AN UNDERGRADUATE PRODUCTION

Step by step, the Mask and Wig progresses toward the
completion of preparations for the 1927 production. And from
act indications, it appears that five year's production, while
maintaining the same high standard for which Wig and
Mask is noted, will be more representative of undergraduate effort,
than ever before.

One step in this direction was taken earlier in the year, with
the announcement that students in the graduate schools at
the University would be more actively participating in its work.
And the wisdom of this action may be readily judged by the
large number of students who enter the effort.

And with the opening of a music competition, in which
students are invited to submit a score for the production, and
other field for undergraduate effort in conjunction with Mask
and Wig, the school spirit of the past years, culminates in
materially in the music score of its own. As numerous
students, the big jobs of the productions having been
composed by students.

The task of composing the complete score for the produ-
tion, however, is more exacting; the problem of matching
out a well-balanced orchestration is more difficult to solve.
And in the student who is successful, defines recognition a
offered. The difficulty of the test is conceded, but the
undergraduate who contributes the winning score in the music
competition will be recognized as one who has proven his
ability, and who has added materially in making the 1927
Mask and Wig production more truly representative of
undergraduate tastes.

A PROGRESSIVE STEP

In the spring of 1924, a group of representative students
met in Houston Hall with the purpose of forming a com-
pany whose work might be to entertain visiting publics
and spread propaganda for Pennsylvania. As a result of their
efforts, the Blue Key Society was organized on the
old "Student Entertainment Committee" which had been in
abeyance for a number of years. Since that time in 1924 the
organization has grown in size to the main offices of its
members the scope of it has broadened until now it occupies
a well defined position among campus activities.

Following the progressive policy the Blue Key and Key
Society has recently announced its intention to affiliate with the
Blue Key for a union organization of national scope.
The formal installation will be held sometime during the last
day of the junior year. The Blue Key Society is of special
importance in the sense that it is a group of students who
will be more active in the country and to promote their
general welfare. The organi-

Was Dempsey Poisoned?

Was the fight "on the level"? Was Dempsey "doped"? Here is the real truth as related by Jack Dempsey himself, and by one of the fairest and best-informed sports authorities in the country—William H. (Billy) Rocap, who was privileged to be with Dempsey throughout the entire time the ex-champion was training for his fight with Tunney.

A smoking pleasure that never fails

Here is the outstanding fact of the entire cigarette industry: Camels never tire the taste, no matter how liberally you smoke them; never leave a cigarette after-taste.

Only the choicest tobaccos that nature produces, only the finest blending ever given a cigarette could produce a smoke that never fails to please, that always brings the utmost in smoking enjoyment. Regardless of how often you want the comfort of a smoke, of how steadily you light one after another, Camels will never fail you, never give you any but the finest thrill of smoking pleasure.

That is why Camel sales, by far the largest in the world, keep overwhelmingly in the lead. Increasing millions are discovering the incomparable Camel quality — smoothness and mellowness. If you want the one and only cigarette that's good to live strenuously from morn to mid-night — the cigarette that never tires the taste — Have a Camel!

C. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.
