NEW COURSE SCHEDULE

KALE ANNEXES VARIETY RACE
IN MEET ON AUGUST 5

As a supplement to the four-year course of
study located at Princeton this year, a special three-course schedule for
exceptional students will be offered next
year. The board of trustees of Princeton
has given its approval to the Faculty and
which provides that students who show
evidence of high scholarship attainment
in their independent work will be permitted
in three courses of additional time needed for the pursuit of
their chosen specialty.
Initial steps were taken toward inde-
pendent work during the junior and sen-
ior years when the faculty introduced the
present system of study in 1923. This offers
that opportunities taken from early
years of courses, and that the time
which they would ordinarily devote to the
fifth course be expanded on individual
work or research, minor faculty guidance
This year, members of the Senior Class
developed unusual ability in their inde-
dependent work, which the faculty felt
could be aided by allowing further study.
It is understood that the new three-course plan will have applica-
tion only to exceptional cases.

season.

Grose's Columbia Fairview crew
through with a victory for the Blue
and White by overcoming the Pennsyl-
vania yearlings. Yale took off with a
lead, in the second round of the regular
but was forced to drop behind at the
furlong mark, having been caught by
Pennsylvania and Columbia.

Never before during his regime as Yale
coach has Leander lost two races in one
season as he did in Saturday's repetitions.
Coach Apple retrieved an estimate from
the spectators for the favorable change
which he has taught with his modified
Washington system, which is expected to
be used in record setting.
