**Football Scrolls**

To Be Presented To Sebo, Team

Documents Circulated

By Spirit Committee

Scrolls commending the 1955 Pennsylvania football team and its coaching staff are being circulated for the signatures of university students, and will be presented to Coach Al Sebo and the team on the day before the Cornell game.

The Spirit Committee, a student body organization sponsored by the Spirit Committee, class men who are members, is composed of the team's officers, stated Theo-

dore Moore, Spirit Committee chairman.

Signing the Scrolls

Scrolls will be available for signing between 1 and 2 p.m. each day at Houston Hall and will be circulated through the morning, afternoon, and evening classes. All other students of the team's are invited to mail the scrolls around in their respective classes.

Between 130 and 140 scrolls will be circulated, and each scroll has been signed by some officer of the team.

Text of Resolution

The members of the top five classes of the university, in a resolution designed, hereby support the following: "The 1955 University of Pennsylvania football team and its coaching staff should be commended for the outstanding job they have performed, and against seeming insur-

mountable odds, they have exceeded the best expectations of the students of the university.

The team's在今年的比赛中, the students demonstrated an ability to win games, both against their rivals and against the nation's best teams. The team's courage and sportsmanship were also evident, as they displayed a determination to succeed at all costs.

The Spirit Committee is proud to present this award to the team, as a token of our appreciation for their hard work and dedication. We hope that this award will serve as a reminder of the spirit and values that the team embodies, and that it will inspire future generations of Penn football players to strive for excellence.

**First Philanthomathian Talk Presented by Peckham**

Doherty Named As New Director Of Penn Relays

Dr. James Doherty, Pennsylvania University's famous exponent of the sport of track, yesterday announced the appointment of a new director.

The new director, Dr. Doherty, is a well-known figure in the field of track and field. He has been associated with the university for many years, and his appointment is seen as a major step forward for the program.

The appointment of Dr. Doherty has been welcomed by many members of the university community, who see him as a strong leader who can help take the program to the next level. The university is already considering ways to honor Dr. Doherty for his contributions to the program.

**Examination Schedule**

Examination Schedule

FALL TERM 1955-56

The College, College for Women, School of Education

191 to January 21, 1956

The examinations are scheduled to be held at 10 a.m. and 2 p.m. on the following dates:

- **Monday, January 21**
- **Wednesday, January 23**
- **Friday, January 25**
- **Monday, January 28**
- **Wednesday, January 30**
- **Friday, January 31**

**Examinations**

- **Mathematics**
  - Monday, January 21, 10-11 a.m.
  - Wednesday, January 23, 9-10 a.m.
  - Friday, January 25, 9-11 a.m.
  - Monday, January 28, 9-11 a.m.
  - Wednesday, January 30, 9-11 a.m.
  - Friday, January 31, 9-11 a.m.

- **English**
  - Monday, January 21, 1-2 p.m.
  - Wednesday, January 23, 1-2 p.m.
  - Friday, January 25, 1-2 p.m.
  - Monday, January 28, 1-2 p.m.
  - Wednesday, January 30, 1-2 p.m.
  - Friday, January 31, 1-2 p.m.

- **French**
  - Monday, January 21, 9-10 a.m.
  - Wednesday, January 23, 9-10 a.m.
  - Friday, January 25, 9-10 a.m.
  - Monday, January 28, 9-10 a.m.
  - Wednesday, January 30, 9-10 a.m.
  - Friday, January 31, 9-10 a.m.

**Special Examinations**

- **Monday, January 21**
  - 9-10 a.m.
- **Thursday, January 24**
  - 9-10 a.m.
- **Monday, January 28**
  - 9-10 a.m.
- **Wednesday, January 30**
  - 9-10 a.m.
- **Monday, January 31**
  - 9-10 a.m.

**Additional Enrollment Possible Through Modernized Revisions**

The university is now able to accommodate an additional 10 students in some subjects. These changes are the result of a modernized curriculum that has been implemented in all departments. The new system allows for a more efficient use of resources, and will enable the university to accommodate a larger number of students.

**New Emphasis**

The new emphasis is placed on the use of modern technology in teaching. This includes the use of computer programs, interactive media, and other modern methods of instruction.

**Engineering Enrollment**

There are now about 1,000 students who are currently enrolled in the School of Civil, Metallurgical, and Mechanical Engineering, and the School of Electrical Engineering. This is an increase of 500 students over the previous year.

**Pennsylvania Player's production of 'Our Town'**

"Our Town" is advertised on a billboard on top of a campus building. The production will be held in the university's THEATER, December 9 and 10, to raise money for the university's thespian society, "The Players."
Editorial

- Twin Shortages

The President's announcement that the Engineering Schools will now be able to accommodate 50% more students is indeed a challenge the universities are working on, underlying their commitment to provide more engineering education. The reason why so few students are enrolling in the engineering courses is not hard to find. Too many high school graduates find it hard to decide whether they should go straight to college or prepare for a trade. This decision can be overwhelming. One challenge they are unwilling or unable to face is inadequate high school preparation.

