THE HILL CO.
1015-17-19-21 Market St.
It is announced that the Junior Annual will be in it a crossword puzzle containing the name of a professor. If this is true we’d like to make a small wager as to more different solutions will be turned in as there are men in the Junior class.

This crossword puzzle game is getting to be a serious thing when it comes to alter its way into our classes. Recently a professor was trying to explain an economic theory in lecture, and after lecturing for a moment pointed to a man in the rear row and said: “What do you want?”

It might be a good idea, though, if their popularity is to continue, to have quizzes in the future given in puzzle form. The students might forget that it was a quiz and get actually interested in it, thereby most certainly acquiring some information.

“Ford Has New Water Plan.”—Headline. We’re certainly glad to hear of this, as it is getting to be a terrible nuisance carrying one’s hot bottle full of hot water on those cold mornings.

In the mail this morning was a suggestion that being at the Pressroom seem to like to shake down the students in the library, that they be compelled to do so in Lewis Hall in the interest of relieving the traffic congestion. We take the liberty of printing a statement on this subject in a bit. Why not complete this whole matter in all the way around the building and compel them enter classrooms by the window route? This may be one of the best solutions to this problem for presented.

Something must be done about this congestion, whatever plan is adopted. It is getting so that it takes a good broken field runner to make any headway at all when late for class.

The barbers seem to be very much excited about Valn’s new hair, and are even proposing changing his into the form he goes back to former favorite appearance. As usual the case, their hair are not good. A look back some of their eight o’clock classes would convince that Valn’s old hair has been experimenting with this form of beard for some time.

In yesterday’s edition we expressed the opinion that want to try hard on the gym jobs. One class and some twaddle with the man as the football team. Ambition is show requiring his players to carry football around with them as a cue for fund raising. After getting $100 a week the team would consider putting them to this purpose. We hope it might not be so hard after all, as none of the leg's does quite so much as carrying a quarters around.

Sometimes we have to take our hat off and stand in open admiration of the original express some students turn in to their professors. This morning a chap wasn’t prepared because he dropped the wrong book in the book return slot in the Library.

**STRESSING THE OFFENSE**

Although interest in the output in the football team has sagged in the last few days, the work out daily on Franklin Field shows that the coaching staff is not working under any handicap.

Reports emanating from within the barred doors of the athletic Indiana that promises to produce an offense which will round up the team to a point which is necessary for an eleven which has championship aspirations. Nothing more can be asked of the Pennsylvania system of defense. Statistics of the games played this season show that when the score of Bills has the smallest number of points against him among the football teams of the country. In the nine games played only 17 points have been made by opponents, out of a round which goes a long way in proving the caliber of the University team.

As is to be expected, the defense is not the sole bread which many football teams are judged. In the majority of games played this far, Franklin has counted on himself with playing a waiting game and taking advantage of their opponent’s errors. The coach had prepared an offense for the State game, but the weather conditions prevented anything but solidly football tactics.
