VARSIYY BASKETBALL PLAY CHAMPION PRINCETON FIVE Continued From Page One

Nine teams are said to be in the hands of Captain Cleaves, center, and libertine, a forward. These men have performed brilliantly all season, and at the present time hold first and second places, respectively, in scoring columns of the Intercollegiate League.

Coach McKie, who will start the same combination in the game tonight that has been playing in the last three games, will be at center, with Grim and Vampers at the forward positions. Goodfellow and Moers will perform at guard. Coach McKie places a lot of confidence in this lineup, as it has been largely responsible for the success of the team in the past few games, all of which have resulted in victories for the home quarter.

Finister of Washington A. and M. College also placed 6th in this event at the Olympics. With more college men than ever taking up this sport, some new men may be expected to show at Princeton's varsity, this being the first big intercollegiate meeting of the year.

Glowin, of Princeton, throw the javelin, the last 12 years before at the intercollegiate championships at Cambridge and is also a serious contender for the title this year. Branch of Yale is said to be throwing better than last year and will push the aforementioned men high. With so many good men in the meet a throw of 192 feet is expected to show at Penn also, this being this year's event.

Intercollegiate Title

INJURIES WEAKEN BOTH TEAMS

George Diosker's boxing combination will meet the Penn State team in an interdisciplinary match at the State College campus afternoon. Sheep wins was the winner of the intercollegiate championship of last year, and, according to reports, the 245 pounds was an exciting contest as the title bout of last season. Both Pennsylvania and Penn State are handicapped by the loss of prominent men.

"Sheep" Diosker, Penn State's heavy weight, who has been a consistent point winner for the Nittany Lions, will be in all probability be lost on the meet on account of illness.

Pennsylvania suffers in the loss of Winifred, fast leader in the 115-pound class who is one of the remaining members of the year due to an injury to his eye sustained in the Coll

gue meet last week. Winifred was the best man in the University in the 115-pound class, and the team will be handicapped by his inability to fight.

The rivalry event of the meet will be that of the 115-pound class, when Kap

land and Winds, a strongweight of the Penn State aggregation, Captain Trouche-berg will take on a formidable opponent in the 115-pound class.

The meeting for the University will be as follows: Leon, 115-pound class, Kap

land; 115-pound elastic, Hohnheiser, 115

-pound class; Tswainberg, 115-pound class; Lehmann, 115-pound class; Oster, 115-pound class, and Knaf, of the 115-pound class.

The Penn State aggregation is as follows: McCleary, or 155 pounds; Cap

land West and Goss, 125 pounds; W advocating, 145 pounds; Greene, 140 pounds; Huenings, 145 pounds, and Wehle or Fehl, heavy weight.

Coach Becktor would not make any prophecy on the outcome of the meet. "We are looking for a win," was all he would say. Penn State has every man from their last year's team, with one exception, and will present a formidable se

"It's Jim... Telephoning from College!"

Jim hasn't a motor car, Jim hasn't a Phi Beta Kappa key.
He isn't what you would call a Social Lion. Neither is he a star athlete.
Yet, if you were to ask the first man you met on the Campus... who is the best-looking man at college... he would, in all probability, mention Jim's name.

Because Jim has a reputation for being a good fellow... one of those really hearty kind-hearted chaps who figure that the other fellow's feelings come first.

That reputation is well founded, is proved by the fact that every wish of his College Life (and he is a Senior now) he telephoned his Mother and his Dad. A worthy habit... a socially healthy habit.

If you only knew how much your Mother and Dad would en

joy a weekly telephone call from you. If you only knew how much they would enjoy those little chat-stuff, you... you certainly create the example of the well liked Jim!

THE BELL TELEPHONE COMPANY OF PENNSYLVANIA
The Lowe Grass

There are few of us who can sit still at any time or altogether forget the fact that we do not have as beautiful a campus as so many other college towns. Just and quick eating places have been directed against the various kitchen, and the like, the house and every college campus can be a luxury.

We are always hearing about the campus being more picturesque than another, but I believe that the present location has been chosen with great care, and I am sure it will be remembered that the park and the woods.

In the coming spring months we naturally expect to see the campus take on a more picturesque appearance, but there are a few things that need to be done in order to make the campus picturesque. The walks and the paths must be cleared of all unnecessary objects, and the lawns must be kept in good order.

The Lowly Grass

The campus is not yet in flower, but the grass is almost ready. It is a great pity that the grass is not cut while it is still green, as it will be impossible to get it cut now. The caretaker of the university grounds has been in charge of the grounds, and the work is progressing well. The grass is now in good order, and the lawns will be kept in good condition.

Milk Facts For College Men!

Dr. McCarroll of Johns Hopkins University, says: "The people who have milk and its products literally will have enormous advantages, because of the better health and the better general condition of their bodies."

"Freshers By A Day" -- Scott Powell Dairies, Inc.

The use of unpasteurized milk and milk products is on the increase. This is because of the greater content of vitamins and minerals in unpasteurized milk. The use of unpasteurized milk has been found to be of great benefit to those who suffer from certain diseases, such as tuberculosis. The use of unpasteurized milk is now being advocated by many doctors and health authorities. It is recommended that milk be taken as a regular part of the diet.
