THE LOCKER PROBLEM

Although considerable criticism has been aroused by the failure of the gymnastics authorities to provide adequate locker facilities for students taking physical education, and to all appearances these verbal attacks have not been unwarranted. The problem of inadequate lockers is not a new one. On the contrary, it is one which for several years has caused inconsiderable annoyance to a great number. As the University enrollment has expanded, conditions have promised to justify as serious effort as has been made right to now by those upon whom the responsibility falls.

The climax was reached yesterday when the clinks from lockers themselves forced us to assign one locker to two different students. It had been but enough to share the regular lockers with others, but because it was realized that this was seen as unnecessary evil, little was said in the way of criticism. With the announcement of the department that it would be necessary to have two lockers in each room for the remainder of the semester, many students were not able to use their entire equipment in one of these comparatively small boxes, a great deal of resentment has been aroused among the students.

It seems high time that the gymnastics authorities should squarely face the problem that has been long lacking with the passage of each term. Other departments have their problems and take steps to right them as speedily as possible. But Physical Education seems to be one of the exceptions. The conditions mentioned are a reflection on the University.

It is realized that the authorities are handicapped by lack of space, a widespread condition which is undoubtedly shared by the truth. Moreover, if some of the full-length lockers in the upstairs section were torn out and replaced by boxes such as are now used below, the trouble could possibly be eliminated. Such a move would mean little sacrifice by the gym authorities to provide adequate locker facilities for students taking physical education, and fall all the gymnasium authorities to provide adequate locker facilities for students taking physical education, and all the gymnasium authorities to provide adequate locker facilities for students taking physical education.

We do not approve of the idea that the cheerleading section should have their choice of watching the antics of the cheerleaders or playing solitaire. We see by the papers that the "Surgeons Are to Open Congress Tonight." After looking over some of the laws and fundamental convictions of our class, the professor raised each grade three points. If we now have a 3 to 1 vote in favor of the item:

One to Virgil

When I despair and tear my hair
And mutter angry verses,
Then you will know by this I know
I am singing Virgil's verses.
The poet dead with epitaphs,
And solemnly rehearsal
"Stilp et lance" and "data luna."

And such are Virgil's verses.

I'd journey for in Pullman car
To escape funeral forever,
But ere I'd wait I'd take a flight
To flee from Virgil's verses.

We use by the papers that the "Surgeons Are to Open Congress Tonight." After looking over some of the laws that Congress has passed, we would appear that even such a radical step as the one mentioned could be of some importance.
