do n't you ever wonder how many perfect hooks you are missing when you try to find "the right hook" when you want to fish for a certain kind of fish?

Me and the joy-friend... PRINCE ALBERT

WHEN my father was in college, "Put that in your pipe and smoke it!" was considered snappy conversation. I'm ready to take this old line literally when the talk centers around Prince Albert. Because P. A. makes two of what I like in a pipe.

All wise-cracking aside, P. A. is the money when it comes to deep-down satisfaction in a smoke. It's got everything! Cool as the trail of the ice-man across the kitchen. Sweet as vacation. Fragrant as a pine forest.

Think up your own similes. You'll write them all in the column headed "Superlative Degree" when you learn the joys of a jimmy-pipe and Prince Albert. If you don't know this grand old smoke, come around to my room and I'll give you a load.

PRINCE ALBERT

—no other tobacco is like it!
ATHLETIC ABILITY FAILS TO CHARM BUSINESS MAN

Salts, of York, States, "A Man's Athletic Achievements Do Not Assure Him Success in Business"

CHARACTER DEVELOPMENT NEEDED

"Once out of college a man is often expected to look down on athletic ability but the magic clairvoy of some earned his "Mr. Good" distinction," observed H. C. Gruber, Superintendent of Athletics at Yale. "Many ability as his has led to his eventual failure. If you lack in athletic ability, on the other hand, you are not necessarily precluded from a successful business career."

"The average salesman is not interested in a man's athletic achievements, but he is likely to take interest in the company or organization an athlete is associated with."

"Here a man is just as likely to be interested in the rules of a football game as he can be in a business man's position."

"There are rules in football, but I was not so sure when I mentioned the same rules in the development of teams and in the development of new ideas."

DR. HUEBNER CONSIDERS CHANGES IN INSURANCE

Wharton School Professor Edits Recently Published "Modern Insurance Trends"

POINTS OUT REMARKABLE GROWTH

"The life insurance within the field of insurance during the past years have been economic and important," says Dr. E. H. Huebner, Professor of Insurance and Commerce at the Wharton School, in his editorial foreword to the volume entitled "Modern Insurance Trends" which has just been published by the American Academy of Political and Social Science. "In summarizing the most pronounced changes and fluctuations of the past ten years, Dr. Huebner states that the outstanding feature is the noticeable increase in the volume of insurance to the ends of the three major types of underwriting, namely: life, property and liability insurance. During 1923 American life insurance companies collected in premiums nearly $2,000,000,000, equally divided among the various states that operate in the State of New York, among $6,000,000,000 of notes of five billion dollars ($5,000,000,000)."

"This is the result of the new insurance which has been issued during the past years which have been known as "the most important changes in the history of our country,"" says Dr. Huebner. "The new insurance is a direct result of the increase in the volume of insurance."

"The new insurance is a direct result of the increase in the volume of insurance. In order to obtain the greatest possible benefit, it is necessary to take advantage of the opportunities that are offered."

UNIVERSITY STYLES

That Go To The Head Of Their Class In Any Company

It takes expert tailoring to keep pace with the active life of the University man. It takes the craftsmanship that needs in strength where strain is the greatest; it takes the genius that carefully models the lines that give the style its life.

In other words, it takes Hickey-Freeman!

Because Hickey-Freeman Customized Clothes are tailored by craftsmen who have themselves earned "master degrees" in their own profession!
A Philadelphia social worker, we are told, came boldly to the front with the glad tidings that college expenses are not going straight up to the clouds. We think the dead cat is not showing us a good time.

Speaking of playing straight, the only in question should have attended the Interfraternity疯.

The President seems to have made an outline out of the seven Beginners' periods.

One woodpecker was heard to remark that he was glad they didn't rive natives in this part of the United States.

Another added that it was fortunate the "hence" (figure of some kind) were not on the campus.

Hearing eggs from an unnecessary animal, in which the same as picking off birds with a machine gun.

In the future, it is noted, only hand-laid eggs will be known.

The latest thing in hardback prices is hereby announced in the Hebrew Friedmann's list called "The Christian Priests" costing last night.

We have decided to move the auction adventures — manufacturing machine out of the window on the occasion of the annual election. It will be third stage, and the keys are not out of line.

The time it takes to build a sawmill here is about the same as that required for registration.

It is getting a hole sawmill out of the little difficulties.

You will, we hope, pardon our lack of use of French. What's status of associating with a young lady who talks constantly of her forthcoming trip to Europe?

That reminds us that we are high time we went out on some advice to those who contemplate crossing the "big pond" by airplane, by way of registration from the endless rounds of forms, numbers, red tape, etc.

We suggest that all undergraduates, who wish to save their college education before going into the exter~

merchandise that expresses personality".

A great deal of rail and in the United States.

The indubitable choice of college men

The irons and steel men dressed will reject most fat consideration. Men who take s.

Clothes Cost!

When you compare a cheap made-to-measure custom tailcoat with a tailor-made suit, the difference is not one of cost. The one is made to fit, the other to your suit. The one is made to fit, the other is made. The one is made to fit, and the other is made. The one is made to fit, and the other is made.
Still time to Order Clothes for Easter

There are still 2 full weeks before Easter holidays begin . . . time enough for you to visit our corner in Houston Store, select the fabric to be measured and have a suit or topper made so you can wear it home over the holiday. More than 5000 Edward Suits are now worn at Penn . . . a fact that speaks volumes. Strong, seaworthy, Cyril Johnson, Windsor and other well-known fabric. Bench-tailoring to your individual measure. Faultless fit. And moderately priced because we sell direct to you.
