NEW STATE SECRETARY IS UNIVERSITY GRADUATE

Oaths of Office Administered to Elwin H. Conarroe, Former Student at Evening School

DR. KING REGAINS FROM POST

Elvin H. Conarroe, graduate of the University Evening School, recovered from an attack of appendicitis, took office as Secretary of the Commonwealth on Wednesday. He relinquished the secretarial duties followed by features in the Pennsylvania Daily, and the other colleges with whom the Red and White publish, which is a real advantage information about the story.

Appearing in conjunction with this feature is a section on the 1926 football squad, coaching staff, and several outstanding players. As football holds the attention of both student and general public, the interest and attention is great in order to maintain the interest of the undergraduates.

Manager Edward C. Ferguson announced that the Annual Fall Handtruck and Field Meet will be held this fall at the campus in the Field Meet will be held this fall. The meet will consist of the 100 yard dash, 400 yard dash, 800 yard run, and the long and high jump. With the exception of distance races, practically every track and field event has been included in the meet.

The objects of the annual contests are to acquaint students with the different phases of track and field sports, and to afford Coach Lowen Robertson an opportunity to select the squad in the near future so as to main up his list for credit.

MANY PROMINENT STUDENTS WILL ASSEMBLE AT TWO-DAY CONFERENCE, OCTOBER 28 AND 29

In the recent biennial bulletin of the American Society of Political Science, an announcement is made of a two-day conference to be held at the University Club in Philadelphia, October 29 and 30, in which the most notable educators from the field of public, arts, and sciences, will be attended by prominent figures in the field of public, arts, and sciences, as well as state legislators. The Federal Governor will be present at the conference, and the Federal Governor will be present at the conference.

The conference includes discussions on the subject of "Federal Government and Its System in America," and "The Role of Congress in the Political System." The subject discussed will be "Federal and State Relations in the Political System." The conference will be held in the auditorium at the University Club, and the Federal Governor will be present at the conference.

The library opens exhibit of "MIRACLE PICTURES"

Other Displays to be Featured in Houston Museum

LIBRARY OPENS EXHIBIT OF "MIRACLE PICTURES"

By way of familiarizing the students at the University with the various phases of the "Miracle" picture, an extensive exhibit of slides and photographs taken from the production and of the characters appearing in major films will be presented at the University Library. Owing to the fact that the space is small, an additional exhibit will be opened within a few days, in Houston Hall and probably in the Art Building.

Some of the pictures portray the more dramatic and tragic episodes of the plot. Included among these are the scene of the Captive's escape, the scene of the Flood, the scene of the Battle of the Nations, and the scene of the Battle of the Flowers.

There are also several photographs, both in costume and as they appear in the production. The original production of the "Miracle" was presented by a company of the University's dramatic club, under the direction of Mr. Louis D. Maples, who is a member of the board of governors of the University.

The exhibition will be continued with the "Miracle" conference, to be held at the University Club, and the Federal Governor will be present at the conference.

Many prominent students will be present at the conference, and the Federal Governor will be present at the conference.

COACH CALLS MORE SWIMMING ASPIRANTS

Owing to the poor turnout of candidates in the recent swimming meet, Coach Kiefer announced that an additional meeting will be held daily in the Weightman Hall pool between the hours of 12 to 2 and 3 to 5 P.M.

Coach Kiefer was somewhat disappointed at the turnout of about 15 men and stated that he hopes to have a squad of twos that will be to work and build up their strength. In addition to the swimming meet, the team will be represented at the next meet by 800 yard dash, as well as the 800 yard run.

The purpose of the conference is to increase interest in the work of the Commonwealth Department of Public Instruction, to increase the number of members in the department, and to increase the number of students who will participate in the work.

It is understood that the reason the Chicago team did not receive the vocal support expected in the beginning was that after seeing four footballs at once during most of the game they could not tell which one was being attended for cheer leading or for a whole orchestra.

* * *

A member of the Monday evening was found at Broad and Market Streets late Saturday night looking for the hidden ball.

* * *

Although we suppose Chicago is supreme in crime the team from that city didn’t get away with much despite several lucky breaks.

* * *

However, the timekeeper didn’t take any chances.

* * *

The Freedom Across the Hall wants to know if that building before the western team’s plays in what is referred to as the Western Cup.

* * *

The one who operated in Chicago beef suffered total losses through the big fall.

* * *

Several several are said to have been brought as a result of complaints about the many complaints about the “chicken croquettes” at the Grocery Spot.

* * *

COACHES COMMENTS:

Ring—My standing line couldn’t stand long enough and besides everyone on the team is suffering from worries before the game.

Rocky—Just another one of these things.

Boehili—Farming is base.

Dole—Worse and Worse.

Hope—We’re sunk.

Young—Bring ‘em all on.

* * *

The hidden ball offense may make stolen first downs as well known as stolen bases.

* * *

Someone has suggested that the backfield men may become the Quaker starters.

