Fraternity Rushing Enters Second Day
As 20 Houses Bid for 672 Rushees
Fresh To Consider

Joining Important Choice
Twenty fraternities will be open to freshmen tonight from 7 until 10 p.m. The second day of the rush, which rushed last night will see an increase in the number of freshmen who will be checking in with the various fraternities for their three remaining years on the University campus.

Meet Younger Members
Freshmen interested in joining fraternities should be interested in meeting new friends. Fraternity men with whom the freshmen make during their four year stay have made them an important decision. It is now time to make the proper selection of a fraternity.

Robert R. Meyner, governor of New Jersey, last night admitted that the proper choice of a fraternity club has often been a difficult matter. Meyner was the featured speaker at a meeting of the Pennsylvania Regional Chapter of the American Society for Public Administration.

Work Only Begun
Governor Meyner said that the third reorganization in New Jersey, which was initiated with the formation of a new state constitution and several reorganization statutes in 1947, had not yet been fully accomplished.

Funeral for Dr. Schonfeld
Dr. Michael Schonfeld, superintendent of the Philadelphia Board of Education, died yesterday morning after a year of illness. Dr. Schonfeld was born in Philadelphia in 1883 and was educated at the University of Pennsylvania.

The building will be dedicated to the memory of Dr. Schonfeld and will be known as the Michael Schonfeld Building.

Kite & Key Fetes Foreign Policy Institute

Foreign Policy Institute To Hear Buttenwieser
On Germany's Position

Rearming, Unification
Are Two Big Problems

Dr. Benjamin J. Buttenwieser, assistant U. S. High Commissioner of the United States, will be one of four experts to address the eight annual Foreign Policy Institute on the subject of West Germany's position in the free world at the University of Pennsylvania. Dr. Buttenwieser, who has also been appointed by the United Nations to the position of United Nations Representative for the United States, will be a member of the Institute.

The Institute was founded in 1936 by the University of Pennsylvania and is sponsored by the University and the School of Economics and Commerce.

The Institute will be held on Thursday, April 24, at 8 p.m. in the University's Alumni Auditorium.

Dr. Buttenwieser will address the Institute on the topic of West Germany's position in the free world.

He will be joined by three other experts who will address the Institute on the topics of rearming and unification.

Dr. Buttenwieser will discuss the problems of rearming and unification, and will present his views on the subject of West Germany's position in the free world.

The Institute will be open to the public, and the admission fee is $2.00.

The Institute is sponsored by the University of Pennsylvania and the School of Economics and Commerce.

The Institute will be held on Thursday, April 24, at 8 p.m. in the University's Alumni Auditorium.

Dr. Buttenwieser will address the Institute on the topic of West Germany's position in the free world.

He will be joined by three other experts who will address the Institute on the topics of rearming and unification.

Dr. Buttenwieser will discuss the problems of reararming and unification, and will present his views on the subject of West Germany's position in the free world.

The Institute is sponsored by the University of Pennsylvania and the School of Economics and Commerce.

The Institute will be open to the public, and the admission fee is $2.00.

Thirt}
Columbia Tops Penn Duelers

Pennsylvania's varsity fencing team suffered its second straight defeat, losing to Columbia in the Quakers' four-game season. A 2-1-1 record for the campaign.

Wally Fischer, Penn's leading fencer, suffered his second loss of the season although finishing with a 2-1 log, and now boasts a 12-2 record for the campaign.

Aaron Karp, in the foil, stopped the Columbia's yearling team this season with a 10-0 and was twice awarded first place for the whole season, while the Crimson, but the Lion's had won twice before being defeated.

The freshman fencing team defeated Columbia's yearlings, 7-4, to register second straight victory of the campaign. The lions have lost once. In re-

Cricket Meeting

There will be an important organizational meeting of the University of Pennsylvania's Cricket Club at the Palestra on Saturday, March 22nd. The meeting is for all candidates and arrangements for pictures will be discussed.

Basketball Notice

The Pennsylvania Harvard basketball game will be played as the second game of the Friday twin-bill on Friday, March 22nd. Game time will be at 9:45 p.m. This will be the only game this season the Quakers play the Crimson, but the Lion's had won twice before being defeated.

Graduating Engineers

Research, development and production activities at Northrop Aircraft, Inc., create a continuous demand for young men who are building their careers in the fields of engineering and science.

If you have had training that qualifies you for:

- AERONAUTICAL ENGINEERING
- BOUNDARY LAYER RESEARCH
- MECHANICAL ENGINEERING
- METALURGICAL ENGINEERING
- ELECTRICAL ENGINEERING
- THERMODYNAMICS

Regardless of military status...who are graduating in...

INTERVIEWS

Date: THURSDAY, FEBRUARY 17

For 35 years the name Hamilton Standard has symbolized the world's finest aircraft propellers for both piston and turbine engines. Now it stands, too, for the finest in a growing line of jet aircraft equipment such as:

- JET FUEL CONTROL SYSTEMS (electronic and hydraulic-mechanical)
- JET TURBINE STARTERS (pneumatic and combustion)
- HYDRAULIC SYSTEMS (variable displacement)
- ELECTRIC AIR CONDITIONING SYSTEMS

Many Hamilton Standard engineers have won international recognition for their contributions to aeronautical science. These opportunities await young engineers who join our growing organization today. After a brief training and orientation period at high starting salary, you can advance steady in one of our many fields of engineer-

ROOMS—Nicely furnished and near Wharton. Easy to study. Try clothes in our office. Apply 1-714 Union Bank.

LLOYD Wallpapers have long service—try them. Ask your dealer to show you the Lloyd 1956-56 Sample Book. Write for colored brochures. PHIL and JIMMIES 3619 Walnut Street.

College graduates getting ahead... growing with UNION CARBIDE

"I'm a chemical engineer, Class of '52, and a Technical Rep- resentative for Carbide and Carbon Chemicals Company. I work through one of Carbide's 23 Sales Officers, calling on all the process industries in my area. My job is to open up market for new products and find new uses for old products. I try to be a valued technical consultant to my customers."

"I'm a mechanical engineer, Class of '49. I started in the Townsend, N. Y., Laboratories of Linde Air Products Com- pany. In a few months I was doing research in liquid-temperature rectification and heat transfer equipment. Now I'm a Section Engineer, responsible for a group of research and develop- ment engineers—a member of Linde's management team."

"I'm a metallurgical engineer, Class of '51. I wanted to get into development work, so I started with Electro-Metallurgical Company in their Metals Research Laboratories in Niagara Falls. Three years' research work in steels and titanium gave me the technical groundwork I needed. Now I'm rounding out my first year in my chosen field—development."

"I'm a chemical engineer, Class of '50. I started with Balske Company, in their training program for production. Now I'm Assistant Department Head at the main plant in Round Brook, N. J. The group I direct handles raw material control and technical service. Balske gives me the chance to rise to a significant position in management."

THEY ARE KEY MEN WITH A FUTURE if you are interested in a future in production, development, research, engineering, or technical sales, check the opportunities with any Division of Union Carbide. Get in touch with your college placement officer, or write directly to:
