ANENT CLASS DAY OFFICERS

Close upon the heels of the following for Senior honor men comes the election of Class Day Officers. For many decades it has been the custom to confer the five offices upon the five candidates who by their popularity, accomplishments, and particular fitness have been deemed in the estimation of their classmates, most worthy of the honor. Today the Class of 1911 faces the problem of choosing the right five men.

In looking to the men whose names appear on the ballot, it will be well for the fourth-year men to consider first of all, the fitness of the candidates to fill the office for which they are running for. The Class Day candidates can be made very impressive, but the degree of impressiveness depends to a great extent upon the ability of each functionary to fulfill his part of the program. The list of candidates includes men of proven ability, and judicious balancing is all that is necessary to secure a successful Class Day Program.

Should the voter consider the ability of the candidates about equal, however, he must look to their respective accomplishments. The benefit of the doubt should certainly be given to the man who has done the most for the class and for the University. Recognition of this latter form a suitable yardstick to measure for such service. It is merely a case of giving honor where honor is due. Let us hope that the best men will be chosen.

DEFENDING THE COLLEGE FROM ITS CRITICS

Critics of American college literature particularly those who turn their "revolution" into dollars in books and magazines, have been characterized in these columns before. In an editorial entitled "Why Colleges?" Colliers of recent issue calls to mind the scientific services of educational institutions.

"With all of our serious thinkers are bandaging the college brains, it is profitable to remember that most of the profound changes in our daily life had their inception in college laboratories.

"Fifty years ago college professors were still making the experiments and learning the principles on which electric light and power, the telephone, the radio, automobiles, and planes, refrigerator cars, skyscraper buildings and much else were developed.

"Science and research became an essential part of American university work when Daniel C. Gilman took over the presidency of Johns Hopkins University just fifty years ago this week. And research produced a harvest of imagined stories.

"Those who want to understand what the future may hold should examine the lives along which the research men are now at work."

SUMMER EMPLOYMENT

We are now adding college students to our sales force for the SUMMER months. Students employed by us need have no further worries concerning finances for the next college year. Our guarantee assures you of a definite amount with opportunity of earning several times this sum. A number of students earned well over $1000 last summer. No experience necessary. Write or telephone today for an interview. JOHN C. WINSTON CO. College Department, 1910 Arch Street, Philadelphia, Pa.

MARKSMEN DEFEAT
Georgetown Team

Red and Blue Scores 736 of Pisgah 2000 in Fifth Consecutive Victory

Pennsylvania's crack marksmen added another victory to their long list of 10-10 graphs when they vanquished the strong Georgetown University team last week by the score of 293 to 201. This makes the fifth consecutive triumph for the Red and Blue marksmen. It has still to meet Delaware and George Washington in the last two matches of the season.

Although Valgent, Wood, Lemf, McLob, Henderson, Irong and Perry, Phil, and Hall shot their targets for the Georgetown match, only the first five high scores counted. Valgent, with a 290, Imogene with a 290, Wood with a 286, Henderson and Perry, each with a 290, were the marksmen who registered for Pennsylvania.

The freshman marksmen won a match last week with the Princeton team, when it overcame the Nassau scores 460 to 458 with Beiler, Knights, Yul, Nat, Stafa and Land in the line-up. In another encounter last week, however, the year thus lost to Baltimore Polytechnic Institute, the score being 466 to 461.

ST. JOSEPH'S HOLDS
HIGH SCHOOL TITLE

Conquering the University's Sixth Annual Intercollegiate Basketball Tournament, which concluded yesterday, the St. Joseph's University team last week by a 25 to 20 win over Albertus Magnus. This makes the prep school champions in the High School Division and St. John's Vincentian of Manha, N. Y., retained the Proparatory School crown.

A capacity crowd, composed mostly of students, filled Weidtman Hall for the final matches of the tournament.

St. Joseph's gained its second straight title by virtue of a hard-fought 25 to 23 triumph over Albertus Magnus in the final game.

THEMANTED

BY NITY BITTEN

Captains of Coach Deckers men.

At the conclusion of three sensational rounds, Ellen was declared the winner which gave the Navy its second straight victory of the day. The battle began as if it were going to be a tossup for the winner, but in the midst of a rapid-fire exchange in the final round Allen clipped Levy with a hard right to the chin and the Red and Blue boxer fell to his knees for a second. Levy took care of himself through the reminder of the fight which was anybody's battle but Allen's triumph of the first round was the deciding factor. In the 145-pound division goodfella bantam Rappoldo, captain of the Navy, over for rounds before a decision could be reached. During the second round Geanoway got across a hard right that Goodfella fended-off for a short instant but became back strong to win the bout for the middles. Victory was from forth of jury by the decision of the Judges in the impacted rounds while Red's boxer won Pennsylvania's second win in the 115-pound division, over William, in five rounds.

CHAIM N. BIALIK TO BE TEN- DERED RECEPTION TOMORROW.

Continued from Page One

Wednesday afternoon. Bialik will be the guest of honor at a reception which will be held at the Metropolitan Opera House. Bialik is universally adjudged Israel's greatest living poet and has devoted his life to the cause of Palestine and its re-building to its former splendor and place among the great nations of the world. He has exalted the literary efforts in behalf of beauty, culture, and Jewish national unity and power. His poetic works are said to reflect Jewish life, hopes and aspirations.

This reception at Houston Hall tomorrow afternoon will be the only occasion that the students of the University will have to greet this distinguished thinker and poet, for in all probability this first American visit will be his last. Bialik is a modest man, absorbed in his work, that of the revival of the Hebrew tongue and culture, and this occasion will be historic in the annals of local cultural life.