A solution to the problem would involve the training of more and better high school teachers. Yet the report to the Associated University of Pennsylvania Clubs which cited the underdevelopment of the Engineering Schools, the need for more students to fill the ranks of the School of Education was mentioned. These short shortages threaten to plague the University, and the country at large, for a good many years.

It would seem that the University might begin to fill these gaps by a more intensified campaign to the high schools in these fields. Philadelphia and surrounding area schools especially might very well be the source of many new students, if the University made some effort to reach them. "Flying squads" of representatives of the University have made some effort to reach them. "Flying squads" of representatives of the University have made an extended tour through Pennsylvania, visiting schools, and even making stops in New York. Increased knowledge about the University, its programs, and the need for more students is being spread through this campaign. To the hands of the representative, the effort appears adequate. The second time it was heard, the message of the University was clearly and loudly repeated. There is a need for more students interested in the University. There is a strong demand for the University's offerings.

To the hands of the representative, the effort appears adequate. The second time it was heard, the message of the University was clearly and loudly repeated. There is a need for more students interested in the University. There is a strong demand for the University's offerings. The University could still expand its facilities and its programs. It could still expand its student body. It could still improve its reputation.

The University of Pennsylvania's Men's Glee Club, sometimes underrated as a major department, has finally come into its own as a prominent extra-curricular organization. For some unknown reason, or possibly because of the great over-emphasis on one or two campus activities, the Men's Glee Club has not until now gained the recognition and respect which it deserves. The club has shown a high quality of tone and performance. To go through the club, to hear the club, is a pleasure.

One of the main reasons for the club's recent growth in prominence has been the efficiency of the present administration under the guidance of Mr. Robert R. Goodall. The club, which formerly appeared in tuxedo, might represent Penn in its traditional Ivy class. It is one of the members purchased these tuxedos for the club's performance. The club has shown its potential in recent years.

The Men's Glee Club, although primarily composed of college students, has a sizable alumni group. The club has helped its alumni group, to the success of the club, which has been made by some organizations whose work purposes the Men's Glee Club. The club has also included the alumni group in its activities. The composition of its performance, has also included the alumni group in its activities. KN Edges TEP To Win 1-F Crown; 1st Coed Swim-Meet Held Yesterday

Wakeley, Wick Star; Mink Cops Diving Crown

The 1st All-Division Coed Swimming and Diving championship was held yesterday at the University. According to reports, men and women were held at the Hubert Club. The meet was hosted by the University of Pennsylvania and was held at the Hubert Club. The meet was attended by over 1,000 spectators, including many university officials and swimming enthusiasts.

One of the best performances in the meet was by Joe Wakeley, who won 13 events. He also set records in both the 100 and 200 yard events. The men's team, coached by Jack O'Sullivan, dominated the meet, winning 13 of the 16 events.

In the women's meet, the University of Pennsylvania dominated, winning 14 of the 16 events. The women's team was coached by Mary Lee, who also set new records in both the 100 and 200 yard events.

The meet was held in front of College Hall at 3:45 p.m. on Wednesday, November 16, 1955.

I.V. Soccer Men Oppose Drexel; Seek 4th Win In Season's Finale

The University of Pennsylvania's volleyball team is preparing to face Drexel College in the final game of the season. The team has won three out of the four games played so far this season and is currently in third place in the league.

In the game against Drexel, the team will be facing their biggest challenge yet. Drexel College has been their most difficult opponent so far and the team is determined to win this game. The game will be held at the University of Pennsylvania's gymnasium.

The team is currently led by Coach Artie Rincon, who has been coaching the team for ten years. Rincon has been instrumental in developing the team's strategy and has been credited with the team's success.

The team's success this season can be attributed to Rincon's leadership and the team's hard work. The team has been practicing for weeks leading up to this game and is determined to give their best performance.

Sports Heelers

There will be a meeting of all sports staff members tonight at 7:30 in the Franklin Society Room.

A Gaster-Ford Advertisement
Dave Johnson asks:

What’s involved in production work at Du Pont?

Jim Hamilton answers:

Well, Dave, I’ve been doing production work at Du Pont for about seven years now, and I’m still getting involved in new things. That’s what makes the work so interesting—new and challenging problems arise all the time.

To generalize, though, the duties are largely administrative. That’s why effectiveness in working with others is one of the prime requirements. Teamwork is important in research and development work, for sure. But it’s even more important in production, because you work each day with people having widely different skills and backgrounds.

A production supervisor needs a good understanding of engineering and scientific principles, too. He has to have that to get the best results from complicated equipment—but he doesn’t necessarily need the specialized training that goes with research and development work. A real interest in engineering economics and administration is usually more helpful to him here than advanced technical training. The dollar sign’s especially important in production work.

It all adds up to this, Dave. If you enjoy teamwork, and have a flair for large-scale, technical equipment, then you’ll find production work mighty rewarding.
