official newspaper of the university, is the organ of the students of the University of Pennsylvania, for news and views, the history and the traditions of the college, the future of their University and the progress of the city.

Another feature of the page "Burning the Midnight Oil" by Mr. B." This page contains articles on many topics. One of the current articles of interest is an article on the lives of many of the students who have attended Pennsylvania through their college years, written by Charles Elson, a student who is currently studying at the University of Pennsylvania, and who is a member of the Pennsylvania "Universe of Muses." This article appears on the page 4 of the magazine. Ralph Wilson, who is the president of the university, is the editor of the page, and the page is edited by Mr. B. Wilson.

Arrange Tentative Fencing Schedule

Exceptional Opportunity Offered to All Intercollegiate Fencers

Following the success of the fencing season last year in the Intramural, the University of Pennsylvania has been offered the opportunity to have a team organized for the coming academic year. This team will be under the direction of Mr. B., who has been experimenting with the technique of the sport and has recently been elected to the University's Intercollegiate Committee. He will continue to work with the team in the coming season.

Local Chamber of Commerce Invites Student Inspection

It may be interesting to Pennsylvania students to know that the Philadelphia Chamber of Commerce has all students to make use of the facilities of this organization. The organization is located in the Commercial Club Building at 10 East Twenty-sixth Street. Among the most important manufacturers of plants of this city are not only open to the public, but are open to the public.

The Foreign Trade Bureau studies the current commercial situation and tries to stimulate the commercial activities of the country. The Transportation Bureau may prove of advantage to the group of Pennsylvania students in the political world who can make use of the facilities of the Commercial Club Building.

The admission fee is $1 for use of the facilities of any of the leading manufacturers of plants of this city. The admission fee is $1 for any of the manufacturing plants of this city. Last-Minute Decision of Coaches Causes Rush to Leave Ahead of Schedule

Will Undergo Light Practice

As the result of a last-minute decision that was arrived at by the Red and Blue after the game of the Red and Blue against the Orange team at Abecon yesterday afternoon, it has been decided that the game would not be able to be played this afternoon.

In direct contrast to the news given out about the game that would not be able to be played this afternoon, there are still many students who have not yet arrived at Abecon. This is due to the fact that the weather was announced to be a light practice."
At the Games

Watch the crowds at the football games—

Here we have a class representing Americanism
at its best. Notice that all accept the

College men are wearing them exclusively
with their loose comfortable English tweeds.
Hence no other style of shoe is correct.

Nothing takes the place of LEATHER

Lather is thinner with millions of tiny air-tight spaces
which absorbs and swells with every step. This allows the feet
to breathe and moisture to evaporate. Air is also a non-
conductor of heat, better with leather soles your feet
are cooler in summer and warmer in winter. The reverse is true
with substitutes as they are non-porous. Leather is unabsorbent.

Course of Study Increases Proficiency of
New Men, Urges Henderson

Following the recent announcement of a
change in the prospective leaders of the
Pennsylvania Educational Band, James Henderson, 25 W, states
over the men who are interested in such a
way and who are eligible to carry
the competition to attend the first
meeting to be held on Thursday, November 12th.

"It's been long felt by the Manager Board,"
said Henderson, that this new club was
expected to be better work if it had some instruction
before heading along into competition.

To make this possible, Henderson
intended the organization of this new
meeting, meeting every Tuesday and Thursday,
the Manager Board announced. Henderson will lead only for one
month, the period of time it is expected that the
new club will be organized.

There is no mistaking this higher education is a wonderful thing. As a result of a number of experiments along this line, a professor in the University of Chile has come to the conclusion that enriching a student for fifteen days has a very weakening effect on him.

Snap that news piece appeared in a well-known Philadelphia paper telling how a man who worked himself at Atlantic City by a clean dropped by a sea gull some one has certainly mentioned that the Whiton School instructor is the reason they haven't been studying all this week.

At a dormitory meeting the other night somebody said a ballad about a generous old Englishman who wanted everybody to be happy on his daughter's wedding day, the words going something like this:

"On this, my daughter's wedding day.
I gave them thousand pounds away.
After the meeting one of the President's present to remark that he couldn't see how any one could fail for a girl in beauty as that.

We aren't worrying much about having to come Woodlawn Avenue five or six times a day since reading in a local paper: "Two Points Get 6000."

Most of the boys in the dormitory celebrated the annual journey of the America in a very informal manner, and for most of them it was the first time they heard their airmen's cheer.

You can't blame the students for deserting their rooms with stalwart signs when they have had a very disastrous experience in the University council chamber. Some time when you are walking through there take a look at the signs adding power to a refrain from selecting flowers for the Big One.

The song leaders have improved their chances somewhat, but there is still plenty of room for further improvement. If the stands need in time to their chorus with the leaders' airmen's shoulders, hips, knees and knees, at all times, the chorus would be full of Yankee home tokens. If we are using a technical term properly. Where did the tradition ever have the assurance that our song leaders should want We-quion Willow tiles?"

"No smoking" is a man was arrested in a New York hotel for making a pipe and a cigar. The authorities should do a little work on Mrs. Page for a few days after finishing his "no smoking" but with little Moine.

The hunt that we can do in the way of celebration after the Penn State game, instead of victory, in the identity of being Penn such resolutions in the swim pool for a few days.

To improve their attack the Varsity was sent in against a team composed of old Penn stars. May we offer the suggestion that if certain instructors could be encouraged to do more mustering and play against the Varsity the attack would show immediate improve ment.

This scheme might work as well, though, because of the frequent penalties for rough playing.

DIVAMATIC CLUB GIVES
TWO ONE-ACT PLAYS

At the third meeting of the University Dramatic Club held last night at 8 o'clock in Room 209, College Hall, two one-act plays were presented with great success. The first play was entitled "Dawn," and is as the same one which was given at the third Houston Club smoker, under the direction of Albert Fisher. The play was well presented, with Moore, Halter, and Storm and Miss Eleanor Chote taking the leading parts.

The second play, entitled "The Will," was presented for the first time at Philadelphiav under the direction of Miss Eileen Smith. The cast for this play is as follows: Bertha, St. Arthur Rodle: Delano, Jr., Richard Watts: Phillips Bass, William Mad, Emily Pesson, Catherine Brown, Robert, Prentiss: Honor, A. Warner; Cecile, G. D. Winter. The play was certainly original, and shows that a good deal of time was given to practice and preparing for this production.

The membership competition for the Dramatic Club opened last night, and it is hoped that many more will come out and sign up for this unit.