* * *

We feel that the possibility of turning this into a torn of defense is too great. Some Philadelphians would gladly take it up that way.

* * *

There seems to be a feeling among some Philadelphians that Pennsylvania isn’t so much in the race. If the team who win the other team is finished and the schedule isn’t any good any way. And if they lose, they deserve it.

* * *

Well, anyway, it doesn’t do as the team will have close shaves with Williams.

* * *

The women students gave a "Waves Hall" Friday night. Nancy, who organized the arrangements, says she personally prefers something a little less rustic.

Anyway he says he wouldn’t take a woman student to a dance in a gymnasium. She might hang him up on the wall and spend the rest of the evening dancing with one of his drum bells.

* * *

Poor women: The H. L. P. (Hard Luck Pigeon) ought to be the undergraduate who must be called in to save any game.

We have tried to be collegiate but we can’t see anything else out but that way, sometimes just our shoulders. It’s not with our coat buttoned up and if we don’t button the bottom button on our woolen slacks.

* * *

The undergraduate council president says if five more members of the football team don’t show up for practice that will bring the team to five.

Epilogue

Nancy reports that a student sat down at one of the tables in the Houston Hall faculty pow-wow and was asked on what floor.

YALE PROFESSOR LAUDS ANCIENT CIVILIZATION

Explains Dependence of Our Present Civilization on Contributions of Greeks

Greek Sculpture Unequalled

"Speaking on "New Truth and Old", he was the second of a series of lectures given at Yale University, Professor Robert W. Fisk, compared ancient and modern times. "The more intimately one grasps the touch of civilization of hopeless ages," he said, "the more he is struck by the similarity between the way people lived and talked two or three thousand years ago and the way they live and think now. "Even as what we call the higher things in life we cannot be truthfully and not-honestly, or be the incalculably real progressive, our modern tastes in modern science and art, in music, in forms, sculpture and architecture, we can be better judged today. In intellectual perspective, too we do not compare, even if we equal the Athenian or the Alexandrian. The decision to heed or spiritual ideals where can the twentieth century show anything finer than the dawn of Socrates?" And was not 12,000 years ago that in China that one lived of whom the whole thinking world still says, "Never again did such a man live.""

Professor Fisk stated that if a Greek sculptor's own works were submitted to modern civilization, the world would return to its condition of life preceding ancient times, "for not a single statue of beauty for the utilization of power or the transformation of the energy stood up in nature can be designed today without the use of the mechanical laws developed by Galileo. "They revolutionized man's whole conception of the universe, his sense of duty, his religion, and his philosophy."

In speaking of physics he stated that the discovery of the twentieth century has less far for mankind, nor can it ever substi-
tute, one word from the experimental facts brought to light in the nineteenth century. "Of our imitation of the Grec-
ian culture we can explain our perplexi-
ties in these fields because in them the Greeks discovered truth, and we must go to them to learn it."

Professor Fisk is the director of the Norman Bridge Laboratory of Physics and was the winner of the Nobel Prize in Physics in 1923. He is delivering the series of three lectures at Yale University, entitled "Evolution of Twentieth Century Physics", "New Truth and Old", "The Evolution of Religion."

WISCONSIN LAW SCHOOL REQUIREMENTS RAISED

Candidates for Degree Must Present 1 Year of College Work if New Ruling is Approved

RULE EFFECTIVE JANUARY 1, 1929

At a recent meeting of the University of Wisconsin faculty it was decided that beginning January 1, 1929, students entering the law school of that University must have had three years of college work equivalent to three years in the College of Letters and Science. Upon appeal by the Board of Regents the law require will become effective on the date prescribed.

As present, two years of college work is required for admission to the law school. The new rule will not affect this, except that students as admitted will not be accepted as candidates for a degree in law. The existing six-year curriculum in the college of Letters and Science and the Law School with bachelor's degrees in arts and law granted to those who complete it will not be affected.

Wisconsin was the first university west of the Alleghenies to require more than a high school education for admission to the law school. In 1865 one year of prelegal college study was demanded and in 1891 two years. Since that time there has been almost no change in the requirement.

Camels made cigarettes
the popular smoke

THROUGH sheer quality, through a never before known smoking en- joyment, Camel won the world's competition. Camel was the first and only cigarette that combined all the goodnesses of the choicest Turkish and Domestic tobaccos, and Camel became the greatest smoke word of all ages. No tobacco name com- pares with Camel.

Camel won and holds in over- whelming preference through in- dominable tobacco quality. Only the choicest Turkish and Domestic tobaccos are rolled into Camels. These fine tobaccos receive the skillful blending that only the world’s largest tobacco organiza- tion could give. Nothing is too good or too expensive that will be omitted. Camels, regardless of price, is the utmost in cigarettes.

If you have never yet tried Camels, a new sensation in smoking pleasure awaits you. The sensa- tion of the choicest, the most perfectly blended tobaccos that money can buy. Have a Camel!
