A GREEN LAKE CONFERENCE

But fortunately we have been ignored by the University Chietion Association that many building improvements have been made at the expense of their organization at Green Lake. Perhaps the principal change is the erection of a new building, which is expected to be completed by the end of spring.

The site of the new building is at the north end of campus, where the old building was located. The new building will be one which will be of great benefit to the University, as it will provide additional space for the various departments of the institution.
