Campus Chest Program To Begin Next Week; Carnival/Climax Drive

Queen and Barbershop Quartet Contests Featured; Huber is Chairman for Eighth Annual Campaign

Campus Chest, the only charity drive at the University, featuring a Carnival and a contest starts next week and will be climax ed by a Barbershop Quartet contest on Tuesday, October 18, announced Thomas W. Huber, general chairman of the eighth annual drive.

The Campus Chest Committee hopes to attain a goal of $10,000 in contributions. Thirty-one organizations, national and campus, will share the funds.

The purpose of contributions will come from individual solicitation of students, alumni and faculty, and from contributions the committee will coordinate last year's successful sale of allowing dedications to be taken. This year student's deposits will be turned over to the district, where the amount of the pledge is deducted from the student's degree.

Drive Starts Wednesday

The fraternity and sorority division will start Wednesday at 5 p.m. in the Student Union, and beginning Thursday of that week.

Questions, admission free, will be answered by several groups. Several spots will be
...
Students! It’s Lucky Droodle Time Again!

Got a Lucky Droodle in your noodle?

Send it in and

MAKE $25

Hundreds and hundreds of students earned $25 in Lucky Strike’s Droodle drive last year—and they tell you it’s the easiest money yet.

Droodles are a snap to do—just look at the sample here. Droodle anything you want. Droodle as many as you want. If we select your Droodle, we’ll pay $25 for the right to use it, with your name, in our advertising. And we always end up paying for plenty we don’t use!

Send your Droodle, complete with title, to Lucky Droodle, P. O. Box 67A, Mt. Vernon, N. Y. Include your name, address, college and class. Please include, too, the name and address of the dealer in your college town from whom you buy cigarettes most often.

While you droodle, light up a Lucky, the cigarette that tastes better because it’s made of fine tobacco . . . “It’s Toasted” to taste better.

“It’s Toasted” to taste better!
Grid Prospects Appear Bright For Freshmen

The Pennsylvania freshman football outlook appears to be somewhat brighter than that of last season, when the Quakers ran under 15 minutes to beat Army. The basis for this hope is the availability of gradually improving each season, Pennsylvania's 1955 order of gradually improving each course.

The Frosh team is hoping to better last year's 4-2 mark. Among the veterans are captain Dan Maltese who was the first returning lettermen battling for the frosh schedule.

The basis for this hope is the availability of gradually improving each season, Pennsylvania's 1955 order of gradually improving each course. At least 30 of the frosh team are expected on the 4.5-mile Cobbs Creek, an all-Public center from Northeast High, have matriculated at Penn and should bolster the Quaker line.

The Princeton fresh will provide competition when they open the season on October 29th at Murphy Field. Three other contests with Army, Columbia and Cornell, in that order, comprise the remainder of the frosh schedule.

Until now Butler has concentrated on running pass patterns similar to those the Red and Blue varsity will face, thus serving an all-important dual purpose—aiding the varsity.

In October, Butler believes that the candidates this afternoon in the varsity dressing room, and Doug Gamble, for Freshmen Grid Prospects.

PennHarriers Boost Fine '55 Prospects

Expecting to continue its record of gradually improving each season, Pennsylvania's 1955 edition of the cross-country team is hoping to better last year's 4-2 mark. The basis for this hope is the availability of gradually improving each course. At least 30 of the frosh team are expected on the 4.5-mile Cobbs Creek, an all-Public center from Northeast High, have matriculated at Penn and should bolster the Quaker line.

The Princeton fresh will provide competition when they open the season on October 29th at Murphy Field. Three other contests with Army, Columbia and Cornell, in that order, comprise the remainder of the frosh schedule.

Until now Butler has concentrated on running pass patterns similar to those the Red and Blue varsity will face, thus serving an all-important dual purpose—aiding the varsity.

What's doing
at Pratt & Whitney Aircraft

Here's something unique in education.
Near the Pratt & Whitney Aircraft plant in East Hart-
ford, Conn., a full-fledged graduate center was estab-
lished this fall by Rensselaer Polytechnic Institute. Lo-
cated 115 miles from R.P.I.'s home campus in upper New
York State, the new graduate facilities will enable working
engineers from Pratt & Whit-
ey Aircraft and other com-
panies in the Hartford area
to continue their studies.
Without interrupting normal
employment, it will be pos-
sible for students to obtain
advanced degrees in special-
ized fields from the nation's
oldest engineering college.
Designed to raise the level
of knowledge and to broaden
the base from which ad-
vanced research can be ap-
proached, this entire pro-
gram will simultaneously lead
enrolled engineers to greater
achievement in their careers.

First 702 Computer in East. Just installed,
this advanced I.B.M. computer joins
earlier electronic marvels that played a
vital role in the development of Pratt
& Whitney Aircraft's famed J-57 jet engine.

Newest Supersonic Fighter. The Chance
Vought F8U, latest in a growing group
of military aircraft to fly faster than
sound. Like most other record-breakers,
it is powered by a P & W J-57 turbojet.

Lost Wasp Major, most powerful piston en-
gine ever developed, is shipped by P&WA.
This marks the end of an era as turbo-
jets take over as the source of power for
heavy bombers, transports and tankers.

World's foremost
designer and
builder of
aircraft engines
