MENCER AND MITCHELL  
TO ADDRESS STUDENTS

At a meeting of the Junior Banquet Committee yesterday afternoon, tickets for the dinner were distributed, and arrangements for the ceremony were made. According to Chairman Harry Edlitz, these will go on sale today and may be purchased at the office.

Arrangements have already been made for the banquet to be held on January 30 at the Adelphi Hotel. In addition to the full course dinner which will be served, a varied program of entertainments will be offered. Among the features of the evening will be a special address by Coach Hopper, "Rudy" Fisher, and "Ed" Hicks.

The final musical selections will also be presented.

BATES COLLEGE ORATORS  
DEFEAT UNIVERSITY TEAM

Brilliant Argumentation and delivery Gain Unanimous Decision for Maine Debaters

ARGUING MERITS OF JURY SYSTEM

In making the opposing side of the question of the Surratt Trial for the jury system, both sides fought hard, but the New England side was the clear winner. The arguments were well prepared and delivered with skill. Despite the even nature of the decision, the New England team was favored by the judges.

The delivery on both sides was excellent. The New England team was praised for their ability to make a point and their skill in delivering their arguments. The judges were impressed with the quality of the debate and the skill of the debaters.

The debate was a success and a good example of the debate format. The audience was engaged and enjoyed the debate. The debate was a good example of the debate format and the skill of the debaters.

WHARTON SCHOOL  
SETS EXAM DATES

Mid-Year Examinations to Be Held from January 23 to February 2

In accordance with its tradition, The Wharton School sets the dates for the Mid-Year Examinations. These are important exams for students as they test their knowledge and understanding of the course material.

The exams are scheduled to be held from January 23 to February 2. Students are advised to prepare thoroughly for these exams as they are a critical component of the academic year.

The Wharton School is committed to providing students with the best educational experience possible. These exams are an essential part of the assessment process and help to ensure that students are achieving their full potential.

MATMEN AMUSE  
IN STRENUEOUS MEETING

In the initial meeting of the year, which was held on Thursday evening at the Banquet Hall, the Matmen succeeded in holding a strong aggregation composed of Alumni and friends. The Matmen are the oldest and most established student group at the University and are well-known for their enthusiasm and energy.

The Matmen are an integral part of the University community and are always looking for ways to engage students and encourage them to get involved in the College. The annual meeting is a tradition that is held every year and is always well-received by the students.

RED AND BLUE PASSERS  
FACE FAST LEAGUE HIGH

Davenport, Lindsay, Chapman, Lukens, and Goodliff listed to start for Pennsylvania.

LEHIGH TEAM HAS TWO CAPTAINS

Playing the third game this week, the Pennsylvania Varsity basketball team will match its strengths against the fast scoring Lehigh University team. The game will be played in the new gymnasium and is expected to be a close contest.

The Lehigh team has two captains, both of whom are experienced and skilled players. Their leadership will be crucial in guiding their team to victory.
It is our observation that there is a generous proportion of heavy-browed in political undertakings. The President of the United States, for example, needs his first year in office familiarizing himself with the White House hirer help, and the other three years devoting means and ways to get himself re-elected.

We have some one to thank for a new type-paper ribbon.

The Bennett Names are to be congratulated since more in their eight-page article on basketball. It was just as effective for words!

The current prize opinion in the Friedman, now on general production, was expected to enjoy reading season.

QUAKER CITY CAB

SCIENTIST DISCOVERS NEW INFRA-RED RAY FILTER

By Professor at University of Chicago to Use Recent Invention in Photographing Venus

USED TO PHOTOGRAPH MARS

By the employment of infra-red rays a most perfectly photographic apparatus was set up in the laboratory of Professor at University of Chicago, states that he will be able to obtain pictures of the planet Venus which have heretofore been impossible. Professor at University of Chicago believes that with the use of his new invention he will be able to determine whether or not the atmosphere of this planet was capable of supporting some kind of life. He says:

"Venus is near the sun and if it were not for the heavy clouds which surround it the least would be noticeable. If the atmosphere of this planet contains water and organics it is perfectly possible that some form of living creature lives there."

"Until this discovery of the infra-red, he continues, "all the pictures that were taken of were on account of the thick clouds. They were blurred and indefinite, the details which we had looked for were not there, and our photographs were useless. With the discovery of the infra-ray our photographic field was changed and we now are able to obtain clearer and better pictures."

Dr. Frost goes on to explain the great access with which pictures of Mars were taken last summer at the Mount Wilson observatory.

COURT COMMENT

It was a sad sight that the Red and Blue baskets reminded the Penn. C. last Thursday Night. Before the game the Penns were seen strategizing. However, they had not combined at all Coach Edwin M. Michael put on the floor. It was the first time this year that the players had been in the same company, having in the past preliminary games only one team meet the other.

However, the Varsity is to be congratulated. They fought hard every minute of the game, taking advantage of the breaks and keeping after the ball all the time.

If it had not been for Captain-Bridgepatient's effort there might have been another story to tell. Despite the fact that he played only a little more than the first half of the game, he netted four field goals and a total number of field throws.

"Hersch" Chapman also made a couple of fast baskets during the first half. The injury center certainly had his eye trained on although the shots were all blocked in the opening period they were a substantial addition to the final score.
