FOUR NON-SIGNATORY HOUSES PLEDGE
To the Editor:

I am writing to express my concern about the recent increase in parking violations at our school. The lack of designated parking spaces has caused a great deal of frustration among students and faculty. I believe that the administration should take immediate action to address this issue and provide more adequate parking facilities.

Sincerely,
[Your Name]
HARVARD GRADUATE INVENTS NEW GAME FOR FOOTBALL

Combination of Top Football and Basket- ball intended to Aid Backs and Ends in Handling the Ball

TO SHOOT THROUGH SMALL Holes

With the idea in mind of training the ends and backs in handling the ball, Walter W. Moreo, a Harvard graduate of the Class of 1930, has invented a new game for the Harvard University football squad. Nothing similar to this plan, which is a combination of tag football and basketball, has ever been tried in any of the other universities. If it accomplishes its purpose it will give the players a mastery over the football comparable to that which a skilled basketball player has over a basketball.

It is said to deviate from the lines of this simple arrangement and see in it an imitation of the invention of the football player to teach the end and back men to handle the ball better.

Although the rules of the game are left to the initiative of Major Moreo, he has disclosed a general idea of them. There will be a safety zone 20 feet in front of each goal beyond which no mem- ber of the offensive team may go, and in which space only one member of the de- fensive team may be stationed to defend the goal. The three holes in the canvas are the goal, and count one, two, and three points, respectively.

Any number of men may play on a side. More than two steps forward will void the possession of the ball, running with the ball is really allowed only backward and from side to side. How- ever, the oval may be passed in any direction forward, otherwise rules are the same.

No personal contact will be barred. As the oval is allowed within 20 feet of the goal, a considerable degree of skill is necessary. As soon as the majority of the players increases the size of the oval will be diminished. Major Moreo explained.

ZELO INVITES PROSPECTIVE MEMBERS TO ANNUAL MEETING

Requirements for membership in the Zelotus society will be outlined at the annual special meeting of the society, which will be held this evening at 8:30 in the Zeln room, on the fourth floor of College Hall. All prospective members are invited to attend.

Following this discussion, Thomas Ben- son, 25 Wh., will speak on the subject of "Texas and International Relations With Mexico." Henry Corbin, 26 Wh., and Robert Erskine, 28 Wh., will give short talks.

Work on the annual dramatic produc- tion of the society is progressing rapidly under the leadership of Mrs. Price, who is handling the members of a film cast. "Modo All Randus," a comedy, has been selected for the slate which will be given later. Tickets will be placed on sale soon.

A NONSIGNATORY HOUSE

PLEDGE 100 P. TO DRIVE CONTINUED FROM PAGE ONE

Robert W. Poling, chairman of the non-signatory fraternity group, is very much disappointed in the way the houses in the apartment have responded. Several of them have turned in absolutely no re- port since the drive began. The ex- pectation total for this group is only $100, although it is thought that this is partly due to the scattering of team members and the various houses in the apartment. The group has subscribed 290 so far.

WILL ROGERS

An Unknown

Historical Fact

DID YOU KNOW THAT George Washington, the adopted Father of our Country, just before he went on the Ferry to cross the Delaware for the Photographing of that now famous Peace, Did you know that he smoked two sacks of Bull Durham while he was waiting for the Ferry? Things were just as late in his War, as they were in our last one. Now I have never heard of this 'Bull Durham episode before, neither have I ever heard it denied. So if it's never either been affirmed or denied, there is no reason to disbelieve that it's not true. 'Bull Durham originated in Virginia, and Washington lived in Virginia, and he was a great man to patronize home industries. And as Washington was the best man of his day, and Durham the best tobacco of its day, there is no plausible reason to doubt that these two most excellent Institutions didn't readily recognize the good in each other and get together.

Nick Roses
SIXTY-FIVE YEARS AGO!

In 1905 a blend of tobacco was born, "Bull Durham." On quality alone it has been recognized wherever tobacco is known. It often offers the public distinct enjoyment and a lot more money left at the end of a week's smoking.

CHESTER COUNTY CLUB ELECTS OFFICERS FOR ENSUING YEAR

At a recent meeting of the Chester County Club the following officers were elected: President, Walter Greenwood; vice-president, Walter Harley; secretary, Norman F. Pynne, and treasurer, George Glynis. The organization of the club has been brought about largely through the efforts of Maurice W. Elizan, Walter Harley and William Bunting, all of whom expect to graduate from the University this year.

The purpose of the club is to further the interests of Pennsylvania in Chester County and to promote sociability and fellowship among its members and their friends. There are nearly 200 regular students from the University from this county. There are a limited number of these, who are registered as part time, evening school and evening school students. The latter are not eligible to active membership, but are admitted as associate members, with full social privileges. All alumni of the University from this county are eligible to membership as alumni members. Information concerning the club may be secured by writing to the secretary, Norman F. Pynne, West Chester, Pa.

Included in the present membership of the club is Walter E. Happy, captain of the wrestling team and runner-up for the Intercollegiate championship in the 110 yard dash.

ACTIVITIES OF C. A. ARE MANY AND VARIED
Supervision of Community Centers and Playgrounds Under Direction of University Men

WORK MERRITS STUDENT SUPPORT
There are few of us who realize what a large part the Christian Association plays in the general development of young boys in Philadelphia, or, if we do, it is in the wider scope of the university's activities in fully appreciated. Perhaps the following facts may enable us to understand the situation more fully and more clearly to see just why the present campaign is worthy of support.

The variety of work done both in the houses and in the community is well known, but what of the several other places in which the C. A. plays a prominent part? For it is in these different localities that a large part of the real usefulness takes place; these spots are where the unseen work is done.

At 251 South Peirce Street, the Rick-Feld Playground Center is in charge of several resident supervisors, all of whom are University graduates. They are in charge of the different activities at the Center and also of two other centers, all three of which come under the supervision of the Smith Memorial Playground. One of the grounds is in Northern Liberties, at Atch and Noble, and the other at Grays Ferry. All three places men in constant charge, some being paid and others rendering voluntary service.

The club and class work at the Luther Settlement, 1321 Frankford Avenue, is done by men; it is also the case at the Friends Neighborhood Guild, where the head worker, assistant boys' worker and the other volunteers are Pennsylvania men. And the entire program at the Community Center in Chestnut Hill, is under the direction of undergraduates.

There, too, the Neighborhood Center at Fourth and Baltimore, and the Southwark Neighborhood House at 401 Ellsworth Street, all draw University men.

In addition to these contacts, many students are speaking in clubs and at legal conferences; of course, this work is more or less occasional, but nevertheless it is of great importance and especially if there is to be any progress made among the different groups.
