JUNIORS BALLOW FOR COUNCILMEN AT POLLS TODAY

Members of the Junior Class Will Vote to One Representative From Each Department.

ELECTION IS PROHIBITED

The Executive Council has determined that the Junior Department election for the year 1925-1926 will take place today. The polls will be open from 10 A.M. to 3 P.M. in Houston Hall, and all Juniors who have paid their dues for the year are eligible to vote.

The representative from each department, Wharton, College, Ariatendence, Education, Tennis, Woman School, and School will be chosen. Each member of the Junior Class will vote for only one representative from his own department, and under the punishment of a fine of $1.00 from the Junior Council's budget for any person who votes for an unqualified person.

ELECTION NOTICE

The undersigned members of the Junior Council have publicly accepted the challenge of Phi Beta Beta to debate and disprove any person except the candidate.

In all but two of the departments there will be an election. In the departments of College, Wharton, and School, only one representative will be chosen. Each member of the Junior Class will vote for only one representative from his own department, and under the punishment of a fine of $1.00 from the Junior Council's budget for any person who votes for an unqualified person.

RICHARD B. BOYD'S "THE支配 PROFESSIONAL ENGINEER" is now complete, it was announced yesterday by W. J. Story, chairman of the committee in charge. The testing will be held March 3 in the Moors School Building. A large and representative attendance is expected, as a number of students from Swarthmore College, Villanova College, Lehigh University, Lafayette College, Williams College, the University of Delaware and Pennsylvania have qualified their interest in attending the function. The nomination will be given by the executive board of the A.I.E.E., which numbers among the members students in the Institutions listed above. The program has been arranged to be the entire session. In conjunction with the executive board of the A.I.E.E., and will be made up as follows:

3:00–5:00—Registration.
2:00–6:00—Luncheon.
3:45–7:15—Evening session and social activities.

A special feature of the technical session will be an address by an expert on practical problems of standards depicted with actual photographs. "The U.S. Locomotives," by J. B. Powell and C. L. A long plug fell off of a lumber truck going to Collier Hall as Woodland Avenue yesterday, landing with a resounding thud, and it was certainly interesting to see all of the Provosts in a sight jump about three feet.

The team Clip says he got hold of six share of P. E. T. stock in a poker name the other stake, and after a couple more names he hopes to be able to cut the market.

The idea of raising up the folks a couple of days on a week on the telephone may sound dice in the after-thought, but a highly organized number of time, when away from here our conversation would probably have to be limited to something like this: "Hello, mother, please tell dad to send me more money so that I can call you up again next week."

LITTLE CAMPUS TALES—No. 18

Once there was an English professor at this man's University who did not assign either of the topics for tonight, "Why I Came to Pennsylvania" or "My Impeccations of the University."

Just a moment, please, while we answer our mail.

Pledge, 38—"The question you sent in for immediate action, "Is it under the water, or in the city?" is an extremely difficult one, and we are sorry to say that we have no information on it at all."

We could lend you, however, excellent treatises on "The Probable Effect on the Price of Cheese of a Tunnel from Here to Switzerland," which we wrote about this time in our Provost year.

Sneak Matthew—That idea of having a very sticky rug on a highly polished hardwood floor, while a little rough, is certainly an efficient way of denying entrance to undesirable visitors, whatever, wherever, when, or for how many days we'll wear our hobnail boots and keep off the rugs.

A Crest—Your suggestion that the women students should be permitted to compete for the editorial boards of the campus publications is a fine idea. As far as this election is concerned, we would suggest that you talk the matter up with Fred Redler in the Woodland Avenue office. We are sure he has the vocabulary that would be needed to properly present the discussion.

Our luck keeps running about the same. All of our college papers we have been wondering about the probable results of a collision between a peg wagon and a trolley car. Such an accident had to happen downtown when we weren't anywhere around.

We sure were glad to be present at the first trial of North and West because of the part one of the leading characters in the show helpfully recited some of the lines from the play.

The false predictions of some of the collegiates writers probably never to be, we'll keep an eye on the old topaz until the wooden jack is taken away from the foot of Collier Hall and the White House takes down the storm doors.

—MERCHANDISE THAT EXPRESS PERSONALITY

CONCERNING THE COUNCIL ELECTIONS

With elections for departmental members of the Undergraduate Council being held in seven schools of the University, the usual adoration to get out and pull a representative vote is again in order. From year-to-year the editorial writers have given voice to the old adage in this column. But take the situation does not call for such the laws of advice; a call for action is in order.

Members of the Class of 1938, are deeply interested in the selection of officers, are giving the departmental elections the maximum of attention and activity. It is to be hoped that there will be just one representative vote in every department, from Wharton to the Architectural School.

The principal question involved is whether or not we can realize the importance of the Council positions and the lift of men which should be held by its occupants.

The Undergraduate Council represents one of the best examples of student government in any college or university in the East. In all matters involving the student body as a whole, in all questions of policy, its authority is complete, where rules and regulations are concerned, it has complete legislative power, and in the case requires judi- cial decision the Council sits as judge and jury combined. From its decisions the only court of appeal is to the presi- dent of the University.

While the power is great, the Council possesses and uses it with much success in the past as your candidate endowed with the essential qualities of matter judgment, sound common sense and sterling honesty and tact.

A proper emphasis is placed on the personal quali- fications and not on political expediency, election editors will

EXCAVATORS DISCOVER RELICS OF STONE AGE

University Museum Excavations in Beisan, Palestine, Bring Eight Civilizations to Light

FIND WRITING OF ISRAELITES

University Museum, telltale fragments of an early Arabian city. A fort, a mosque and a town of the period have been found. Scythopolis, a city of great splendor, was first mentioned in the annals of the excavation. This city, with others, continued to honor Greek culture at the time of Christ, which is supposed to have Ctesias of Bactria. Dr. Gordon think it possible that the Hellenism which pervaded the Hellenistic period was an influence of cities like Scythopolis, and a result, as some have stated, of the spread of Scythian occupation were next discovered in Bethshean, or Beisan, in the Jordan Valley. It was here, it is believed, that the Semites that they might build this storehouse of historical treasures. It is due to its strategic position that this fort has retained its archaeological treasures. For each nation, as it rose to power, held this strong fort for a time at least and each, therefore, has left traces of the operations and customs of the people.

This site was not open for excavation until after the defeat of the Turks in the world war. Dr. George Byron Gordon, director of the Museum, and Dr. Charles B. Fisher visited Beisan in 1919, and later entered with advisers to begin the actual work of excavating.

In the first half the unwrappled remains of the Ctesias, University Museum, and of the excavations, now going on at Beth, Palestine, is the current news of the Atlantic Monthly. According to this survey, there is hope that the Byzantine may one day be back in the Stone Age. Beisan is a Palestine hill, which has been identified as the site of Bethshan, mentioned in the Bible. Eighteen miles west of Jerusalem, and fifty miles north of Bethshan, Beisan has been a stronghold on the military high way from Egypt to Mesopotamia it is been a stronghold on this hill, which has been identified as the site of Bethshan, mentioned in the Bible.
