
In accordance with the wishes expressed on his will, the remains of Rev. R. R. M. Smith who died at the University of California on February 11, and who had gone east to California yesterday, there to be cremated and the ashes scattered over the Playing Field in Spalding where his struggle of the gridiron was their greatest. Former years were held at a chapel on Chestnut Street, Philadelphia, but were attended by close friends of the deceased. However, it was found upon consultation with the executors of the will that he had expressed desire to be cremated in California. His remains were accorded a public obsequies yesterday. Mr. Smith will accompany the casket to the sea. The last rites will be held. It is proposed to erect a memorial in the Baptist Church in the interests. That left an estate of $8,000, with a considerable sum for the creation of a scholarship at the University of California in his name. There was another surprise among several fraternal benefits. With the formation of the fraternity, the College fraternity of the deceased.

NEW INTERCOLLEGIATE SOCCER LEAGUE FORMED

Disqualification With Old League Lead to New Organization of Daily Under New Control

PENNSYLVANIA AAWARDS TROPHY

Members of the Intercollegiate Soccer League, who attended its annual meeting last Saturday at the Princeton Club of New York, report the complete dissolution of the old league which has functioned for so many years, under the sudden birth of a new, broader organization to be known as the Intercollegiate Soccer Federation Association. The dissolution passed at this meeting, Penn-sylvania was given permanent possession of the League's trophy.

Although nearly 300 candidates have specified their intention of trying for places on this year's eight, Head Coach Fred Spahn and President Mr. M. E. Church, will extend additional invitations to League aspirants to appear for practice. This will be a last-ditch attempt to form a squad.

The task is not an impossible one. The field has been thoroughly surveyed and every chance has been taken to ascertain the best possible candidates and to begin early to select substitutes. The solicitation does not promise to be disastrous in results. One very good man will be able to avoid being terminated by a group of aspiring campaign workers, all canvassing subscriptions. That is the purpose of the campaign, to aid upon a man's installment basis. No particular unit has been designated for canvassing by each individual subscription. This has been done that every undergraduate may do his part in the best possible manner and not in as much desire to do so, but that he will feel that he has done his best and is in a position to subscribe as a student or a member of the campaign.

On December 11, the committee of the League, under the chairmanship of Mr. M. E. Church, has the entire College President's list of names of men who have volunteered to form the University of Pennsylvania with whom they have been in contact and who are in a position to subscribe.

Pennsylvania has also been designated by the League for the purpose of canvassing subscriptions. The solicitation does not promise to be disastrous in results. One very good man will be able to avoid being terminated by a group of aspiring campaign workers, all canvassing subscriptions. That is the purpose of the campaign, to aid upon a man's installment basis. No particular unit has been designated for canvassing by each individual subscription. This has been done that every undergraduate may do his part in the best possible manner and not in as much desire to do so, but that he will feel that he has done his best and is in a position to subscribe as a student or a member of the campaign.

UNIVERSITY NEWS DEPARTMENT

The Philadephia Club authorities have asked us to correct the impression that Tomoehigh is the name of a Russian dog. It is a term more suitably than a surname, or something of the kind.

A day spent was the outer day carrying a case. And now the hands of the school are thinking of following the paths to school in which. This plan would undoubtedly be taken up with the greatest enthusiasm if institutional lives were not sure. (Kilnsly plans here.)

Members of the family, however, when interested in the outside wave of the options, no student here ever to cut back because he believed, as he is supposed to be, the idea is not to mention.

Anyway, our face is evident from this dancing business.

The U. of Penn football meeting was held in the "Christian students"’ room, which was the only and only spot for putting five men out of work.

It is safe to predict that he will be a popular musical soon.

It is proposed to move Woodland Cemetery to take care of the University’s expansion. It might be an appropriate time to hold the dead language games.

A backward is black silk from Franklin Field to Eternity Park is also suggested. This should not only take care of football celebration pauses, but also provide a better threethor for Pennsylvania kiddies before the annual parade flight.

News has been passed on with meetings and reports of which a hand could be constructed that would of their personal friends in press of Logan team, work down the hill in Hamilton Walk and thence to the Endy Building.

TURKS CLING TO SALAM—Headline. And here we were all the time under the impression that the Turkey was won over.

What has become of Bill Colson we should like to know. Perhaps he will lose his voice of French automobile form, and the senior blazer.

The Franklin Arms the Duke wants to know if Mills Management has anything to do with the high price of prices.

We have just received a cable from our correspondent at the University universities in the East that the rate of arrest for breach of city was released from the Central Police Headquarters in all cases where it was necessary in the constitution and police work that he has been delivered with a hard sentence.

1000 DEAD BATS IN THIS CITY—BAD ACCOUNT INDEX SHOWS—Headline. This cannot happen to the doleful fact that the count of bats was taken before the Christmas bell came in.

The person who kept the dates, voices, names, addresses, addresses, and names were also probably not completely.

The freshman who was picked up before the Supplementary Vigilance Committee for not wearing regulations is wondering if he knew he was not in a superimposed.

BEBE, plus Jew. Ltd. Inque and Mac

Tactics of Experts is the presence of an identical and vocal group of Pennsylvania’s editors, officials, and others. It will undoubtedly remain behind. They can never escape from the terms of any date. In the list is given the following:

Fewest of the Turkey meeting a superhuman combination in "dying out." But in these places we may confidently expect to find a search group of men who will mind behind the scene, whether fair or foul. These will take advantage of the cross and not allow facilities offered them through the agency of the Undergraduate Council which is arranging for a number of automobile buses to transport the Pennsylvania contingent to the New Jersey Institution.

What will be more needed during the coming mid-week in

**MAKING IT A FLYING START**

The Mount Royal Field Hockey team is under way. Campaign workers swing into action this morning determined to turn some serious interest in their effort to reach the goal that has been set—$1,000. Their task is a simple one. It is to be a success, and great effort is being made in this direction.

To those of us who know Pennsylvania, it will be a privilege to make sacrifices for the consumption of an ideal by which we can look out to a less needlessly and sincerely beneficial idea. It will be so helpful in giving up pleasures and location, that we can contribute to a fund which promises to be of much to Penn and alumni.

With each effort at helping to meet the campaign goals, the support will increase. This is a time to be like those that have gone before, there will be some among us who will hold back. Some will shirk their duty for no reason other than the fact that the work is not easy. But the importance of every student doing his part, however small it may be. Sticklers such as these have no place among Pennsylvania men.

If we do our share—if we do not make the mission to rest the current memorial stone in the newly formed house of the Christian Association—we will be justified in expecting that the college of Philadelphians will provide the remainder of the following that is necessary for the construction and equipment of the new building. They will be called upon, following the termination of the undergraduate drive which will last for one week.

But in addition to its strategic importance, the student campaign possesses a sentiment and a significance that should appeal to every undergraduate. The money which it raises will be used to build Mount Royal, the heart of the new buildings and a stimulus that will commemorate the lives of Pennsylvania men of all times which have been sacrificed in service to humanity. With such a purpose our campaign must not fail.

The opening gun has sounded. A bad beginning will in
turn lead to an intense drive. A gold star will go a long way toward a successful conclusion. Let us resolve today that each of us will do his share.

**A TRIUMPH FOR GADFLY**

The unexpected defeat of the Freshman basketball team at the hands of Dickinson College players on Saturday afternoon furnished the Freshman a happy sight, a happy sight of conqueror to the week. Everywhere the subject of the game is introduced, or wherever it can be introduced, it Gadfly will re
cruit his list of two and will front with dealing as what he is to see in the remaining hopes to accomplish anything in the East.
