The Pennsylvania quarterback, regarded as the main obstacle in the deciding of the game, is a very strong one. The pairing of him with his running mate, the center of the team, is the main concern of the opponents.

The team has been practicing for the past week, and the players are looking forward to the game. The players are confident in their ability to overcome the challenge.

The weather is expected to be favorable for the game, with clear skies and mild temperatures.

The game will be played at 3:00 PM and is anticipated to attract a large crowd of fans.

For more information, please contact the team's public relations department.
Some three evenings past, we witnessed the "Music Box Revue" at the Forrest, a company with numerous other well-known campus celebrities in the same direction. Perhaps their company emphasized the general situation; or, again, we may have been in as unusually receptive mood. In any case, the production gave us a quite favorable impression.

Clark and McDonald are a great team and if they could only play a portion of their burlesque effect, we could safely say that they will easily match Morton and Black. Their combination past few past year. Nevertheless, they did much to enliven many scenes that would otherwise have gone somewhat anemic. And, of course, they had the capable support of Fanny Brice, clever comedienne of the boards, who easily took the honors of the evening. Some, too, though, found her remark a bit off color, but that did not prevent her from being most effective, and especially so in the two sketches, "Adam and Eve" and "Malone Poppy Door.

Oscar More and his lady friend, the wholesome, quite tall numbers especially so, especially in her hit number "Always." Mr. More has a rich voice and uses it to good advantage, and his partner was certainly a worthy equal. In the ensemble numbers, "Southland" was a saving grace in the sketches. Nevertheless, it is our opinion that the stars were outstanding.

The dancing as a whole, was noticeably weak. The Sewel Brothers were virtually disappointing. However, there was a saving grace in this department in the formable work of the four acrobats, who between their dancing and their singing gave the audience a genuine treat. And, as for the singing, it is our opinion that the first four numbers were outstanding. Never has there been a more pleasing picture than the one which they presented when rendering "The Tokyo Blues," a credit must also go to Miss Brice for her number, "Don't Send Me Back," a bit of immigration propaganda.

All in all, the "Music Box" was the best of its kind to put its appearance in this city. A well-balanced cast, good costumes and cleverly artistic scenery; all these combined to make a quite flying evening. It is not a show put on for reference, to be sure, but it is of the type that will leave pleasant memories.

OVERCUTTING IN PHYSICAL EDUCATION

The announcement of the Department of Physical Education in the coming spring series of events will be widely noticed by all students who have been allowing their studies to extend beyond the prescribed limits. The rule reads: “All students must be made to stay within the calendar month in which they were given lesser credit.” "In every case, the fairest is due to everyone, which in turn could be achieved only notably in neglect. Such disregard for the rules of the Department and faculty in filling the requirements is inexcusable. Physical education is as much as a required subject as any other subject, and failure brings with it just as severe a penalty. In the future, it will be well for every student to keep the regulations of this Department in mind and to respect them accordingly.

A PLEA FOR A COLLEGE CRUSADE

Let us not be like the “College of University Student Who Left the Way?”, the following editorial appeared on the cover of the "Manadora Magazine" in Bulletin and styled the "Expulsion of America.?"

"In every great emergency, with rare exceptions, there comes to the food needs in the kitchen and curricula to do the things that need to be done. History is full of man where achievements accomplished through the initiative and the energy and the vision of some man. Today opportunity knocks loudly at the door of college and university students in this country. In this case, I am one who can begin his own college the organization of all the mental forces there for the predetermined purpose of creating a living, abiding spirit and opposing against destruction, and pre-eminently so in connection with Prohibition. There are tens of thousands of students in this country who are located in favor of Prohibition, but who take no open, decided stand in their own institutions in behalf of Prohibition and the abstinence from alcohol.

