The Alumni and, we to the Committee, after making comprehensive analysis of the proposed migration, will be anticipated, weighed, and balanced. Examination or huge Before an Intelligent opinion can be formed, the magnitudes of the future will render every angle, and an review of purposes favor cannot be wide impossible. We have much trouble explaining this.

The members of the committee occupy positions of leadership in various professions or vocations. This group includes bankers, architects, engineers, men in various walks of life, who have recognized autliority in their respective fields. Only by such a representative body can the proposal be tied from every angle, and an authoritative decision be reached.

It is universally recognized that the decision will be an important one—a decision that will greatly affect the future of the Community. Whether the acceptance of the Valley Forge site is practicable must be determined, and must be determined as soon as possible. For, while the project is under consideration, the excellence building program of the University goes forward, uninterupted.

The members of the new Eastern Association building committee, the subdivision progresses rapidly; the huge liberal stage is underway, with a definite form. These projects represent a considerable sum of money; whether the benefits of moving the undergraduate departments in the suggested site will justify the expenditure is a question, in the event that it cannot be justified for other purposes, or disposed of on favor of those already occupying the building. Since it is proposed by the Committee that whatever the decision may be, we feel confident that it will be judicious. The result will mean in every hand.

THE REFERENDUM

The six months that have elapsed since the announcement of the Homer Norton in the Winter School, the best time for the drawing of such a plan as this one by the Committee, the area of the majority of the students in that department. The present plan for the new valve is like the form, and is now taking active form in the Winter School area, which will be held in the very near future.

If the site in the Valley Forge area is adopted, the area will be improved in favor of the referendum of this proposal, it will be put to use in next year's 40 examinations. In the event that the site is inadequate, the success or failure of the plan will determine whether or not it will be applied to all of the courses in the School of Science and and under no shadow of doubt, the referendum of the 1926 referendum would greatly improve the majority of the men and women of the Winter School. It would do along with the student and farther education. The School of Science, now has all the students in the entire campus, is the physical layout of utilizing the application of the Homer Norton site will depend upon the amount of effort that each individual involved. Any who wish to follow the referendum, should remember that each of you will be as responsible for its success. This attitude that you take on this matter should be the governing factor in the amount of your trouble.

You must remember that the Homer Norton in it's shop is a very necessary part of the system. The obligation of one man to one man is to one man, and the obligation of every man and every Woman in the School with the Homer Norton site.

We are acting upon the idea of the University, that the place of any one man is not to be put in the hands of any one man. The University must give the student's the opportunity to make the decisions in their own lives, and that the University must give the students the opportunity to make the decisions in their own lives, and that the University must give the students the opportunity to make the decisions in their own lives, and that the University must give the students the opportunity to make the decisions in their own lives.
The antique stood in Independence Hall. This family gave it to Dr. Israel Whelan, Jr., donated it to Mr. Robert Town, after which it passed through five minutes upon the relative merit of pertinence to either side of the question. From those men who express their views, the fume will be those who are the most upon the front of the forensic team which represented Wyandot and Princeton on December 4th in a focused discussion of some outstanding legal. The Debating Union which is fostering tomorrow's discussion has instituted a letter box for housemen who may be obtained upon the payment of one dollar. This entitles student members to admission to the opening meetings of the organizations as well as to all adhesions held at Pennsylvania during the current seas-son.

Harvard Arranges Hand Schedule Harvard's English schedule for 1928 is reputed to be the hardly strict that the English only. This statement was made subsequent to an announcement that the Citizens has added a second Western Conference game to its next year's schedule. This will be the game with Portland of Illinois.

PENNSYLVANIA TRIANGLE MAKES FIRST APPEARANCE (Continued from Page One) The Tournament Round of bowlers from the Junior Class is a board in nations opening competitions for business and editorial positions. Section has been limited to the class of 1928 because of the new ruling which requires that freshmen take a two-year pre-paring course in return for room and board. This plan was originated by the Towne Scientific School.

SOPHOMORES MUST PAY DUES BEFORE Z GLOCK LOCK TONIGHT

According to a statement made by the Committee on Elections of the Under- graduate Council, a large majority of the Sophomore Class has not yet paid its dues. A list of all the classes is the paramount percentage of members who have paid their yearly fees.

Ernest Bass, Chairman of the commis- sion, stated that in order to secure the re- presentative vote that is desired it is necessary for every member of the Class of 1928 to pay their dues and vote. Dues may be paid between 3:30 and 240 o'clock at the Undergraduate Council Office, Room 2, Houston Hall, Tuesday and Wed- nesday. The sophomore men should make their payment, as well as their dates cards to the Council office when paying their fees. The Council's notice govern- ing the election will be published in tomorrow's issue of the Pennsylvania.

SHIPMENT OF SENIOR BLAZERS EXPECTED TODAY OR TOMORROW

In yesterday's Pennsylvania it was erroneously stated that a shipment of Senior blazers had come in. All that was received was a sample, which is now on display at Gossy's. The first large ship- ment is expected today or tomorrow.

George Howard Walton, chairman of the Senior Blazer Committee, urges all Seniors to have the University insignia emblazoned on their jackets when they buy them. This may be done for five dollars extra. The price of the blazer alone
