Atomic Energy Is Unique

In Its Power To Bring Man
To A New Era: Gordis

Rabbi, Columbia Professor, Asserts Bible Texts,
Especially Micah and Isaiah, Justify His Beliefs

Atomic power, the latest in a long series of lethal weapons developed by man, is unique because it can be a force which will bring man into a new era devoid of both "colorless imperialism" and "chauvinism," Rabbi Robert Gordis, associate professor of Bible at Jewish Theological Seminary and Columbia professor told a Houston audience yes-
terday.

Rabbi Gordis, the second speaker in this year's Chaplin Lectures, reviewed the "struggle of the righteous man for peace" and said that only "a man who by faith, an emphasis on hu-
mankind, and a hope for a world of peace, will be able to think of himself as truly a child of God and a sister to his fellow creatures in the world of spirit." Although narrow nationalism, "the evil of war," and the "struggle of the man who wants to conquer the world" are to be condemned, Rabbi Gordis said, "the individual who wants to spread the light of his faith, an emphasis on hu-
mankind, and a hope for a world of peace, will be able to think of himself as truly a child of God and a sister to his fellow creatures in the world of spirit." Although narrow nationalism, "the evil of war," and the "struggle of the man who wants to conquer the world" are to be condemned, Rabbi Gordis said, "the individual who wants to spread the light of his faith, an emphasis on hu-
mankind, and a hope for a world of peace, will be able to think of himself as truly a child of God and a sister to his fellow creatures in the world of spirit." 200,000 Collegians
Vacation in Europe
Europe—1955! Beginning in June, just a few months from now, some two hundred thousand American college students will set out on summer vacations in search of culture, education, or just plain fun. Many will visit the civilizations of the Old World.

For a choice of transportation, transcontinental travelers may choose from a number of air or steamship lines. With the increase of European travel, tourism companies can offer special class rates for both plane and ship travel.

Air Tourist $300

The lowest regulated schedule flights are air tourist, at around $300, while first class rates are as high as $750 round trip.

For those with ample time, however, steamship travel is the traditional, more leisurely way of traveling, also offering more opportunity to the economy-minded traveler.

St. Lawrence Cheapest

For example, shipowners on the St. Lawrence, in an attempt to continue what waterways" combination of steamship and tourist flights to Europe, plan to broaden its appeal by specializing in the tourist-class passengers and will make it a point to continue that waterway's further opportunity to the economy-minded traveler.

Most of the ships on that run for 1955 will primarily be tourists, without the padding of the tourist offer some of the best low cost accommodations available. In most of the ships a tourist ticket will cover the round trip.

Wide Range

Accommodations range from first-class suites to comfortable berths on the lower decks. Most ships offer a variety of classes, which include summer courses at American universities.

The Atlantic crossing on most of the student ships takes seven to fifteen days. On the luxury liners, where the minimum fare averages around $350 round trip, the trip is only five days.

Other Expenses Listed

So much for transportation expenses. What will an American vacation cost the traveler after that?

The transcontinental visitor may travel on his own, or he may purchase a "package tour," which include many of the accommodations desired. A number of special student travel agents are available.

Tours Inclusive

Most tours include drives and excursions, English-speaking guides, hotel accommodations, at least two meals per day, and sometimes leisure, native venders sell their wares in market stalls along the Nassau waterfront in the Bahamas. The beach, the background journey from the Old Islands of the Bahamas.

More Than 418,000 American Travelers

Will Visit Foreign Countries This Year

A real estate agent on the Florida coast last year said that the area was a "hot spot" and the acreage was "the perfect crop that needs watering on a weekly or fortnightly basis. We don’t have to do anything. You just grow and grow.

Americans are probably the best mobile nation on earth. The following facts and figures on U. S. travel is a good indication of the American tourist's way of life:

1) It is estimated by the American Automobile Association that Americans will have taken 112 million trips during 1955; 4,000,000,000 miles will be traveled, including 125,000,000,000 miles by automobile, 125,000,000,000 miles by airplane, 125,000,000,000 miles by train, 125,000,000,000 miles by bus, and 125,000,000,000 miles by other means of transportation.

2) Last year a new record of $175,000,000 was set for the number of people who increased the nation's money-making travel business. The reason for this increase is in the demand for vacations and travel, coupled with the increased ease of transportation. America has a well-developed tourism system, and it is one of the most popular travel destinations.

Caribbean Islands Offer
Winter Vacation Treat

For the vacationer who can't wait until June "to get away from it all," there are a number of pleasant spots which welcome the visitor during the Christmas season. The most popular of these among college students are found in the Caribbean paradise of St. Thomas, the well known Florida resorts, and the famous Bahamas. The Caribbean paradise of St. Thomas has a number of charmers— and Bermuda is also within a short flight from the mainland and an appealing spot that will be a winner this year.

The New York Line has been a leader in establishing the Caribbean as a favorite vacation spot for college students, and it is here that the majority of American tourists will be found.

Vacationers Offered Choice of Climates, Package Tours

Temperatures Suiting All Tastes Found in World’s Vacation Spots

Tired of cold weather? Like the ocean? Perhaps you’re a winter sports fan, looking for a trip to an even colder climate. If neither suits you, how about a spell of moderate temperature in the vacation spots of the world away from you, no matter what your choice of temperature? The Theory of the Traveler of the Season (T.T.T.S.) is imposed by financial means and the weather for the moment.

For the sun lovers there is, of course, Florida, Bermudas or the Caribbean, where temperatures run right up to 80° and 90°. Winer lovers are to be found, if you’re willing to go the distance.

