COACH ROBERTSON CALLS ALL TRACK CANDIDATES

Four Handicap Meets Will Be Conducted on Board Track to Get Runners in Condition

CAPTAIN WOLF HEADS VETERANS

Meetings will be conducted with the team on Franklin Field. The outdoor track season is due to start on March 11 at the track's main goal. This is the preparation of the team for the upcoming season. All new conditions and routines of the track season will be in effect as of March 11, and a large team will be formed and begin its training.

All new conditions are expected to complement the fact that no previous experience is necessary, in that very few successful runners have had such experience before coming onto the field.

OARSMEN START WORKING ON MACHINES TOMORROW

Crew Candidates Will Practice Under North Stand Till the Early Part of March

COACHES EXPECT LARGE TURNOUT

First rowing practice of the new year will take place over the weekend. Among the coach's assistants will be Head Coach Burton Frazier. The new rowing machinery has been set up in the crew room under the direction of Head Coach Burton Frazier. The crew candidates will practice under the North Stand until the early part of March, when they will move into the indoor field.

The rowing practice will be at first light, and will gradually become harder as the day of the first meet approaches. The first practice session will be held on May 3, and takes place May 5. The season opens one of the longest and most difficult schedules ever imposed by the Philadelphia Rowing Association. All crew candidates are expected to attend this first meet.

The proposed rules for the 1921 season will be thoroughly explained at the practice.

The campaign involves a lot of work, but we may expect the results to be more than satisfactory.

The successful candidates in the coming campaign will be those who come in for practice and keep going.

The open practice session will be held on January 25, at the Hotel Pennsylvania. The crew candidates are expected to attend.

BE SURE YOUR MOUTH AND THROAT ARE REALLY CLEAN

Watch the places where tooth pastes and powders cannot reach—the tiny folds in the membranes where bacteria thrive.

Use ODOL along with your regular dentifrice. Rinse the mouth with it. Brush the teeth with it. Gargle with it.

This powerful—but harmless—liquid antiseptic cleans thoroughly. It protects completely, it stimulates the gums. It sweetens the breath—even though you smoke a great deal.

Health demands more than a dentifrice.

SIDELIGHTS ON FOOTLIGHTS

In Mari Sweeney, who has assisted the leading role in "The Gorillas," representing Boston, and M. L. Berman, Philadelphia placeuse will receive a partner and very fine member of the old Chestnut St. Opera House company as a companion in the leading drama of the season. This is another of the many old established Philadelphia theater companies this season, and it is ordered that the player who has since become famous the Chestnut St. Opera House company have received a second engagement, in welcome modern methods in the theater. New York." Byron Douglas playing Victor Waken in the same play, current at the Lyric, is particularly proud of his country which may be referred to the same line which produced Lord Byron. During the recent holiday season, Douglas came across an exceptionally fine steel engraving of his united connection and so solved his Christmas shopping problem by purchasing the engraving for his wife.

Most of the theatre pests who have seen "The Gorillas" will hear with regret the death of Thos. Stanley who played the colored servant in that shrilling work. Very sad. Mr. Stanley's finest line in the play was his portrayal of the death of the old servant. Mr. Stanley had been in high favor for years being regarded among the distinguished graduates of the old Chestnut St. Opera House company.

One of the biggest surprises of the Philadelphia dramatic season has been the very strong season of "Al瑪's of the South West" playing at the Widener. Opening with no particular "ham" the play steadily extended its engagements up to the present week. It ends definitely, however, on Saturday, January 16 when登陆ed people will have seen the play. Further information in exhibitors' column. Another company located in Boston has run with a very moderate success due to the effort in that same popular spirit which characterized the "Ham." The authors, John D. Heyer and Walter Sharp have written a complete musical comedy.

Died in a hospital in New York City January 14 of pneumonia, Mrs. Harvey O. Simons, mother of Mrs. RuBin Berman of this city. She was a native of London, England. Mrs. Simons was an active member of the Jewish Home for the Aged, and was a member of the Social Service Bureau."

Work without Toil!

Ten or twelve hours a day toils the coolie. If he
Carries all he can, he moves one ton one mile in
one day. For that he receives twenty cents.

Cheap labor! Yet compared with our American
worker, receiving at least twenty-five times as much
for an eight-hour day, the coolie is expensive labor.
In America we move one ton one mile for less than
eighty cents. The coolie, working by hand, accomplishes
little; while the American, with electricity's aid,
accomplishes much.

Plenty of electricity and cheap electricity—these
are two great advantages which America enjoys
over the rest of the world. While we present gener-
ing capacity is 20,600,000 kilowatts, new develop-
ments call for 3,000,000 kilowatts more per year.

To college men and women—potential leaders—will
fall the duty of finding more and still more work
for electricity, with less and less toil for our
workers. For the task is but begun!