"The call of God is men like Livingston, who preferred to live and die in Africa for the people of that country; the call to the early missionaries to go and miss them lands and suffer tortures of all kinds to carry forward the work in which they led their days. I am not going on in the call today for some young men or some young women in college and university life to dedicate their lives to the creation in their institutions. The great spreading from these and other colleges of the spirit of loyalty to the Constution, loyalty to the bias of the land, and loathing opposition to the forces that would break down Prohibition. Such a movement cannot be superimposed upon college life, but it must come within the spontaneous action of heroic young men who are ready to organize themselves for such a battle for the right. Where will it begin? Who will be the heroic leader to start the movement? Who will it be in this situation what Lincoln was to slavery? What college will have the honor of beginning such a campaign? Who will be the men who will start the work and, with unfailing devotion, live their lives for the cause?

SCOTT, SILLITI, ADDRESS
ITALIAN CLUB MEETING
Latin Instructor Emphasizes Favorable
Conditions of Living and Traveling In Italy
WILL PRESENT PLAY APRIL 21

As a meeting of the Circles Italians on
Thursday night, R. F. Scott, of the Latin
department, spoke on "Circles in Italy";
Charter No. 3069, Italian Club in
Philadelphia, was also present to give a
powerful address to the Circles.
Mr. Scott, who has spent much time
not only traveling but living in Italy, empha-
sized the favorable conditions of liv-
ing and traveling in Italy at the present
time as compared with other European
countries. Italy, as under the rule of
Premier Mussolini, continued a large
portion of Mr. Scott's talk. He gave a
brief review of Mussolini's life and point-
ed out the course of the Fascist rule as
showed by the stabilization of the govern-
ment, the absence of strikes and red signs,
the improvement of train service, and the
progressive activity prevalent through
Italy, which points to a constructive
situation and a development of a prosper-
ous condition. The position of the Roy-
al Family by Mr. Scott stated, was never at the
present time, as the King and his family
are well liked by the people. The indi-
ciduals and society both hold a liberal atti-
dute toward Premier Mussolini.
The Circles have been given with an appro-
iate gift in token of its friendship and the
Circles took the opportunity of meeting at
this festival and to present his thanks for
the gift.
P. Sanson, of the Roman Language
Department and author of the Circles
gave a short talk on the history of the club,
which he said, was to promote culture
and learning among its members. He an-
thorized a play and dance to be given

WELFARE BODY CONSIDERS
WOMEN'S ATHLETIC AWARD
Continued from Page One

The usual, however, held on February 9th, dis-
tion took place concerning this posi-
tional action of the Council is approving a
ysignant of the Interfraternity Agreement, as the
om was found to be unsatisfactory. It
therefore voted not to recommend it to
Council that this action be reconsidered.

General dissatisfaction had arisen be-
cause of tendency to confuse the insignia
owed to men and women athletes of
University. The Varsity Clubs also felt that they had certain proprietary
ights in the letter "P". The Committee
therefore suggested an insignia which
consisted of a script letter "P", within
shape of blue or red outline. This
was to be used on the left side and the
previous "P" was to be recalled.

The formulation committee, headed by
Dr. Stanley F. Nupfer, presented the
om of the following letter for confir-
mation as members of the Executive Com-
mittee of the new Interfraternity Government:

Prob: Dr. Nupfer; Professor Gam-
Dr. Barbara M. Rocke;
Senior Advisory: M. A. Gillmor, M. I. Shinsky;

The limited were duly confirmed by the
University Council and the Committee
was also authorized to fill the two re-
mainder vacancies with appointees from
the appointees themselves.

King Tut Photographs
Reveal Marvels of Art and Great Wealth

Priceless Inner Casket

The full beauty of the golden inner casket cannot be
described. It is beaten out of gold bullion, and is en-
lashed with auxiliary chinoiserie work of gold and new
precious stones. The sculpture and artistic work is
finest in the world.

Opening the Caskets

Howard Carter, the original discoverer of the tomb, is
shown turning back the shroud, disclosing the golden
head of the King. Other pictures show the successive
steps of the caskets and the method of separating them.

Finest Sculpture in Egypt

When the dust of untold centuries was removed there-
day revealed some of the world’s finest works of art
wrought of pure gold and inset with precious stones.