Summer temperatures (temperatures through March.) 85°, Barcelona; 81°, La Grande, 79°; Rio, 78°; Bombay, 75°; or, for the really adventurous, the Philippines, 19°, and Java, 80°.

Those of you with ice-water in your veins need not leave commercial North America to find a suitable vacation spot. Chicago and New England averages 35° and 35° respectively for the first three months of the year.

Still More Frigid

Those who yearn for still more frigid temperatures can find them in Canada, with temperatures as low as -20° in November and December.

Suggestions Given for Handling Minor Details on Trip Abroad

When the last arrangement is made, the last bag packed, and the last ticket bought for your trans-Atlantic tour, here are some tips to keep in mind, gathered by George Weiler of the Chicago Daily News from foreign correspondents.

1. Look for the elderly customs inspectors, not the younger ones who will be eager searchers, anxious to make damaging discoveries.

2. Do not tip the porters who bring your luggage to your room on arrival unless the pieces are numerous or involve com-

Begin All Preparations For Summer Trip Now

With more American students than ever before planning to travel abroad this summer, it is now too soon to begin preparations for your trip now.

A great deal of red tape is involved in making reservations, plotting itineraries, and meeting government regulations. The wise traveler will begin all this enough time in advance of his departure date to rule out any chance for last minute headaches.

If you’re planning a transcontinental vacation this summer, don’t overlook the fact that although often inconvenient, details of your plans must be fixed before embarking on your “voyage”! Included in the list are:

1) Virus shots—these are required for certain diseases before you are permitted to leave the country.
2) Passport—to obtain a passport, apply at the courthouse of your local county, or at the passport office found in any of the large U. S. cities. The government requires that each applicant bring with him two examinee witnesses, who must be American citizens over 21 yrs. of age. Data required on the application is that the applicant has never been convicted of any crime, has had an amicable divorce within the past three years.

Bring with you all two full-page photographs of yourself, 2 1/2 inches square, on a white background, to be added to the application. A $10 service charge is made for the Con.

3) Visa—A visa will be necessary in all but twenty countries of the world. England, France, Holland, Mexico, Russia and Turkey do not require visas for American citizens. In all the Americas, only in Argentina, Bolivia, Brazil, Chile, and Uruguay are visas necessary.

Owing to the fact that the prospective traveler must contact the government for permission to leave the States, and often this is done necessary when leaving as far as neighboring Canada and Mexico is concerned. Usually, it is only the draft board which is concerned about this form, for it is rarely checked in Europe.

If you are interested in driving a private car once you’ve reached Europe it is necessary to carry a nationally issued license as well as an international driving license, which can be obtained through the AAA before leaving on your trip.

There are a number of small inexpensive foreign car models which are popular among American vacationists, including British Ford, Italian Fiat, German Volkswagen, and French Renaults.

Large Number of Ski Resorts Available for Budget-Minded

In the eastern section of the United States, the ski season begins in the month of December and continues through the months of January and February. The ski slopes are open until April 15. During the holidays that are well within the range of budget-minded students.

Chutes for young, broad and long lessons average approximately sixty dollars weekly with equipment running about three dollars per day.

Some of the better ski spots are: Franconia and Burke Vermont, Mt. Tremblant in Quebec, Stowe and Stratton in Vermont, Mt. Whiteface and Belleayre in New York, Littleton, New Hampshire. Stowe and Big Bromley in Vermont, Boyne Michigan, and Big Sky and Snowmass in Colorado.

Boyne, Michigan may be reached by plane or bus from Chicago or Grand Rapids. Then take sixteen miles to ski area. Usually, a $5.00 to $6.00 bus ticket entitles the passenger to ski area. The bus ticket is included in the price of the annual pass.

There is also a lift at the top of the mountain which is available for rent in the shop. The lift is available for rent at $5.00 per day. The ski area is open from December 15 to March 15. The lift is open from 9:00 a.m. to 4:00 p.m. daily.

American citizens over 21 years of age must be covered by an insurance policy which includes hospitalization. This requirement is necessary in order to participate in the winter sports.

Stowe, Vermont, may be reached by train to Burlington or by train or bus to Waterbury and then bus to area. However, the trip by car is more desirable. Package deals do not exist there but there are lodges in town and in the area. There are a number of lodges in town and in the area.

Basketball Team Opposes Garnet in 1st Away Game

by Howard Slaper

Pennsylvania's basketball team, after successfully initiating its home campaign against Purdue Friday, makes its first road trip tonight, when it meets a weak Swarthmore quintet at 8.

The Garnet will be seeking its first victory of the season. In its only contest to date, Coach Howard Slaper's five were soundly trounced by Lafayette, 93-54, on Saturday.

The Quakers hold a commanding 42-9 bulge in the series with Swarthmore to date. The Oar, Ac.d. will be in the pivot post and forward positions. Joe Sturgls, who was in last year's game and saw action in last year's game, will start at 7:30. Art Singer and Dave Kline will handle thebounding chores.

Lee Balling and Paul James will start the game. All but Miller saw action in last year's game against the Quakers. The ideal quintet won, 84-54. Miller, however, was the only member of this year's team taking 14 points to lead the Grapplers in scoring.

The Quakers exploded against Swarthmore a year ago, trailing up a 28.5 lead at the end of the second quarter. The Grapplers were held without a field goal until three minutes had elapsed in the second quarter. The ideal quintet failed to hold the lead at any time in all but one game.
