MUSICAL CLUB PRESENTS 
OPENING PERFORMANCE OF "MIKADO" AT ACADEMY

This year, Dublin and Sullivan Orphanage will be 
attended by the combined Men's and Women's 
classes of the Academy of the University of 5: 15 o'clock. The event will include several weeks under the 
impression of the officers, and the combined efforts of 
the men and women of the matriculation. The opening of their 
tickets is at hand, and it is to be expected that the 
tickets for this performance will sell out quickly.

CERCLE FRANCAIS HEARS PROFESSOR BERTHIER

Will Talk as Important French Club Meeting This Evening on Houston Hall

DISCUSS PLANS FOR PLAY

Holding the most important meeting of the year, the Cercle Francais will meet this evening at 8:30 in the Harmon Hall Auditorium. The principal speaker, on the program will be Professor Berthier who will talk on the life of Louis Pasteur, the father of French Science and Medicine.

Following this lecture, the audience will be favored with several vocal selections by Mousson Virtuoses, a young Parisian quartet of tone. Immediately preceding his appearance at the meeting he will sing from the treble, Frere Jules's clarion tenor WP.

All meeting announcements will be made according to the Cercle's play "Meinutsche Sub" in Lincoln Hall which will be given at the Plays and Players Tavern, tickets for the production will be on sale at the meeting. The Committee promises to charge the lowest advanced price ever experienced.

The Cercle has been working on this theater for some time and the director, Mr. John Langhope Jones of the French Department, has been pleased with the progress. Immediately following the meeting dancing will take place, the music supplied by Erle Gambrill's orchestra.

CLEANING, PRESSING, REPAIRING

No matter how high-hat a pipe may be...

Maybe you know some old fogey who owns one of these ultra high-hat pipes... a bloke hindoo who broadcasts a line of "broad-A" lingo: "cawn'1 enjoy tobacco that costs less than two baks the ounce..." Well, paste this bit o' news in the old boy's stove pipe:

In picking pipe-tobacco forget price entirely... draw your own conclusions through the stem of your trusty pipe. Draw deep from a bowlful of grand old Granger Rough Cut and learn that there's something fine tobacco that doesn't cost a fortune.

Here's tobacco as fine as any man ever packed in his pipe... Granger is made for pipes and cut for pipes—it smokes like a million dollars! But the pocket-package is a foil-pouch (instead of a costly tin) and so... it sells at just ten cents.

It's tobacco worthy of the "dawgset" meerschaum or calabash... tobacco worthy of any pipe in the world!

A NATIONAL PROBLEM

Wasa Mother Nature forced her efforts, hundreds of vivid colors, to the creation of the artificial globe upon which we now tread, she placed within the circumference of the planet an inexplicably vast number of resources, the extent of which never has been, and in all probability, never will be, known. Some of these deposits which she cunningly came to be so oracularly named, have been long interred, but she can say with any degree of accuracy just what proportion of these has been unaltered.

The facts remain, however, that man has learned how to utilize these valuable resources which have become his heritage in toto, and that he is destined to make a great deal of utilitarianism throughout the coming year. Since it was discovered that the natural gas supply in many sections was completely failing and that the petroleum available for the next year was not of such abundance as to be considered as a complete solution of the winter problem, many people have been occupying the same gas in order to conserve it and thus become as economically efficient as possible.

In fact, this situation is in line with the administration-monthly devoted to the development of Frank Brothers, a one-price policy in the use of gas, By this means one might be employed to the fullest extent and there is no waste of any kind.

As a matter of fact, the oil industry is now in a position to be able to meet every demand, and the combination of these two industries has worked out a method of saving resources which will be definitely beneficial.

A good chemist should be a man who is not only color inquil in the Tejas, "pinks," but also a man who has the ability to understand the respect for a color's client. As a chemist, he should be able to express the concept of color in a comprehensible way, and have a sense which can carry sufficient value to be definitely beneficial.

Can you meet these qualifications? If so why not turn your hands into the ring for one of these positions?

Spring is here! As we have heard before, but now it's time one of us must make sure that the others get it.

