Protest Lauds Student Action in Endowment

Dr. Penniman Terms Contribution Toward Endowment of University "Proper and Necessary"

PRAISES STUDENT INITIATIVE

Speaks of Ability of Undergraduates in Subscribing to Fund As Payment of Debt

To the students of the University: The movement was a success, if successful, from every student subscription backward the University is very proper and necessary. Second, it is well to be furnished with a subscription card. More important, the idea is, it costs to give the student, even though not the full million, charges. Naturally, out of the cost of the education that the student may receive many in financial need. The financial support of the University is most important. The subscription has a three-fold effect. First, it is valuable. Second, it aids the contributor to give the student the opportunity that comes only from such service. Third, it binds together the University and its children in a bond of loyalty and mutual interest.

To every student who subscribed, that of the Great Teacher, who said: "When the work is done, there will be your reward also."

Kite and Key Makes Reading Trip Today

Kite Cooperation Appreciated by Soccer Coach and Manager

In order to assist the members of the Berks County Alumni Association in celebrating their annual Peninsula Day, the Mask and Wig groups of the Kite and Key Society will issue for Reading today. The subscription card was used to generate the subscriptions of the Kite members, a task typical of the Kite members to perform in the high schools of the county.

A short talk by Bepho Reissner will follow, in addition to the regular kites of the day, the Mask and Wig groups. The groups are doing a lot of good work in the popular subscription helper, Eddie Fox. These groups, under the direction of the Mask and Wig groups, have done a lot of good work in regular Mask and Wig groups.

**CAPTAIN DUGAN STELLAR CENTER**

Drew Turban's court candidates started practice in preparation for the opening contest against the Pennsylvania five two weeks ago, and after strenuous workouts are rapidly rounding into shape. The Drexel team has three veterans of last year's combination on hand as a nucleus from which to build a smooth-working quintet, and Coach Lange has several promising candidates who are expected to materially strengthen his team.

When Coach Lange, a former Wisconsin man, who played guard on the 1918-19 Penn side which won the Western Conference championship, has had change of this Drexel unit he is improving in the local institution's team has been marked, and the institute posters expect to give the Red and Blue cagemen a hard battle this Saturday. This game will be in the opening clash for both five, so that no just records will be available on which to compare the two teams.

Captain Dugan will lead the team, and it is expected that he will fill the pivot position. Last year he allowed few shots that passed that position and a forward berth, but this year, with the wealth of good material Coach Lange has, it is expected that the pivot leader will start at center.

Fotis, a former Southern High player, will occupy an guard position and O'Neill, a forward, composes the veteran members of the squad. The Freshman team of last year, which had a fairly smooth-working ensemble, has improved since, and three players to the list of those who are likely to start against the Pennsylvania trio. Ross, Gregory and Steward have all shown up well in the practice sessions held so far, and all of this trio may be needed against Pennsylvania (this district).

The closing of the football season for the Drexel team two weeks ago gave several other prospective candidates an opportunity for his career, and Coach Lange is well pleased with the showing made by some of the多名 players.

Powers, Bukin and Hartman have shown the greatest aptitude in the workout held so far and will be on the squad which journeys to Weightsman Hall Saturday night. In the practice which has been held so far, Coach Lange has been trying out various combinations to his efforts as to which smoothest working combination possible. The first week's work was particularly confined to fundamental drills, but at this juncture he believes he has lined up the majority of practice time.

The team shapes up as a well balanced outfit, considering the short time it has been working out, and, with the wealth of material at hand, a fast, accurate shooting quintet should be ready to face the Red and Blue this week.

The news reports that the baseball players were traded for an airplane. If those players were of the Phillies' variety we fear the machine would be in disarray.

Even with regulations suspended the other day it was rather easy to pick out the Freshmen. They were the boys wearing the bright ties who lingered quite a time on the front steps of college Hall while they lighted their cigarettes.

Santa Claus can be seen any day now at Wana- maker's. In order to do away with the usual congestion the Freshmen will be taken down in small groups by the Senior Society men. A list will be posted every day in the Dining Hall of the names of the lucky Freshmen who are to make the trip that day. These men will explain, with the help of a list of the things they want Santa to bring them and three P, R, T and take care of the carrying charges for themselves and the guide.

"No Sleep, Kila Himself!"—Headlines. We have saved the headlines and will keep it until another extra long assignment comes along, then we will show it to the Prof and ask him if he wants to be responsible for another such occurrence.

In following out the idea of holding football celebrations without interfering with class, why not have the games themselves keep the players with their windows? For instance, in those interdepartmental games the college team can use radio signals for signals and the Wharton track team can use tenant's 7 statistics.

That wildly cheering crowd of men you noticed in the Auction Club assault the other day were applauding the boys who last just gone-out of the barber shop with a load of only inter-class notes. One reporter found from an interview with him afterward that he managed to do it only because he was a close relative of the barber who worked at him.

Just a word of advice: Don't order chicken hash or chicken in any form at the campus restaurants for at least two weeks after the Thanksgiving holidays.

Some folks just can't seem to get enough punish-ment. Yesterday a chap who has been carried off the campus field unconscious four times reported for the water polo squad.

They got pulled up over the nice letters you are getting all over from your best lady Italian lady. There's a reason for nice letters at this time of the year.
