BLUE KEY SOCIETY TO HOUSE ATHLETICS

President Dr. W. B. Smith reports that the Blue Key Society has purchased a new building for the athletics department. The building will be dedicated on May 12.
RED CROSS FUND
No previous drive at the Montgomery Valley has elicited the present one. We have at the University who have not contributed any sums to that fund of that year. Hitherto, it has been of the utmost importance that the fund should be raised, and the immediate result of this was to determine whether there is a need. In the past, there have been contributions made, but these have been small and not sufficient to meet the emergency.

The principal object of this fund is to ensure that the Red Cross movement is continued and maintained. It is a movement that has been in existence for many years and has helped to save many lives. The fund raised will be used to support the Red Cross movement and to provide assistance to those in need.

The drive will be carried out by the Red Cross organization, which has a long history of service to the community. The leadership of the organization is committed to the success of the drive and has a history of successful fundraising efforts.

The drive will be conducted in cooperation with local businesses and organizations, who will be asked to contribute to the fund. The contributions will be used to support the Red Cross movement and to provide assistance to those in need.

The success of the drive will depend on the willingness of the community to contribute to the fund. We urge all members of the community to support this important cause and to contribute to the Red Cross Fund.

Thank you for your support.

The Red Cross Fund
University of Pennsylvania

A NEW AGE
This is an age of transition. Each year the tendency to desire for higher education, especially among the younger generation of this country, is becoming more marked. Some and in one, the need for better-equipped and trained teachers. The number of persons gathered in the Red Cross camps increases from day to day. The work of education will remain a laborious effort. The loyal support of the aid is needed.

Yesterday the first appeal was made at the University and colleges throughout the country. At Pennsylvania, for the first time in the campaign to end the suffering of the University area, very satisfying results. The response of the students was generous. However, as in the first day of the drive the time has passed. The goal set for the 1913-1914 year is still in the distance. If it is to be successfully reached the efforts of the entire university community must be concentrated.

The Pennsylvania President and the Pennsylvania State University are two institutions that are outstanding in the present crisis. They have the opportunity to assist in the state's work. Don't fail in the coming fall to look you up, this year now.

The melting of the winter's snow releases a torrent of water which, in its turn, a smaller part must continue to pass over clear, sunny days which average only one clear, sunny day or two during the years which average thirty clear, sunny days or one.

Each year this process is repeated, and each year the climate becomes more moderate. The climate of this year is an exception. The climate of this year is more moderate. The climate of this year is more moderate. The climate of this year is more moderate.

The climate of this year is an exception. The climate of this year is more moderate. The climate of this year is more moderate.

The climate of this year is an exception. The climate of this year is more moderate. The climate of this year is more moderate.

The climate of this year is an exception. The climate of this year is more moderate. The climate of this year is more moderate.

The climate of this year is an exception. The climate of this year is more moderate. The climate of this year is more moderate.

**A smoking pleasure that never fails**

HERE is the outstanding fact of
the entire cigarette industry:
Camels never tire the taste, no mat-
ter how liberally you smoke them;
never leave a cigarette after date.

Only the choicest tobaccos that
nature produces, only the finest
blending ever given a cigarette
could produce a smoke that never
fail to please, that always brings
the greatest freedom for
the smoker.

Camels will never fail you, never
give you any but the finest thrill of
smoking pleasure.

That is why Camel sales, by far
the largest in the world, keep over-
whelmingly in the lead. Increasing
millions are discovering the incom-
parable Camel quality — smooth-
ness and mellowness.

If you want the one and only
 cigarette that’s good to live with
serenely from morn to mid
the cigarette that never
 tires the taste — Have a Camel!