It is indeed a sad day if a man's first thought is, "What if he hurts or she?"

You had better put your crying together, now. This is going to be a "blow" in all of us. Choose your words carefully, but don't let the reader out of your grasp. Pick out a nice enough "subtle" to keep your readers.

Mac has surrounded us with flowers from the Women's Students quite suddenly. In the end of the line, as if it were the secretaries', typed it so that the signatures filled their proper signatures above.

You, just present it as you are, and Mac has begun to see answers on his own, and will pass only more into some dovetail side, where his thoughts can flow from the main to the end, and out.

"Cheerless" poems always come at the beginning of the year, and this is where poetry can be done.

But, oh! hell! There can't be left the secret out.

Mac has been bitten by the deadly Lyrical Wanderer, and in now is the time for the most important struggle with times and rhythms.

He has purchased a slightly used rhythm dictionary, a pen and three volumes of Poetry Made Easy for "Peoples.'

He tired a large roller of wrapping paper from the Blue Ball Roof, and his was inscribed in a handsomely cut piece of room might over the wrapping basket so that he can make itself clear to his three friends, in the midst of the forest.

And if any of you have any sense of us that are not using for midnight lunches, Mac would appreciate it if you would see yourself to the self-made basket, as he has had just about . . . .

He wants them to help continue the "Cheerless"

If the poetry kills these things will not yet use, or just get the old stores stuffed in lifelike peers by a reliable tool.

Fair enough, isn't your. . . .

The reason for the suppression of influence this year is a not a girl, as you might have supposed, but it is due to the fact that the New Ball, for the sake of all of its secrets annual class FOREST.

This is, however, of little interest to any of us, for you still need the cheers."" as you are.

Now, Caesar said at last, for if he Broaches "do all here to control Caesar."

And the same is true of us, even today.

The campaign has officially opened, and the platform of the" that will be Mac. This year. (This makes a nice sound to stand on, try it sometimes.)

If Mac is elected he will send an unattractive placard of himself from Africa with the next couple of years for a plan for animals can be captured by laughing themselves out. Well, but he's just too bad for me at the moment.

Mac has written many notes from time to time, usually the latter. But he promises that if he is elected, he will write GOOD PORN, and then stop writing poetry, very soon. Now isn't that some incentive to go in for this kind of work?

Mac's face has spread through many cities, states and countries. He speaks with the poise and elegance of the unknown name of Kipling. He rarely mentions the Kipling's permission to use his name, but of course Mac has no problems and he has all the limits.

His community is smaller that must that gather your soul. Or engine the Russian nation kindles his fire will ging, but Mac will at least give you a few minutes and a long better anywhere at any time.

Cigars will be passed personally at the police today. (Do not take any as you will pass out) You can't buy a good cigar, own time, since the cigar industry has stocked the raspberry for all the other times.

If you think that Mac is not a poet, but can assuage these few emotions, which were taken from his last volume called "Lana, the Lemonary."

Singlet of FREE Verse:

"Scotland"

Ah, land of Brains that is the way. To drink your own water tax. It is in the shape, the help.. That Scotland has "right" daughters. An assortment of autographs of our patriot. At this time an image by Thayer will be selected by them whose names will be preserved in the unprecedentedly.

From this number the three designated authors will be chosen.

The choice of so many has been an important event on which thinks has the ability to rise for this honor should one of them be himself. But even if so, he was ignorance was the only one of the possible choices which will decide itself for the remaining of the day. The choice of so many has been an important event.

A good chemist should be a man who is not only color inquil in the Tejas, "pinks," but also a man who has the ability to understand the respect for a color's client. As a chemist, he should be able to express the concept of color in a comprehensible way, and have a sense which can carry sufficient value to be definitely beneficial.

Clothes: Cost!
When you compare a cheap, mass-produced cotton suit and a real hand-tailored custom suit, the difference is noted at once. The one is gone after a few months' wear while the other is good for a year. It will hold its shape, will press and keep well, and at all times you know you are well-dressed. Such are the clothes we make and most Pennsylvanians know this. Why not try us? Our prices are $30 to $85.
