Undecided for Quartet Winners; SAM Awarded Carnival Chest

Charles Meridith, Robert Ragani, William Hoffman and Thomas McGrellis, holding the mugs which they won for first place in Housten Hall's annual Barbershop Quartet contest, harmonize as one of their numbers was inscribed with "My Eveline," "Pettison Katrina" and "Up the Lazy River." by William T. Riker

With a group of novelty and as many as four harmonized themselves right into first place in Housten Hall's annual Barbershop Quartet contest that night. The award of the trophy was a complete surprise to the quartet who were chosen. Sigma Alpha Mu was selected for receiving the most money for its currency and second place in Sigma Al-pha Mu moved out second place with Pit Bull 1 by $5 with a grand total of $325.

Four were represented by the winning quartet as well as the other participants, including Nicholas Barnard's. A series of numbers including 1-2 from this year's show Barmer was presented to the Freshmaners. The song was "Up the Lazy River." with a low-born dashing alley cat.

Dr. Edwin E. Aubrey

Undecided for Quartet Winners; SAM Awarded Carnival Chest

The Freshman Class President and the Secretary and Treasurer of the Junior Prom, stated that they would be present at the Freshman Prom on October 20, in order for the candidates to take care of any business that may arise.

The Freshman Prom will be held on Friday, September 25, in the auditorium of the Freshman lounge. The Freshman Prom lounge is composed of Jay Frank, Robert Wunderlich and Lorraine, chairman.

Ivy League Students Superior, Three Articles in Holiday Assay

by Arthur C. Partenie

Stop right where you are, you're standing straight up. Your stomach. You've as Ivy League man, and You're Superior, so you've got to deliver your lines, and what's more, you've got to deliver them thoroughly. Your character is a man of the Ivy League, and those are the only words you've got to live up to. And if you don't live up to them, you're as good as gone.

Ivy League, with its ancient traditions and high standards, offers opportunities for students to experience a unique college experience. The Ivy League's prestige and声誉 attract students from across the country and the world, and its rigorous curriculum and competitive spirit challenge them to reach their full potential.

In this essay, I will examine the characteristics and benefits of the Ivy League, as well as its impact on the lives of its students. I will analyze the league's role in shaping academic and personal growth, and explore its influence on future career opportunities.

The Ivy League is a group of eight universities located on the eastern seaboard of the United States: Brown University, Columbia University, Cornell University, Harvard University, the University of Pennsylvania, Princeton University, Dartmouth College, and Yale University. These institutions have a long history of excellence and have produced many of the nation's most influential leaders, including presidents, Supreme Court justices, and Nobel Prize winners.

The Ivy League's academic rigor is well-known, with small class sizes, highly selective admissions processes, and a strong emphasis on research and academic excellence. The league's institutions are also known for their intense competition, with a focus onathletic, social, and academic achievements.

Despite these challenges, many students find the Ivy League experience to be transformative and rewarding. The league's competitive nature and high standards push students to excel academically and personally, and its strong alumni networks provide opportunities for career advancement.

However, the benefits of the Ivy League are not without costs. The league's high standards and intense competition can be stressful and may contribute to high levels of anxiety and burnout among students. Additionally, the league's focus on academic and professional success may come at the expense of personal and social experiences.

In conclusion, the Ivy League is a unique and prestigious group of universities that attract talented and ambitious students from across the world. While the league's academic rigor and competitive spirit provide opportunities for personal and professional growth, it is important to recognize the potential costs of this environment and to support students in finding a balance between excellence and well-being.
LEAVES OF IVY

by Arthur Rosensreet

How can it be... At the University of Connecticut, formal rules require that a member of the faculty or a student must sign attendance when entering a classroom. This is a second sentence. As a result the entire university will operate the class in a formal setting. At the University of California at Los Angeles, however, a student can enter a classroom unannounced and proceed to attend. The reason for this change in curriculum is to allow students to attend classes more easily. As a result the entire university will operate the class in a formal setting. At the University of California at Los Angeles, however, a student can enter a classroom unannounced and proceed to attend. The reason for this change in curriculum is to allow students to attend classes more easily.

It is hoped that by integrating the potential of a classroom, the curriculum at the California campus will be enhanced. The student body is already pleased with the change and plans to continue with the new curriculum.

In Storrs. As a result the entire university will operate the class in a formal setting. Special Viewers--Paid Programs Offered To Public by T.V. Industry

By David Morris

Who can ignore the role played by the television industry in both the economic and cultural life of the United States? In our society, we are deeply affected. Inevitably, this has resulted in a growing interest in television and its development.

But, this is still not the core of the issue. Frankly, few programs are of significant value. A particularly irritating example has been the "64,000 Dollar Question" program. In this show, participants are given a series of multiple-choice questions and must choose the correct answer to win money. However, this Is not the case. For these programs, the...

The starting line-up will have Andy Wolfe, who scored three goals in the Swarthmore game, at center forward. Wolfe was an all-state player in New Jersey last year at Verona High School. Pete Syprykevitch and Bob Davis, the two scorers in the Swarthmore game, will form a pair of inside positions, while Howie Berman and Bob Copeland will be at the wing posts.

The backfield will consist of Jake Saltzman, Jimmy Hill and Byung-Chen Park at the half-back positions, while Howie Berman and Bob Copeland will be at the wing posts.

What's doing
at Pratt & Whitney Aircraft

Here's something unique in education.
Near the Pratt & Whitney Aircraft plant in East Hartford, Conn., a full-fledged graduate center was established this fall by Rensselaer Polytechnic Institute. Located 115 miles from R.P.I.'s home campus in upper New York State, the new graduate facilities will enable working engineers from Pratt & Whitney Aircraft and other companies in the Hartford area to continue their studies. Without interrupting normal employment, it will be possible for students to obtain advanced degrees in specialized fields from the nation's oldest engineering college.

Designed to raise the level of knowledge and to broaden the base from which advanced research can be approached, this entire program will simultaneously lead enrolled engineers to greater achievement in their careers.

First 702 Computer in East. Just installed. This advanced I.B.M. computer joins earlier electronic marvels that played a vital role in the development of Pratt & Whitney Aircraft's famed J-57 jet engine.

Newest Supersonic Fighter. The Chance Vought F4U, latest in a growing group of military aircraft to fly faster than sound. Like most other record-breakers, it is powered by a P & W J-57 turbojet.

Last Wasp Major, most powerful piston engine ever developed, is shipped by P&W. This marks the end of an era as turbojets take over as the source of power for heavy bombers, transports and tankers.
