Over the Rim of Grand Canyon

He Threw This Pen and It Struck Unharmed on the Jagged Rocks a Half Mile Below

Non-breakable Pen barrel? Dr. F. C. Morse of the National Park to Fork Highway Association was unconvincing.

So severely to test the new Parker Duofold barrel, he stood on the rim of Grand Canyon and threw this pen into the rock-lined chasm. When the pen was recovered amid the jagged rocks a half mile below the canyon's edge, it was scotched a bit, but quite unbroken. When the cap was removed the point was as good as ever—a point guaranteed for 25 years, not only for mechanical perfection but for wear.

You cannot get Duofold quality in any pen save that stamped "Geo. S. Parker". Look carefully for this. Any good pen counter would like you to try this classic.

After-shaving comfort

How do you fit your newly-shaven face for the rig of an academic day? Some men just wash off the lather with water. Others in growing numbers use Williams Aqua Velva, Williams new scientific after-shaving liquid. It helps the skin retain its needed natural moisture—keeps the comfort of a Williams shave all day long. Big 4-ounce bottles, 50c.
