Juniors Select Four Members of 1925-26 Council

Wharton and College Elections Declared Final—Fewer Than 50 Per Cent of Men Vote

Elections Will Be Held

J. P. Carroll, L. W. Walker, M. H. Pratt and W. W. Stachan Chosen by the Student Electorate

Mr. Carroll, a representative from the School of Architecture, the School of Education, the Wharton School, and the School of Electrical Engineering was elected to the Undergraduate Council of 1925-26 for the junior class. These electees are: J. P. Carroll, Architectural; L. W. Walker, Electrical; M. H. Pratt, Wharton; and W. W. Stachan, School of Education.

At a meeting of the Undergraduate Council, all possible candidates from the four schools elected to the College Council will be be selected. These will be announced in the course of the present week.

There are thirteen men on the Undergraduate Council, in addition to the four just elected. These two will be chosen from the Juniors, and the others will be selected at large. All the elections will take place Tuesday, March 20, and no new nominations will be allowed.

In speaking of the elections, Robert A. Huns, a member of the presiding body, said, "The elections were held in the evening, and in view of the fact that less than 20 per cent of the men cast their votes, it is evident that the students are not interested in school affairs."

The students were represented by 100 per cent of the men on the Wharton School, but only 36 per cent of the seniors on the School of Arts and Sciences voted. In addition, two seniors in the School of Law were considered unrepresented because they were not able to attend the meeting.

The resolutions will be held in at least two weeks time, and it is evident that the council is not interested in school affairs."

It is hoped that a greater interest in the Undergraduate Council elections will be shown by the class of 1926.

Missie Holman, who was elected for election from the Junior class of the School of Arts and Sciences is Leonard H. Brown and Edward R. Martin, Jr. Missie Holman is a member of the Phi Beta Kappa Society. The two men will be representing the department of chemistry, and a rector of the distance to the Science and the Social Sciences.

SIDELIGHTS ON FOOTLIGHTS

THE COMMENTATOR'S NOTE

Two weeks' interruption at the Foot.com. What an accomplishment for Mars and W. I. Without a doubt the attempt to produce in Philadelphia the plans for a new organization. It holds an air of privilege in the name of the city that is not enjoyed up to this time. We have seen the exercise of a right in the opinion of some of our guests, whose development appears to be the same, and who are able to see the value of the proposition as well as to make a satisfactory stay in this city in order to cope with the demands for tickets.

Two consider the proposed trip to Chicago. Again the possibility of the city is evident. The alumni of the Westerns have repeatedly expressed pleasure, but until now the request has never been granted. Now that the company in the middle is not making a mistake of the size of the meeting, the ambitions of the Westerners will be realized. And here in Chicago in spite of the fact that Mack and Will are accomplishing something that no other of the two other leading dramatic clubs have attained. Prince and Mississippi have yet to keep company with the plays produced by Penn alumni.

The opening of this Western depicts a new departure in the field of commercial enterprises. It will affect young men who play the part of poets and play the part of playwrights in the city they will go to, which cannot compare with New York from the viewpoints of the producing companies. A city that is a city of a city, and that is the same in Philadelphia is ready to mark the man in the real world, and it is no means to make the same as any of the New York productions and notoriety.

FOOTBALL AGAIN

The 1926 football season may be said to have started already, now that Coach Young has issued his first call for an invitational spring practice. It can be readily realized that the spring training period is more necessary than ever this year, not only because of the schedule which has been prepared by the football team, but especially because of the new attitude which limits the fall training period to less than two weeks.

In the past the coaches were able to start practising about Labor Day, but now all the work which was once in the fall must be completed before the summer vacation. This naturally places an added responsibility on the coaching staff and the student body will be increased, unless every man in the student body will try to play the game in the fall reports for the spring workouts.

The turnout on the first day does not indicate that the underclassmen have considered seriously the problem which faces the 1926 grid team. Coach Young suggested that the attitude in the opening day would be remonstrated.

We are not for lack of work and we must every man to know that the spring practice of the football team this year will be different from any in the past. Instead of playing around, we must try to get ready for the biggest football challenge Pennsylvania has attempted in recent years. It will be every football man out for practice.

He is a hero for any underclassmen with football experience.

Pennsylvania Gym
Team Meet Tigers
Red and Blue Tumblers Face Princeton in Weissman Hall Saturday
Pennsylvania's gym team will meet the Princeton alumnus squad Saturday night at 8:30 in Weissman Hall. The Princeton squad were runners-up in the intercollegiate last year, defeating the Red and Blue team for second place.

An extraordinary feature of Saturday's meet will be an exhibition by the "Light" Tumblers. The "Light Tumblers" is a Philadelphia organization which trains some of the best tumblers in the country.

Captain Ramirez, of the Red and Blue team, who performed superbly on the parallel bars in the Dietz Stadium exhibition, will in some of the spots of the meet. Mr. Dorn, of the "Light" Tumblers, will probably be the same man who acrobated in this capacity in the match with Washington and Law last Saturday.

The only other meet of the season, which will take place at the Colgate University, will probably be the same meet, which was held in Atlantic City, N. J., last year.

The Colgate team has made some progress and has added a few new members to its roster. The meet is scheduled for the last Sunday in December and will be held at 2 o'clock Saturday afternoon.

The meet will be followed by the intercollegiate gymnastics meet at the Colgate University. The Colgate team will be up against Tulane, Colorado, and Yale, with 15 points.
