ATHLETIC COUNCIL TO ACT ON PROPOSED NON-MIGRATORY RULE AT MEETING TODAY

This is the fourth of a series of articles that will be published dealing with subjects coming up for early action in making for the season.

At a meeting of the Council on Athletics this afternoon, one of the questions to be considered was that of the proposed non-migratory rule. Although it is expected that the Council will be asked to act on the proposal in the near future, it is not certain that the Council will do so. The rule would involve the adoption of the proposed rule of the University of Pennsylvania, which states that "no person shall represent the University of Pennsylvania in any intercollegiate contest, either at home or abroad, in a sport in which he has represented the University at a tournament from which he has transferred after the passage of this rule." The proposed rule was at a meeting of the Council on Friday, 30th of January at 5:00 p.m. and seconded at the meeting, and the final action will not take place until the rule is approved by the University's faculty.

ATHLETIC COUNCIL TO ACT ON
PROPOSED NON-MIGRATORY RULE

Continued from Page One
Senior Class and chairman of the Under-
graduate Council, stated Thursday that
the first meeting on the adoption of the
rules of the various departments of the
University was going to be held in some
section of the country. The response which was received indicat-
ed that the non-migratory rule was gen-

erally favored by those whose opinion had been solicited.

Immediately after the non-migratory rule was proposed to the Council, the ex-
ecutive committee of the Varsity Club
posed a resolution regarding the passage by the Council. It was also unanimously
approved by those students in attendance at
the annual Varsity Basketball dinner
prior to the Dartmouth game on January
11. Other organizations which have en-
sured its passage include the Public and
Phi Beta Societies, the Psi Kappa Beta
Junior Society and the Undergradu-
ate Council.

The Council on Athletics is composed of

ferent groups. They are: Dr. R. B. Mc-

committees which apparently furnished the desired results.

The popular never-do-wells are rapidly losing their prestige. They have been reduced to these days at the risk of being considered a bore. Today, the young man who does not go to college is generally conceded to be greater handicapped as far as he affects upon the growth of the nation. Since the beginning of the present century, the emphasis in our institutions of higher education has increased in boys and boarders until at the present time, the older seats of learning are fostering thousands of applicants from their doors each fall, taking only those whose qualifications seem most to indicate a successful college career.

The popular never-do-wells are rapidly losing their prestige in the college of the country. The college man of today is not content merely with four years of sunshine happiness. He is in love and fond of a good time, to be sure, but with it all, it is in school to obtain knowledge and culture. He wants not only to learn what is taught in the class room and lecture; he wants to know about other things and to acquire other knowledge in a broader field than that which is offered in the curriculum of the University.

A camper spent in travel appeals to the modern college man. It includes education and becoming experience with fun and pleasure. The smoker and good growth in the possibility of student tours among the potential demand for such a service.

**MAINTAINING MASK AND WIG**

Encouraged by haggling prices the undergraduates are becoming more and more involved in the production of Mask and Wig shows. Although experienced management is necessary in order to select the cast and charges for the show, the part played by the students in contributing the book and lyrics, makes it a great exact and undergraduate production.

It would be almost impossible for students to take a greater part in staging the show because of the vast amount of evidence which is essential to lend that professional aspect which is now expected by the audience. Scene effects and dancing numbers would tend to become stereotyped from constant use by the incorporated producers. A fluctuation in the quality of the annual contributions would become evident with the change of management from time to time.

With these things in mind, it was apparent that the system employed at present is the most practical and efficient. The leading college productions of its kind in the world must uphold the name that it obtained through many years of former successes, and this reputation must not be sacrificed.

**TIGHTENING UP ON REGULATIONS**

In view of the fact that the Vigilance Committee has been the butt of some enemies for its ineffective enforcement of Freshman Regulations, it is gratifying to note its new campaign toward punishing offenders.

The "suspicion" which are being regularly conducted in Houston Hall further back to the methods employed by former committees which apparently furnished the desired results. This concerted drive is necessary to impress upon constant violators of rules the importance of assuming the rules.

It affords an unusual amount of pleasure to be able to announce that the Pennsylvania Printing Office has a new feature operator. No longer need we worry about how the column will appear each morning. Now we will be able to write what we want to with the feeling that it will not be mis-}

An Honest Man is the Noblest Work of God.

To his family, his employees, to the Campus Merchants, and all the University Men whose privilege it was to have shared his friendship and to have borne in contact with his splendid personality, we have felt to pass these days through the long and favorable career he had had on the Campus, we wish to extend our sincerest sympathy in our mutual sorrow.

During the hour of his funeral, to be announced later, when his many friends will meet to pay their last tribute to his revered memory, our shop will be closed.
